Colorado Lamb Feeding
The business of fattening lambs has proven to be so profitable in northern Colorado that the farmers in the Fort Collins district, comprising parts of Larimer, Weld and Fort Morgan counties, have in their pens this season something over a million head, making this district the greatest in the world as lamb-feeding headquarters. This industry was started fifteen years ago by a farmer who had bought 1,500 head of lambs on the Wyoming range for the purpose of shipping them to the Eastern market. A blizzard caused him to unload at Fort Collins and put his lambs on feed. They thrived so well and so cheaply on corn and alfalfa hay that his neighbor began feeding lambs the following year. The business proved so profitable that the number on feed has increased gradually until in point of numbers he fed the Fort Collins district is now the greatest in the world.

The farmers in the Fort Collins district contract with the flock masters on the New Mexico and Wyoming ranges early in the summer months, usually May and June for their lambs. These lambs are shipped to the "river" markets—St. Joe, Kansas City and Chicago—from the range, with stop-over when the Fort Collins country is reached. Here the lambs are unloaded and driven to the feeding pens, which are to be practically on every farm. These pens are located on well drained sites and are well supplied with an abundance of pure water. The lambs at the start are given all the alfalfa hay they will eat. Different grains have been fed, but at present after many trials and experiments, most of feeders use only corn and alfalfa. Alfalfa, the protein, combined with corn, carbohydrate, to form a well-balanced ration. After the lambs have been on alfalfa hay for about three weeks, corn feeding is commenced with a half ounce per head daily which is increased gradually until they are getting a pound each at the end of a month.

An average increase in the weight of lambs of ten pounds per head per month, or about forty pounds for the feeding period, is considered a fair record, making the lambs weigh in the neighborhood of ninety pounds when they reach the market.

The lamb feeders do not expect to make a profit on the increased weight their lambs made in their feeding pens, but count their profit as the increase in price of fat stuff marketed over the feeders bought on the ranges, the original weight being the basis of calculation.

The increased weight made in the pens usually costs as much as it brings when sold.

The grain is fed in low troughs in a separate inclosure, which is close both to the corn bins and to the lots where the sheep are kept. The sheep when fed are driven into the feeding pen and allowed to remain there about ten minutes.

Alfalfa is kept in small racks in the pens where the sheep may get at it day or night.

The construction of seven sugar factories in this section in the past four years has aided the sheep feeders greatly.

The tops of the beets in the fields are considered to be most nutritious single feed known, appearing to contain within themselves a well-balanced ration.

Farmers now receive three dollars per acre for the privilege of allowing sheep to range their fields after the beet crop has been harvested.

The pulp remaining from the beet after the sugar has been extracted is considered of great value as a ration, especially for old ewes with teeth worn too much to eat grain readily. Old ewes fatten readily in six weeks on a ration of beet pulp and alfalfa hay. Pulp is fed to lambs as a succulent food, the dry ration of corn and alfalfa appearing to be greatly benefited by the juicy pulp.

The past year was a most dangerous one to feeders, and had not the winter been a phenomenally mild one, heavy losses have been made by them owing to the high prices paid on the ranges for lambs. The mild winter, however, enabled the feeders to fatten their lambs with much less grain and in a great deal shorter period, which of course cut down the expense. The business this year will average possibly a profit of fifty cents on each lamb fed. Last year, and in fact the five previous seasons, the lambs have returned from fifty cents to two dollars per head profit. Few farmers feed less than five hundred sheep or lambs, most of them over one thousand head, and a few feed ten thousand.

The above is taken from the Fire and Farnside and shows one of the future possibilities of Klamath County, especially when sugar beets are grown, which will be the case before very long.

Portland, Oregon, May 15, 1906.
To the Voters of Oregon, Greeting.
Gentlemen:—The undersigned beg leave to submit to you a few of our reasons for asking you to ratify, by your affirmative votes, the amendment granting equal rights to women, which has been placed before the voters through a petition numerously signed by the men of Oregon under the initiative and referendum.

This movement has grown under your management, from the small beginning known as the Married Woman's Sole Trader Bill, such vast proportions as to attract the attention of the civilized world. A Constitutional Amendment proposing women's enfranchisement, submitted to you in 1884, brought us an affirmative vote of 11,223. This Amendment was again submitted to your suffrages by Legislative initiative in 1903, bringing us a vote of 26,263. Although the population of the commercial centers had more than doubled in sixteen years, the "No" vote was only increased by 225, while the "Yes" vote was augmented by 15,042. This, to us, is a palpable augury of the triumph which we confidently look to you to consummate for us on the 4th day of June by placing "X" between "No" and "Yes" on your ballots. Do this and you will honor our flag of truth, the only power we can offer in our defense against the balloted forces of the opposition. Do this, and you will honor Oregon, your mothers and yourselves.

And your petitioners will ever pray:
Abigail Scott Duniway, Honorary President Oregon Equal Suffrage Association and State Federation of Women's Clubs.
Mrs. Henry Waldo Coe, President Oregon Equal Suffrage Association.
Charlotte Moffett Cartwright, President Woman's Pioneer Auxiliary Association.
Sarah N. Evans, President Oregon Federation of Women's Association.
Esther C. Pohl, M. D., President Woman's Medical Association.

Whenever you want freight from the railroad send an order to Jas. B. Moore at Pokegama and you will get your freight promptly.
Can you sell Klamath county property? If so see or write E. B. Hall. Liberal terms to agents.

East Klamath Falls Tracts

For an investment, acreage for fruit, garden, farming or a home, it should be the aim of every purchaser to select the best location, obtain the best land and look to the certain effect of the complete development of the irrigation project upon the growth of Klamath Falls. Conservative men whose individual success is the best evidence of their foresight predict that Klamath Falls will have a population of from 20,000 to 35,000 within six years.
The trade centers of all irrigated districts build in the direction of the territory from which their support is derived.
EIGHTEEN HUNDRED ACRES of splendid land to select from, of which FOURTEEN HUNDRED ACRES is situated under the main canal and is signed up with the Klamath Water Users' Association.

WATERFRONT.
Manufacturing institutions in search of locations where frontage on Lake East Klamath or to the Klamath River is desired can secure advantageous sites on the EAST KLAMATH FALLS TRACTS. Irrespective of electric and steam transportation development waterways are in many lines of manufacturing an economic necessity.

SMALL FARMS.
Five acres devoted to intensive cultivation, under irrigation, is said to be ample for the support of a family and twenty acres properly tilled will make its owner independent.
EAST KLAMATH FALLS TRACTS offer the best opportunity for those wanting small farms adjacent to town.

Blocks and Lots.
The splendid alfalfa field just East of the Fair Grounds, exactly a half mile from the present limits of the town and in a direct line to the valley, under the main canal, is offered in blocks, size 400x260 feet, with 60-foot streets and 20-foot alleys, and in larger blocks, 700x260 ft, containing respectively 16 and 28 lots to the block.
PRICE OF BLOCKS, \$800.00, \$1,000.00 and \$1,600.00
PRICE OF LOTS FROM \$80.00 to \$150.00
This property is on the market and for sale in tracts to suit the needs of purchasers by **FRANK IRA WHITE.** Residence Telephone 14x1. Office phone Office, New Brick Block of Major Worden

Administrator's Sale.
Notice is hereby given that in pursuance of an order of the County Court of Klamath County, Oregon, duly made and entered on the 8th day of May, 1906, in the matter of the estate of Nyron S. Drew, deceased, the undersigned, the administratrix of the estate, will, on and after Friday, the 15th day of June, 1906, sell at private sale for cash in hand subject to the confirmation of the Court, all the right, title, interest and estate, of the said Nyron S. Drew, deceased, at the time of his death, in and to the following described real and personal property, to-wit:
Certificate of purchase No. 12922 from the State of Oregon, for the following described lands, to-wit: The SE 1/4 of the NE 1/4 of Section 30 T. 25 S. R. 11 E. W. M. containing 40 acres. Also a certain Bond for Deed executed by E. R. Reams and Reams, Martin & Company, Sept. 10, 1901, for the S. E. 1/4 of the S. E. 1/4 of Sec. 33, R. W. 1/2 of the S. W. 1/4 of Sec. 34, T. 27 S. R. 11 E. W. M. N. E. 1/4 of the S. E. 1/4 of Sec. 4, N. W. 1/4 of the NW 1/4 of Sec. 1, and S. E. 1/4 of Sec. 2, N. W. 1/4 of the S. E. 1/4 of the S. E. 1/4 of Sec. 10 T. 28 S. R. 11 E. W. M. upon which there is unpaid the sum of (\$225) six hundred and twenty-five dollars, payable on or before Oct. 1, 1906, with interest at 4 per cent from Oct. 1, 1905, interest payable annually; Also (\$225) six hundred and twenty-five dollars, payable on or before October 1, 1906, same interest; also (\$225) six hundred and twenty-five dollars, payable on or before October 1, 1910, same interest; also (\$225) six hundred and twenty-five dollars payable on or before October 1, 1911, same interest.
Also another Bond for Deed executed by Reams, Martin & Co., Jr. and E. R. Reames for the following described lands, to-wit: The NW 1/4 of the NW 1/4 of the NW 1/4 of Sec. 14, all in T. 28 S. R. 11 E. W. M. Upon which there is payable (\$225) two hundred and thirty-one and six-tenths one-hundredths dollars, on or before October 2, 1907, with interest payable annually at the rate of six per cent from January 21, 1906. Taxes to be paid by grantee.
Also the following described real property, to-wit: East 1/2 NW 1/4 and SW 1/4 of Sec. 11 T. 27 S. R. 11 E. W. M., Klamath County, Oregon.
Dated May 17, 1906. MARY A. DREW, Administratrix of the estate of Nyron S. Drew, deceased.
H. W. KANER, Attorney for Administratrix.
