ELEVATES WATER by WATER POWER

THE COLUMBIA HYDRAULIC RAM

PUMPS AWAY UNCEASINGLY WITHOUT ANY ATTENTION

THE COLUMBIA HYDRAULIC RAM is a simply constructed and inexpensive machine that can utilize a small fall of water for the purpose of raising a portion of it to any desired height. It is the farmer's friend in the dry season and is indispensable to those owning land high above ditches. It will furnish water for domestic purposes, even elevating pure water of the spring by means of the impure or muddy water, as found in some streams. Requires no attention. Practically no cost of maintenance, there being no parts to get out of order. A ram will pay for itself in a short time. Every ram installed is giving utmost satisfaction. We keep a large stock constantly on hand. Write to our Hydraulic Department today for illustrated literature.
