

The Place of Opportunities

Klamath Co. Has No Equal

The Railroad will Soon be Here

Uncle Sam is now furnishing water for hundreds of homes and inside of one year will be prepared to furnish water for thousands of homes.

Klamath County carried off the first prizes at the Irrigation Congress in Sacramento for its irrigated Wheat, Oats, Barley, Vegetables and Grasses.

Now is your opportunity to get a home. I CAN SELL YOU GOOD LAND THAT WILL ALL BE IRRIGATED-- ON EASY TERMS--AT \$16½ to \$30 PER ACRE.

I also have some good buys in Klamath Falls, the Metropolis of Klamath Co., that I am offering at a bargain. I am also handling land in Butte Valley on the new Railroad, near Dorris, at prices that will make you buy if you will only go and look it over.

CUT THEM ALL OUT.

The Enemies One is Likely to Meet In His Vocabulary.

"In the dictionary of fools we find 'I can't' very often, plenty of 'ifs' and lots of words like 'luck' and 'destiny' and phrases like 'If I only had time or a chance like other people'."

Did you ever think that many of the words and phrases which you constantly use are your real enemies, that they leave their hideous pictures and black shadows in your mind?

How many times have you been kept from doing a good deed by such phrases as "Oh, I can't do that," "I am afraid that that will not turn out well," "Oh, I know I can't do that," "Somebody else can do that a great deal better," "I am afraid to try," "I haven't the courage," "I fear I shall take cold or catch some disease if I do this or that?"

I believe that those two words, "I can't," have ruined more prospects and have kept more ability doing the work of mediocrity than any other two words in our language.

"I am afraid of this or that" is a terrible hinderer, a terrible blighter of ambition, a cooler of enthusiasm.

All achievement and all efficiency depend upon initiative, and that is easily killed by the fear words, the words which express doubt and uncertainty.

"By thy words thou shalt be justified, and by thy words thou shalt be condemned."—Success.

VALUE OF WALKING.

Benefits to Be Derived From This Form of Exercise.

There is hardly an instance of a long lived man who has not been for the best part of his life a brisk walker and for some reason or other has had to take exercise pretty well every day.

Riding is all very well and so are other exercises, but there is nothing like a good walk, because it stimulates the blood and the muscles and necessitates being in the open air.

If those who complain of being stout would only think of this and never omit a daily constitutional they would be amply rewarded. It will keep them young and their figures presentable.

It is simply a remedy that no one needs to. Sitting about in the open air is all very well and is far better than sitting in the house, but it does not keep you in good health.

It is quite another thing to over-fatigue oneself. There is nothing better than to get into a healthy perspiration by walking. It is just like drinking a glass of cold water in the morning. It is so simple no one believes in it.

This may not suit everybody, but those it does suit it will keep in health.

To Brighten Tinware.

When tinware becomes discolored put the pieces into a wash boiler, cover with cold water and when it gets hot add a handful of salsoda and boil the tinware for thirty minutes or longer.

Remove it, and if the water was strong of salsoda the tinware will shine like new. It will not eat or injure the tin in any way.

Salsoda added to water with which floors are scrubbed will cut the grease and whiten the wood.

It will remove stains from muslin and linen if put into water in which they are soaked.

New Flowerpots.

Before using new flowerpots soak them in a tub of water. Unless this is done they will, by reason of their porosity, rob the plants placed in them of considerable moisture, often sufficient to cause serious injury before the cause of the trouble is discovered.

HOUSEHOLD HINTS.

A teaspoonful of pulverized alum mixed with the common stove polish will give a wonderful polish.

Before boiling eggs wet the shells thoroughly in cold water before dropping in the boiling water and they will not crack.

A very good way to lay the dust on the carpets while sweeping is to sprinkle over them two cupfuls of dampened cornmeal.

Bites of insects are relieved by touching the spot with a drop of ammonia. It neutralizes the poison and soothes the pain.

To scale fish quickly cover with boiling water. Let it remain in the water just half a minute, then scrape with a knife, and the scales will come off readily.

A very satisfactory way to clean rugs after they have been hung on the line and beaten is to brush them carefully with a whisk broom dipped in gasoline.
