

"TOO MUCH IS ENOUGH" SAYS THE MAYOR

ARE WARNED NOT TO BUY

Books of the Water Users Association May Be Closed October 15. After Which Lands Not Signed Will Be Left Out.

After next Monday, September 10, no subscription of stock of the Klamath Water Users Association will be accepted by the Secretary of the Association unless accompanied by full amount of all assessments previously levied, and an enrolling fee of 25 cents per share, and after October 1st such enrolling fee will be 80 cents per share. The chief engineer of the Reclamation service has recommended that the subscription books of the Association be closed October 15.

All of the above applies not only to the present owners of assigned lands, but to future purchasers of such lands. In view of this fact, it would be well for those who contemplate purchasing lands to ascertain from the Secretary of the Association whether or not such lands are properly signed up for government irrigation. No one can afford to buy lands that occupy a doubtful position in this respect.

Citizens Take Action.

Considerable feeling has been aroused among the residents of Klamath Falls over the condition of the water front at the west end of Klamath street. The dyke that was thrown up last fall by the property owners shuts out all the drainage to the lake and has formed a big hole which is very favorable to the breeding of typhoid germs. The city authorities have taken no action to remedy this menace to the health of the town, and yesterday a committee of about fifteen of the business men was formed, with the intention of taking steps and opening up the dyke and allowing this pond to drain. It is stated that the pond is from 12 to 18 inches higher than the lake and that if an opening was made it would drain itself. Upon hearing of the action, Councilman Bishop, one of the street committee, stated that the city would put men to work at once to make a drain. The committee postponed the matter for a short time to give the city an opportunity but they intend to guard the health of Klamath Falls if they have to do the work themselves.

General Compsom Dead.

Gen. H. B. Compsom, formerly in the Indian Service at Klamath Agency and Brigadier General of the Oregon militia died in Portland, Thursday morning, where he has resided for several years. The deceased was well known in Southern Oregon.

He came to Oregon in 1884, in charge of the first postal car that reached Huntington over the Oregon Short Line. A year and a half later he was appointed, through the influence of Governor Penroy, to the position of Superintendent of Instruction of the Klamath Indian reservation. Afterwards he was, by the name Governor, appointed Brigadier General of the Oregon State Militia, serving one term. He served as a member of the Oregon Railway Commission during the last three terms of that body.

George Chase arrived in town Monday with two six horse loads of machinery for the new Klamath Falls Steam Laundry. Mr. Neve, the proprietor, says that he will be ready for business in a couple of weeks.

PRESIDENT MARTIN OPPOSED TO ANY MORE SALOONS IN CITY OF KLAMATH FALLS

It Takes the City Council Two Nights to Dispose of its Monthly Business--Bishop Introduces New Street and Side Walk Ordinance.

"I am opposed to any more saloons. We have too many now. As long as I am a member of this Board I will oppose any more saloons and think we ought to get rid of some we have." Thus spoke President Martin at the regular meeting of the City Council Monday evening when the application of J. E. Garnold came up asking for a saloon license.

A renewal of a saloon license for six months was granted to Fred Bishop from September 7, and to C. D. Wilson & Co. from September 8. On motion of Councilman Willis, the application of J. E. Garnold was laid on the table until next meeting, as two of the Council, Bishop and Ward, were absent.

A petition was presented signed by W. S. Plough and others, asking for a sidewalk from the north-westerly corner of block 78, thence northerly to south-westerly corner of block 46; thence westerly to the south-easterly corner of block 8. This sidewalk is for the accommodation of pupils attending the public school at its present location. The petition was referred to the street committee.

An ordinance was introduced by Councilman Willis to grant a franchise to the Langell Valley Telephone Company for a right of way through the city of Klamath Falls for the erection of poles and the stringing of wires, beginning at the southeast corner of block 36 at the corner of 11th and Pine streets along the west side of 11th street to the corner 11th and High, along the south side of High street to 9th St, along the

north side of High to 5th St, along 5th St to Main street, where the central office would be located at Schallcock & Dagget's store. The company agrees to construct a telephone system and have it in operation from Langell valley to Klamath Falls within one year from the date of the passage of the ordinance. On motion of Councilman Schallcock it was passed to its second reading.

As there were several other matters of importance to be acted upon the Council adjourned until Tuesday evening, September 8.

The adjourned meeting on Tuesday evening was called to order at 8 o'clock, there being present Alex. Martin Jr., president and Trustees Willis, Schallcock and Bishop, Recorder C. C. Broxer and Marshal J. C. Smith.

The petition of O. B. Gates and others, asking that a sidewalk be ordered constructed along the east side of Fourth street from Main to Washington, was read and upon motion of Bishop was granted and the Marshal was instructed to see that side walks were constructed according to the ordinance.

The petition of Elias Obenchain and others asking that street lights be placed at the corner of Fourth and Washington streets, and at the corner of Fourth and High, was granted.

A resolution was passed authorizing the purchase from Geo. R. Hurn of a strip 55 feet by 230 feet between Pine and High street to be used as the continuation of Fourth street. The purchase price to be \$950. A deed was submitted by Fred Schallcock and

wife for a strip on the west side of the Hurn property five feet wide, but as the description was considered defective Mr. Schallcock was asked to submit another deed.

The Langell Valley Telephone Company franchise came up for discussion and it was moved and carried that when the Council adjourn, they adjourn until Monday evening September 11, when this franchise will be made the first order of business.

Mr. James Williams asked that he be allowed to withdraw the petition of John E. Garnold asking for a saloon license, which was presented at the meeting Monday evening. The petition was allowed to be withdrawn.

Ordinance No. 79 was introduced by Councilman Bishop providing for the construction, alteration and maintenance of streets and side walks, and repealing all ordinances conflicting. The ordinance provides that a curb line may be established on Main and Klamath streets 6 feet from the property line and for the construction of 8 foot side walks, on streets 50 feet wide the side walk shall be 6 feet wide and on all other streets the curb line shall be 10 feet and the side walks 6 feet wide. The abutting property owners shall construct walks when ordered to do so by the Council and upon failure the walks shall be built under the supervision of the Marshal, and the cost shall be charged to and become a lien upon the property. The ordinance was passed to its second reading.

Mr. John E. Pelton and Miss Myrtle Grainger, both of Jackson county, were united in marriage at 8:30 Thursday evening at the Lakeside Inn by Rev. O. W. Triplett of the Baptist church. Mrs. C. Ross Anderson acted as bride's maid and H. V. Mitchell as best man.

The bride is the eldest daughter of Mr. and Mrs. F. M. Grainger of Ashland, and is very popular in that city, where she has followed the vocation of book-keeping for several years. Mr. Pelton is a widely known and successful stockman and an ex-sheriff of Jackson county. He is at present a member of the Pelton-Neil Cattle Company, having large herds of stock in the Wood river country in Klamath county and in California.

Mr. and Mrs. Pelton will make their home at Fort Klamath for some time and later will go to Fruto, California for the winter.

Mr. Harry E. Pointer and Miss Corrie A. Merchant, residents of Klamath county, were married at the home of Mr. and Mrs. H. E. Telford in Klamath Falls, on Wednesday, Sep. 30, 1905.

William Lathrop and Miss Nora Moore were married in Klamath Falls Thursday, September 31, 1905, by Justice S. C. Graves.

Word was received here Monday that Bishop O'Riley would arrive in the Falls Saturday and dedication services would be held Sunday in the new Catholic church and his evening lecture service will be held in the Opera House.

"Our price for beef is controlled by the Chicago markets, while the San Francisco prices vary to a certain extent according to the local demand. The price at present is low but the farmers here make a mistake by holding their hay too high. When it is possible to buy hay in the Yakima valley and other districts for three to three and one-half a ton, feeders cannot afford to pay five dollars for it here.

"There are plenty of cattle in California this year as nearly all the cattle from this section were taken there last year to fatten and are still there."

E. R. REAMES EXPLAINS

Submits A Communication To the Directors of Water Users Assn. Telling Why He Does Not Sign the Trust Deed.

To the Directors of the Klamath Water Users Association--In justice to all, I believe a full and true statement should be made regarding certain lands, which have not been signed or for which a trust deed has not been given to the Water Users Association, in order that the government might commence work on this project.

Not knowing the conditions that would prevail upon the completion of the government system and the putting of water on these lands, I made an effort to dispose of my excess land at a very low figure so as not to be in the way of the enterprise and not be required to sign any more land than a resident could hold and obtain water for irrigation. In doing this I gave a bond for a deed to Mr. Holabird and Major C. E. Worden, which I understand has since been transferred to the Klamath Development Company, agreeing to make a deed to the land at any time within two years from June 19, 1905, they to have the privilege of entering upon the land and disposing of same, and in case the land was not sold within the two years it was to revert to me. I believed that these parties were in a better position to dispose of the land in a much shorter time than I could have done.

The contract provides that they should begin advertising and selling the land within 30 days. Up to this date they have not sold any of the land and as far as I know no effort has been made to do so. I received \$500 as part payment and the balance was to be paid as the land was sold. I do not believe I could make a trust deed to this land to the Water Users Association as I have bound myself to make a good and lawful deed at any time within two years.

There are restrictions regarding certain lands as to the minimum price at which they may be sold, but no restrictions as to how high a price may be asked. Now, in case they should place a prohibitive price on the land or for any reason not sell it, all this valuable time that I might have to dispose of my land would be used up in the two years covered by the contract. If the land reverted to me I would be compelled, according to the trust deed, to allow the Association to sell the land at auction and would have to accept whatever was offered.

If the holders of the contract would make a sufficient payment so that I would know that they intended to take the land, I would be willing to sign on same conditions as others, or if the Water Users Association will give me two years to dispose of my land after this contract expires I am also willing to sign, provided the holders will consent. I am also ready to return the money paid for the bond for deed and take the land back, and would then immediately sign all my land to the government.

I feel that I have done everything in my power to dispose of my excess land, and regret that this unfortunate complication has arisen. I could not foresee that this would be the case when I gave the contract, as it was the general understanding that sufficient time would be given to dispose of all excess land. It is only recently that the condition has been known that excess land must be sold by the time the water is ready for delivery. I am willing to do what is right and just, but as a matter of business must have some protection.

Fred Stahlman, the genial merchant at Bly arrived in town Monday and has been visiting his numerous friends besides attending to other business.

READY FOR SUBSCRIBERS

The Klamath County Directory, Allen & Salcido publishers, is now completed and ready for the subscribers. Messrs. Allen & Salcido have been engaged upon this book for the past two months, doing the mechanical work in the Republican job office. The directory is a most valuable acquisition for Klamath county and is creditable alike to the publishers and the section generally. It will be found a first-class advertising volume to send to Eastern friends, as, besides a list of the voters of the county, the book contains a full and interesting description of the county and its resources. The books are now on sale at the Republican office--75 cents per copy--6 or more at the rate of 50 cents per copy.

Notice to the Public. Thinking there might be some that were not up-to-date regarding the various movements going on in the city of Klamath Falls, the city of destiny, for the benefit of such I wish to announce that I have established a Tin and Plumbing business on Klamath Avenue in rear of the American Hotel. I wish to announce that anyone needing material in my line will be treated right. In fact, I have decided to make my prices very conservative considering the market, and I guarantee all work both in Tin and Plumbing to be thoroughly done and satisfaction rendered.
