

#### As Clean as a Whistle.

Any one who has witnessed the manufacture of a rustic whistle can be at no loss for the origin of the saying, "As clean as a whistle." A piece of young ash about four inches long and the thickness of a finger is hammered all over with the handle of a knife until the bark is disengaged from the wood and capable of being drawn off. A notch and a cut or two having been made in the stick, the cuticle is replaced, and the instrument is completed. When stripped of its covering the white wood, with its colorless sap, presents the very acme of cleanness.—London Answers.

"A careful examination of the water convinces me that it is unsurpassed in the nature of its mineral content, and should prove of the greatest possible utility in the treatment of congested conditions and for the general flushing of the tissues. Dyspepsia, sluggish liver, habitual constipation, so-called biliousness and bilious headaches, indefinite rheumatic pains due to the accumulation of uric acid or retention of other waste products in the system, faulty elimination by the kidneys, and a long train of ailments dependent upon above states of bodily ill-health are benefited by the free drinking of and bathing in such waters."
