

## CARLOADS OF BEET SEED

Shipped to LaGrande, Or. to be Planted This Season.

Nearly two carloads of sugar beet seed have been received by the Amalgamated Sugar Company for planting during the coming season.

The home-grown seed is to be used principally for experimental purposes, and if there is a reasonable promise of good results, the Sugar Company will use it exclusively instead of annually sending abroad for a supply.

The cost of two carloads of beet seed is quite an item, and the company would prefer spending its money in the United States to sending it to Germany.

Last year the company used a quantity of seed that was grown at the agricultural experiment station at Union. The results were highly satisfactory, in fact, better than secured from the imported article. But the supply of seed secured from the station was too small to cut much figure.

Superintendent Bramwell says the beet prospects for the coming year are very favorable. It is the intention to have a greatly increased acreage, not only through more contracts with individual growers but in larger areas to be farmed by the company.

Expressions from Many Citizens of Klamath Falls on Bonding City to Build Sewers.

Every person seen was in favor of bonding the city for the purpose of building sewers and were anxious to have the matter brought up as soon as possible to be voted upon by the people.

## CANDIDATES

Harvey K. Brown, for the past four years sheriff of Baker county, announces himself a candidate for the nomination for governor on the republican ticket subject to the voters and not the machine of the party at the primaries on April 20, 1906.

His platform is as follows: The primary law and the election of all officers by direct vote of the people.

Abolishment of all machines and bosses and let the people rule.

Enforcement of all laws, city, county and United States and the repealing of the same if not the proper laws for the people.

And last but not least, woman suffrage.

I hereby announce myself as a candidate for the office of County Judge, on the Republican ticket, subject to the decision of the voters at the Primary nominating convention.

If nominated and elected my entire and undivided attention shall be given to the duties of that office, in the performance of which I shall endeavor to merit the confidence reposed in me by a strict enforcement of the laws as I find them. I shall favor devoting the road fund derived from the state to a system of permanent road-making on the main thoroughfares, gradually extending the same to all county roads.

The public officer should always remember that he is a servant of the people, chosen to serve their best interests and not for private gain nor public notoriety, and the zeal and faithfulness with which he serves his masters is the measure of the honor conferred.

Respectfully, O. A. STEARNS.

Ready for Business.

I am now ready to furnish to the public various makes of Pianos and Organs. As I am selling direct from Eilers, which is one of the cheapest houses on the coast, I can furnish a better piano at a better price than any Agent that has ever come through this country.

## SOCIALISTIC PRINCIPLES

The Party that Will Eventually take the Place of Democratic Party in United States.

Written for the Republican by Chas. W. Sherman Jr.

To be concise, Socialism is the collective ownership by the people of all the means of production and distribution of wealth.

It is a mistaken idea that Socialism means the ownership in common of wealth. The people are to produce the wealth by collective effort, but the wealth will belong to each individual.

There is no doubt about it that the invention of gunpowder made the feudal equal to the mailed knight and caused the overthrow of the feudal system.

Under a Socialistic order all the powers of nature will be utilized, invention of machinery encouraged and every person must perform their part in producing the wealth of the nation.

Under the present industrial system there is fifteen hundred dollars a year that the laborer produced that he did not get. The Socialist believes in giving every man the full product of his labor.

In the agitation of the question of negro slavery, the educated and thinking men were the first to advocate freedom.

Such as Professor Hesseay, Prof. A. M. Mills, B. O. Flower, W. A. Wilshire.

Direct Primary Law.

EDITOR REPUBLICAN—There have appeared from time to time, in the various newspapers, criticisms of the new Primary Laws, but there is one feature that seems to deserve more notice than has as yet been given to it, as it offers opportunities to the shifty office seeker greater than those existing in the old nominating conventions.

Suppose for instance, A or B, desiring a position on their party ticket that they knew was unattainable if left to the majority vote of their party, resort to premature canvasses of the various precincts, and by plausible representations secure the promise of several prominent men in their party to work their precinct in the interest of the said A or B.

Here then A or B have in advance an active working machine to defeat any later candidate, though the latter may possess greater qualifications and popularity, and in the event of their being more than four candidates in the field, the least qualified, or at least desired, candidate might be nominated by less than one-fourth of his party vote, thus jeopardizing the success of his ticket and turning down the better men.

Would it not be well to regard with suspicion any attempt to thus secure promises of support to office prior to the public announcement of candidates? Voters may inadvertently place themselves in a peculiarly awkward position by pre-election promises.

Certainly none but the professional politician and shifty office seeker would make such an attempt, and the fact that such an attempt was made ought to alienate the support of all fair minded voters.

"Eternal vigilance is the price of liberty," and an untrammelled ballot is the guarantee of popular government. VIGILANT.

An amendment proposed by the People's Power League to amend sections 1 and 2 of article 17, so that one legislative assembly may submit constitutional amendments, and that when the vote upon an amendment has been canvassed by the governor and a majority found in its favor, he shall proclaim it adopted, and it shall then be a part of the constitution, beyond the power of the courts to pass upon; also that no law for a constitutional convention shall be in force until approved by a vote of the people.

An amendment proposed by the People's Power League to amend section 2 of article 11, giving the legal voters of a municipality power to frame and adopt their own charters, and forbidding the legislature to create municipal corporations.
