There is a great scarcity of stenographers in this city and the demand is growing every day. This is a lucrative profession for any young man or woman to follow. Most of the business colleges give instructions by mail, where it is impossible for the student to attend the institution. In this issue of the Republican are the advertisements of two reliable business colleges of Portland, and it would be advisable for those desiring to learn stenography to write them for particulars. There is no danger of an overproduction of this class of help, for the demand for good stenographers is very great.

Five good turns will be put on, and as all the performers are of good reputation on the Pacific coast, it promises to be a rare treat to the theatre goers of Klamath Falls and vicinity.
