Equipment Destroyed By Fire.

CAUSES NO DELAY

NORTHEASTERN

FRISCO DISASTER

This Can Be Replaced Within Few Weeks and the Road Will Be Rushed.

The report that the San Francisco disaster would delay the construction of the California Northeastern railroad and possibly prevent its completion in-

municated with him over the telephone. When asked as to what foundation the rumor had, Mr. Naitzger replied

"Absolutely and positively no foundation at all. The only delay or interprompt completion of the California the equipment and supplies of the con-

clothes we stand in, two night gowns, ing.

His confi- of every busin
We concluded we would do see Jossie Weineman wearing	It is practically assured that this com- pany proposes extensive operations in and around Bonanza, and this together with the marked activity of other large in- terests, augurs well for the future of this town. Situated as Bonanzais, it is con- ceded that it will make a city of consid- erable size. When the upper project is ander way, which will be the case ere long, property in that vicinity is bound to increase rapidly in value. And when the great valleys directly tributary to Bonanza are under irrigation, this town will forge ahead with rapid strides, and its natural location will make it second only to Klamath Falls in size and im- portance. It is due to these things that large in- vestments have been and are being made in Klamath county; why the rail- road is coming; why the street railway system is being put into Klamath Falls; why the electric railways have been projected throughout the county; why development companies are spending upwards of half a million in improving their property; why the eyes of thou- sands of investors and homesekers are turned this way; and why Klamath	can that on Monday brick will be placed on the ground for the erection of a \$15- 000 building, and that when it was com- pleted it would be occupied by the banking institution referred to. He was not disposed to make public the names of those interested in the concern, but stated that ample capital was already subscribed to make it one of the most solid banks in the state. No stock is for sale. The members of the First Presbyteri- an Church of Merrill purchased from the Klamath Commercial Agency two lots and will erect thereon this summer a church to cost about \$1800. J. W. McCoy, of Fort Klamath was in Klamath Falls Monday. He and Lind- sey Sisemore have just purchased a percheon stallion from La Fayette, In- diana, at a cost of \$4000. James Emery of Fort Klamath, ac- companied by his two daughters, are in the city. Mr. Emery expects to make	the door, that stone arch began to fall, so I drew back and a womau residing in the house tore past me, for the time be- ing a mad woman, screaming at the top of her voice. I flew after her and as she struck the curb she fell flat and a very drunken man helped her up. Then she rubbed her face with her hands and looked a sight. Her husband did not show up, as he was dressing and we then prevailed on her to go into a house and there was another tremor and out she rushed and up the street yelling "I won't go into the house" and I and another lady yell- ing out "Catch her." It took three men to hold her. G., brought me my slippers and we stood on the street and I got Mrs. H., a wrap, then her husband came and I left. We got dressed, made a cup of coffee, and then there was another alarm—the chimney was on fire—so we rushed out again, then came back and packed a few things and there was another shock and we rushed out again—dressed this time.	agent at Pokegama, arrived here Wed- nesday.
