

KLAMATH REPUBLICAN

E. J. MURRAY, Editor.

LEADING NEWSPAPER OF INTERIOR OREGON.
TWO DOLLARS THE YEAR IN ADVANCE.

Klamath Falls, Or., Thursday, December 6, 1906.

The criticism has been made that The Republican had mis-stated facts when it claimed that unless the Klamath Basin was settled up as rapidly as the Project was completed a cessation of operations might result. And the argument was advanced that this could not be so, inasmuch as the head officials of the Reclamations Service were committed to a policy of rapid construction.

Now, The Republican did not mis-state the fact in the least. Though the Service is as anxious to see this project completed as are we, it will not deter them from taking the steps referred to. While The Republican at no time anticipated the necessity for such an action, it made the statement for the purpose of calling the attention of the land owners to its possibility, and in doing so did not publish anything but what it knew to be true. The cause for its publication was brought about by the proposition to levy an assessment for advertising purposes. The action of the Water User's Association in no way affected this paper, for the proceeds of that assessment would go for advertising in outside publication. We had no axe to grind, and only sought to advance the interests of the landowner. What was said then we repeat now, namely, that unless steps are taken to induce immigration sufficient to warrant the rapid completion of the Klamath Project, it will proceed only as fast as the country is built up.

Additional Briefs

Mr. and Mrs. M. Swartout of Seattle, passed through this city Saturday on their way to Lakeview. Mr. Swartout is becoming heavily interested in property near Lakeview. While here he stated that he had met J. D. Carroll, who is promoting the electric railway for this county, and that that gentleman has succeeded in financing the enterprise. Carroll is an indefatigable worker, and with a proposition such as is this electric road, it was practically a foregone conclusion that he would be successful in his efforts.

After being laid up at her dock for over a week, on account of the ice on the Lower Lake, the Steamer Klamath started for Laird's Landing Monday morning, and finally succeeded in plowing her way through the ice. A large amount of freight had accumulated at Laird's, much of which was holiday goods and it became imperative that the merchandise be landed here at the earliest date possible. It is now hoped that a channel can be kept open during the rest of the winter.
