All bids must be accompanied by a certified check in the amount of 10 per cent of bid and an approved bond must be furnished by successful bidder in the amount of 15 per cent of contract price. The Board of directors reserves the right to reject any or all bids. Dated this 3rd day of April, 1906. J. W. SIEMENS.

YONNA ZEPHYRS BY "OPTIMIST." Fred Peterstiner, who has been working at the Frank Adams ranch, near Merrill, for the last few weeks, returned to his home in this valley last week. The new house of Hans Stoesser is nearly completed. In March Mr. Stoesser's dwelling was burned. Immediately the neighbors raised by subscription a fund amounting to \$52 to assist him in getting a new start. I am requested by Mr. Stoesser and his wife to extend thanks to their many friends for the efforts in their behalf. Tolbert Keithley, the "sage of Pine Flat," is living on his homestead this winter. His wife is teaching school at Alturas, California. Mr. Archie Mason of the firm of Government contractors was out at Dairy on Friday, buying horses that he purchased from August Liskey, a span of mules from Chahores and from Charles Sherman Jr. one horse. The effect of Government irrigation is being felt already, inasmuch as in the construction of the irrigation works it is making market for our products. The people of Dairy should not forget the spelling school next Friday evening. In the month of March has been the worst weather that our people have known for a long time. Warm weather is very much desired. As far as I have heard Rueck of this valley is the only one mentioned as candidate on the Republican ticket. The condition of affairs in Klamath will be different in the next four years than they ever have been before. We need as members of our county board progressive citizens capable of comprehending these new conditions and such a man is Jacob Rueck. When the government irrigation question came up he grasped the situation, worked with energy and perseverance and succeeded in bringing the matter to a successful termination. When the matter of people operating their own telephone lines was broached, Mr. Rueck "put his shoulder to the wheel" helped push the thing along, with the result that the lines are in operation and giving satisfaction. He certainly would be the right man in the right place as Commissioner of Klamath county. H. V. Gates, of the Midway Telephone Company, phoned to Dairy that he would like to meet the Directors of the Spring Valley Telephone Company on Monday evening. He said he had a proposition to make to them. Few attended the meeting. The Socialists held an enthusiastic meeting at Peter Peterstiner's residence near Dairy, on Sunday last. The following resolution was passed. Resolved, that we, the members of the Local Dairy, protest against the illegal methods employed by the executives of the Capitalistic class, in Colorado and Idaho, to convict the Officials of the Western Federation of miners of the murder of ex-Governor Smeunberg. We further denounce and protest against the attempt of the Capital press to prejudice the minds of the people against these men before they are given a fair trial by calling them murderers assassins and conspirators.

plan to be adopted at that time by a majority of such holders. The Company will then give a deed to the purchase upon receipt of the certificate and \$15.00. Lots and blocks in this addition, not included in the thousand lot pool, can be purchased at private sale at prices ranging from \$25 to \$300 per lot. The pool however, contains many of the best lots of the addition. The Company will have offices at Klamath Falls, Bonanza and Portland. The local offices will be in the Hammar building, corner Main and Third streets. TELEPHONE NOTICE By a re-arrangement of our contracts, dating from April 1st, 1906, we offer to any individual or Corporate owner of a telephone line, using any make of phone, the opportunity to connect their line to our Klamath Falls switch-board and have communication with the subscribers of the Klamath Falls Exchange (175) upon payment of a light monthly switching charge; about 20 of the Langell valley subscribers, residing in that and nearby valleys, have already asked for a connection which will be made soon as possible, this arrangement removes the necessity of duplicate lines and poles in the city, and saves our subscribers the expense of buying and maintaining another phone. We advise our subscribers that before making any contracts or purchases for or of other phones, we would be pleased to call on them and explain how to avoid duplicating expense. During the year past our business has been fairly prosperous and we feel able to redeem our promise of last year for lower rates in the Klamath Falls Exchange, so dating from April 1st, 1906, our monthly rates for phones in Klamath Falls will be as follows: Residence \$1.00, business \$1.50, making a reduction of 25 cents on each, notwithstanding the higher cost of construction and operation, practically meets the lowest rates of the state for exchange work. If our business increases in the future as in the past we hope to make reductions year by year and will do so whenever our business offers any more than a fair return upon our investment. HIGH SCHOOL NEWS BY BERYL BALLARD The usual chapel exercises were held Monday morning. We were favored by a very interesting and instructive talk by Miss Kuykendall. Her subject was one that touched briefly on the progress of medical science. She discussed principally the transmission of disease by germs. The tenth grade took an examination on the second book of Caesar Tuesday afternoon. Present indications progress shows that great interest is being taken to make the next High school examination one of interest and merit. The eleventh and twelfth grades took a classic examination Wednesday afternoon. A number of the High school students gathered at the home of Mr. and Mrs. G. T. Baldwin on the evening of April first. Three hours were spent in music and games after which all returned to their homes to dream of the pleasant time they had had.

NEW CORPORATION Articles of incorporation of the Bonanza Improvement Company were filed with the County Clerk this week. The incorporators are H. E. McKenney, a Washington banker, who has recently located here and purchased several tracts of land, J. D. Carroll of Seattle, one of the principals of the Oregon & California Development Company, the organization behind the proposed electric road, and H. L. Holgate, who was until recently Attorney for the U. S. Reclamation Service, now Attorney for the Klamath Commercial Agency and engaged in general practice. The Bonanza Improvement Company has taken over the large and valuable Bonanza tract at Bonanza, Oregon, which they will immediately place upon the market. They have planned the Bonanza addition to the town of Bonanza. One thousand of these lots will be pooled and sold at a uniform price of \$30 a lot. Mr. Hall of Whitelake City has been appointed General Agent and he will appoint sub-agents throughout the United States. The purchaser under this plan will pay \$15 to the agent and receive the company's certificate of sale. On August 1st of 1906, the certificate holders or their representatives will meet at Bonanza, Oregon, and distribute the lots to the certificate holders according to a
