NOTES FROM BONANZA

BY C. U. AGIN.

Our town is still alive, and prospering well. The "beautiful" is disappearing and every thing looks like Spring.
A wedding is the program for to-morrow in Dairy country. Nothing like it.
Several of our people were in the Falls last week on land business, but the land

did not suit the people, hence no trade was effected.

Mr. Burnes of the Merrill Record was in town last week and thinks of locating a paper in our town. Come on Mr. Burnes and we will help you along in our feeble way.

Our church people had a necktie social last Friday night and report a good time and a financial success.

The parsonage is new on the lot belonging to the church and is being rapidly pushed to completion and will be ready for occupancy in about 25 days. This is a great addition to our town.

We are sorry to chronicle the illness of Mr. Earl White. We hope for his speedy recovery.

The Junior Epworth League of this place had a good meeting last Sunday night at 6 o'clock P. M. The subject of "SUCCESS" was ably handled by Master Mont Hamaker, President of the League. The League meeting was followed by regular Church services.

We are informed that the I. O. O. F. lodge of this place had work last Saturday night and will have work in the 2nd degree next Saturday with a prospect of work in the Initiatory degree. This lodge is growing fast and is one of the best orders in existence.

Chas. Horton departed for San Francisco last Monday to be absent about three months. Charles is a rustler and is one of the best stockmen in this part of the country, and a successful trader in that line. Having been raised in this county, we are glad of his success.

Miss Dora Goss, one of our teachers, has been confined to her bed for three days with an attack of the la grippe. Our school closed on Tuesday noon, as the Principal J. G. Wight was compelled to be in attendance at the Teachers examination the remainder of the week in Klamath Falls. School will open next Monday with a renewed vigor however.

HIGH SCHOOL NEWS

BY BERYL BALLARD

The constitutional debate Friday afternoon was very interesting and instructive. Roberts' Rules of Order was needed to settle the many disputes.

More valuable time was taken up Friday evening than was necessary by the debaters. The sentiment of the students is that their speeches would be more impressive were they more condensed. A matter which will be taken up at the next regular meeting of the Literary Society will be the limiting of the time of debates.

Professor Swan spoke to us during chapel exercises Monday morning on "How to Study."

Many faces of High School students showed signs of disappointment when they entered the building Monday morning and failed to receive the long expected Professor Rowley.

The following is the program which will be given at our next Literary Society meeting, Feb. 23, '06.

Music.....	Winnie Withrow
Recitation.....	Fannie Virgil
Five Minute Talk.....	Harry Benson
Recitation.....	Edna Norris
Solo.....	Beryl Ballard
Recitation.....	Garrett Van Riper
Personal Experience.....	Jesse Siemens
Recitation.....	Mae Martin
Composition.....	Augustine Bonney
Recitation.....	Dan Parker
Declamation.....	Luke Walker
Essay.....	Carlyle Yaden
Current Events.....	Lena Barnum
Debate, Atta Griffith, Alexander Martin, Elsie Stout, Lester Leavitt.	

Ashland Normal Notes.

The Enterpean Club met February 3rd at the home of Miss Elma Bryant. An excellent program, consisting of vocal and instrumental solos was rendered.

The Congressional Debating Society met Friday evening in the Chapel. The question for debate, "Resolved that the President's salary be raised" was left undecided. The following officers were elected; President, James Martin; Vice president, Walter Herndon; Secretary, E. W. Pollard; Cor. Secretary, Clarence Benedict; Treasurer, O. Newton; Sargeant at Arms, Forester Loosely.

A reception to the students of the Academic Department, will be given in the Chapel, Saturday evening by the Y. W. and Y. M. C. A.

Chapel notes for this week are as follows: Monday morning, Prof. Van Scoy gave an interesting talk on the Negro question. Tuesday morning Pres. Mulkey gave an instructive and interesting talk on Naturalization which was followed on Wednesday morning by a talk on Suffrage. Thursday morning Mr. Sullivan, late City Supt. of the Alameda schools, addressed the students. Mr. Anderson, a graduate of the State University at Lincoln, Nebraska, also addressed the students. Friday morning Prof. Mellinger gave a talk on Economics.

The Eugene Basket Ball Team played a return game at Ashland Thursday evening. The score stood 19 to 21 in favor of Eugene.

Beck Bros., will pay five dollars to the person who finds a two-year old chestnut sorrel mare colt, with small white spot on forehead, branded E on left shoulder.
Beck Bros., Dairy, Or.

I will pay the above reward for a watch my repair department cannot put in perfect running order. L. Alva Lewis.

YONNA ZEPHYRS

BY "OPTIMIST."

Miss Bessie Eglinton, of Poe Valley, has been visiting for the week past in Dairy. She is staying with her sister Mrs. Oscar Lee.

A party consisting of the elite of Dairy society met at Mr. Sedge's store on Thursday evening. They played games and watched the eclipse of the moon.

Mr. Ike Davis was misinformed and sat up to watch the eclipse on Wednesday evening.

Jacob Rueck was unfortunate last week in having a valuable brood mare badly cut on a wire fence. He tied his team to a post and some loose horses running by frightened them and they became tangled up in the fence and also broke the tongue of his back.

August Liskey and William Woods have been breaking colts the last week.

W. P. Sedge, the Dairy merchant, has been experimenting by drilling a well near his store. He struck a strong stream of water at a depth of seventeen feet.

John S. Shook and his brother-in-law, Mr. Jones, have been busy for some time building a house on the latter's homestead just north of Dairy.

Last week Riley Woods was up on his ranch near the Fitch saw mill. He found snow three feet deep.

It is often said that a carpenter has a poor house and that a wood cutter is out of wood. This is verified in the case of Brown Michael, of Fine fat. Brown has a wood saw and cuts wood for a business, but at the present time is nearly out of wood and can hardly get it on account of the deep snow.

M. P. Nelson, the east side homesteader, returned on Saturday from a trip to Klamath Falls. Mr. Nelson brought a plow and other implements out with him and intends to commence farming as soon as possible.

A new manner of amusement has been introduced into Yonna valley. The German farmers have organized a pinocle club. Pinocle is a game played by combining two euchre decks. The club meets at regular intervals at the homes of the club members.

William Sims and another young man from Tule Lake stopped over at Dairy Saturday evening. The gentlemen are on their way to Lakeview.

The party which returned to the Reservation to hunt horses were quite fortunate on their last trip. They left their saddle horses at the Riddle ranch and continued with snow shoes, drawing a sled loaded with their provisions. They went up into the Trout creek country, also Tom Can. After being gone about ten days they returned with twenty-one horses. They also found the carcasses of many dead ones.

While the copious writing from Dairy, "Sagebrush" is calling the attention of the public to political corruption, I wonder why he never has any thing to say about the frauds in the Democratic party. Why is it that he never writes about the corruption among the Democratic aldermen of St. Louis? Why is it that he does not mention the recent election in New York City, where W. R. Hearst was defeated for Mayor, and afterwards the ballot boxes stuffed with Hearst votes were fished out of the Bay?

Why is it that Sagebrush never has any thing to say about the national election of 1884, when by the rascal kind of fraud New York state was carried by the Democrats and Grover Cleveland was declared elected President? I do not see where the Democrats have any grounds for raising the cry of political corruption.

Everything that exists is subject to the law of growth. Even nations pass through the great change. The laws that are made to govern the people in one state of the life of a nation will not apply in another. When the constitution of the United States was adopted the nation was in its infancy. Then there was vast areas of undeveloped and scarcely known regions. West of the Mississippi river was an extensive wilderness. Within the last century vast changes have taken place. At the present time the continent is settled from ocean to ocean. It could not be expected that the laws of the nation of a century ago will entirely suit the nation of the present. The greatest change that has taken place in the century is an economic change. Previous to the Revolution the English government had by legislation hampered the manufacturing interests of the Colonies. It became necessary then for the states to build up this interest. It took a great amount of time for the Americans to produce enough goods for their own use. At the present time the United States is so developed that as a nation it can produce much more goods than it can consume. Especially within the last decade it has become more necessary for the manufacturing interests to look for a foreign market for our surplus products. When we were at war with Spain, our statesmen saw their opportunity to extend our markets, and took over the Philippine Islands. I look upon their action as but the result of the growth of the nation. The Democratic party, as the party of opposition, has had much to say about the violation of the principals of our government. If the Constitution does not fit the present condition, as President Roosevelt has said: "It is the duty of the American people to amend that Constitution."

There will be a Socialist meeting at Dairy on Sunday, February 18. Important business will be attended to. All socialists are requested to attend.
Claude Chastain was out from Klamath Falls over Sunday visiting his best girl.
