WHY Advertise in the Newspapers

I advertise in the newspapers because I am not ashamed of my goods or the work of my repair department, and to let people know about myself, my store and my stock.

Because I cater to the intelligent class and they read the papers, and I believe in increasing my business.

Because I talk to more people through the newspapers than I could in any other way.

Because my newspaper advertising has brought me greater returns for the least expenditure of any advertising I have done.

Because when I write an ad., I am not too stingy to pay for placing it in the best possible medium or to have it in so prominent a position that it is attractive.
