POSTOFFICE FOR CRATER LAKE

Preparations are being made to establish a temporary postoffice at Crater Lake this summer, as well as a stage line between Fort Klamath and the great summer resort for the benefit of tourists and visitors.

Superintendent W. F. Arant was in Klamath Falls the first of the week circulating a petition directed to the post office department at Washington, D. C. asking for the postoffice and mail line. He obtained plenty of signatures, and it is believed that the request will be granted.

It is only intended to keep the post office four months, which will cover the summer season, and a postoffice at the place every season for the length of time would prove beneficial to the great park which draws so many sightseers annually.

The distance from Fort Klamath to Crater Lake is 22 miles. The road is good, and with a tri-weekly line, this would draw hundreds of visitors who would not otherwise go to the park, owing to the inconveniences of transportation. Superintendent Arant states that the indications are that a large number of people will visit the park this season, as Klamath's fame is spreading abroad, and the fact that thousands of people who visit the Lewis and Clark Fair have heard of this wonderful beauty of nature, makes it probable that they will take advantage of the occasion to see it.

DEATH OF MRS. CARRICK. Mrs. Mary E. Carrick, of this city, died last Friday morning at the age of 47 years, 10 months and four days. Deceased was the wife of A. D. Carrick, who was killed by lightning in this city less than a year ago. She was a native of Missouri, and came with her parents to Jacksonville, Oregon, when three years old. Her maiden name was Mary E. George. She afterward met A. D. Carrick at Yreka, California, and was married to him about 25 years ago. They came to Klamath Falls a few years later, where they remained until their respective deaths.

Deceased is survived by four children, one of the sons having died at Los Angeles a few years ago. Those living are Mrs. William Humphrey of this city; Geo. W. Carrick, aged 19; Eva Carrick, 15, and Umberto, a boy aged 13 years, who also reside in Klamath Falls.

Deceased was a member of the Eastern Star, which order conducted her funeral services. Rev. J. W. Bryant performed the religious rites. She was a member of the Presbyterian Church of this city, and before her health failed was an industrious religious worker. She was formerly a member of the Congregational Church, but united with the Presbyterians a few years ago in the absence of any Congregational church organization at this place.

Notice of Removal. T. G. Donan and Edward Ferguson have removed their shoe repairing and clothes cleaning shop to the building in the alley next to the K. K. K. store, where they will be pleased to see their old and new patrons.

EYE TROUBLES
Do your eyes blur at times?
Do they hurt after reading?
Are there frequent headaches?
Are the muscles around the eyes drawing wrinkles and crow's feet?
Only when sight is gone is the terrible danger realized. I examine the eyes in the most intelligent and careful manner without charge. If glasses are needed I can supply the correct lenses mounted in any manner desired.

IRRIGATION NEWS.

Engineer T. H. Humphrey received instructions yesterday from the officers of the Reclamation Service at Washington, D. C. to immediately make an estimate of the number of engineers necessary to establish a survey of a permanent government irrigation canal in Klamath County. The Engineer has been busy making figures, basing his estimates upon the data which he has obtained since he came to Klamath County, and will inform the head officers at once of the number of engineers required.

Mr. Humphrey considers this message from headquarters a very important one. He says that it means that the government has not only decided to build the canal, but it intends to go about the work at once.

The Consulting Board has given definite notice that it will meet here in April. It will meet no doubt at the same time the Arbitration Committee meets. The Consulting Board will make general estimates of the work, advise as to plans, and manner of performing the work. The Engineer is thoroughly satisfied that but little time will be lost in proceeding with the work.

In the meantime, the Klamath Canal Company is pushing its work right ahead with a full corps of men. It is believed that this is being done by the company so that in the event of a failure of the Arbitration Committee arriving at a satisfactory agreement, the local company will be able to continue its work and carry out its contracts with its subscribers.

The general opinion of the public is, however, that the arbitration will be made satisfactorily and that before the middle of April the Klamath Canal Company will have been paid and retired from the field, and that the government will be busy carrying out the great project for which the people are anxiously waiting.

FEDERAL INDICTMENTS.

The past week has been one of indictments by the Federal Grand Jury at Portland, which have caused sensations and scandals throughout the country. United States Senator Mitchell, Congressman Hermann and Williamson have all been charged with being implicated in the gigantic land frauds of the Pacific West, besides having entered into a conspiracy to obtain large bodies of public lands through fraud.

In addition to these, Judge Tanner of Portland, Mitchell's former law partner, was indicted for perjury, and the aged lawyer went before the court and pleaded guilty, stating that he had sworn falsely to save his partner, but that he made a clean breast of the matter after the indictment was found in order to shield his son, who was about to become implicated in the matter.

In addition to these, F. P. Mays, State Senator from Multnomah, W. N. Jones and George Sorenson, were also indicted as accomplices with the government officials in the conspiracy for crime.

The range of the work of the Grand Jury has extended still further, finding indictments against prominent men throughout the state. Even two of our own townsmen have fallen under the ban of the Grand Jury's work.

While a number of papers and a number of persons have already pronounced many of the men charged with crime guilty, yet the law presumes that they are innocent until their guilt is established before a jury in the open courts of the country, and this charitable view should be taken by all.

Senator Mitchell who has heretofore held the sympathy of the United States Senators who believed him innocent, has now lost their confidence and though they believe him guilty he declares he will hold his seat in the National Assembly and will fight the case to the bitter end.

As to the Klamath Falls citizens who are indicted, the people do not regard the matter seriously and believe that the men, who are good citizens and large property owners, will come out of the trouble without stain upon their characters.

RAILROAD BONUS GRANTS.

The railroad subscription list is growing. About \$30,000 has now been subscribed, and \$20,000 more is in sight. This alone will come from the Klamath Falls citizens, and the remaining \$50,000 or a major portion thereof, will come from the outside. The citizens of the county have not yet been called upon to contribute, but it is believed when the matter is thoroughly explained to them that they will contribute largely to the enterprise.

The wholesale men of Portland, San Francisco, Sacramento, and other cities doing business in this county have been called upon for contributions and it is expected that several thousand dollars will be raised from this source. In addition to these non-resident land owners and owners of timber claims in this county have been communicated with and they are expected to add largely to the fund. Messrs Driscoll and Worden have been busy the past week, and have in the following as the corrected list to date of subscriptions to the bonus:
