

### Months and Seasons

The entertainment given at the Houston opera house last Saturday afternoon and evening, entitled Months and Seasons, was a decided success. Mrs. Neil Campbell returned this week from Ashland, where she had been for several weeks.

R. G. Swift is over from Pokagama, where he is employed by the McIntire company. Mr. Swift was formerly bookkeeper for the company in this city.

Charles Pattee of Bonanza was in the city this week on business. Mr. Pattee is at present engaged in the construction of the new flouring mill that is to be erected in Bonanza.

George W. McIntire returned this week to Pokagama, where he will again resume his duties as forwarding agent for the McIntire Transportation company.

One of the reminders of the days gone was to be seen on the streets of this city, when Billy Buys, Jack and William McGregor and R. S. McGowan passed through here on their way to Grants Pass from Regent, Nev. They are mining prospectors and left the latter place about a month ago. They had traveled about 400 miles. With the party were seven of the prospectors' friends, the burro. They were laden with camp equipment and prospecting tools and presented a picture that made many people stop and look back to the days when they were associated with the mining interests of the Coast.

The license to do business in the State of California has been received by Major Worden for the Bank of Dorris. Part of the equipment has been received and it will not be long before the institution will open its doors for business.

The proposition submitted to the Chamber of Commerce by William Bitte Wells representing the Sunset magazine, was not accepted. Mr. Wells offered to print 20,000 16 page pamphlets for \$350, provided that the chamber took a \$1440 advertisement in the Sunset. The Chamber was not particularly captivated by the offer especially since the same pamphlet can be produced in this city for practically the same sum.

The Public Schools desire to express through these columns their appreciation for the assistance the public rendered in attending the cantata recently given, and also to those who assisted personally, we are very grateful.

There will be a meeting of the Inland Empire Club tomorrow evening, when matters of much importance to the organization will be considered. Among them will be the question of removal, increasing the floor space and considering a proposition from the Twenty-One Club. The season is at hand when the Club can be made a very important factor in the social life of the city, and it is quite important that several matters be definitely settled in order to clear the way for many social functions which the Board of Managers have in mind. Therefore a large attendance is requested at the meeting Friday evening.

Ivan Applegate returned Tuesday evening from the lava beds. He states that the rain fall was not as heavy there as here. The range there is in splendid condition and the prospects are that the sheep men will have a prosperous winter. He expects to return there in a few days.

Travellers from this city to Portland and San Francisco may not know that General Manager Abbott of the Klamath Lake railroad has succeeded in making arrangements for the reservation of two sections on the trains running from Thrall to these cities. The reservations for Portland start at Ashland, but no charge is made for Pullman accommodations from Thrall to that town. Irrespective of what the Pullman conductor may tell you at Thrall these sections can be had if insisted upon. When travel is heavy and berths scarce, the conductors are apt to flim flam travellers from this city and give the berths to someone not entitled to them, but he cannot dispose of them until he leaves Thrall, and then only to passengers to get aboard there, if they ask for the accommodations.

Hon. Charles V. Galloway, State Land Agent, was in this city this week on his way to Lakeview. He expects to return to Salem by way of Prineville and may possibly visit Burns. He states that there is a growing demand for state lands in this section, and that it will not be long before the same condition exists here as does on the other side of the mountain, where there are less than 2,000 acres of state land left for sale.

H. G. Wilson, superintendent of the Klamath Reservation, was in the city Monday, returning from Burns, where he had been representing an Indian in a contest case. Mr. Wilson recently purchased a lot in the city of Eugene, on which, the Guard states, that he will erect a residence next spring.

If you have a kick to make on your assessment now is the time to do it for the Board of Equalization is in session. After November 21 when it will adjourn it will not be possible to secure any change. It would be well for those who believe that they have "a kick a-comin'" to call at the court house now, and thus save themselves and the sheriff a great deal of trouble later.

Mr. and Mrs. E. B. Ramsby are visiting relatives in Merrill.

Mr. and Mrs. J. G. Pierce and son Albert left for the east Monday morning expecting to be absent several months. During their absence their home will be occupied by Mr. and Mrs. H. L. Aldrich.

Dr. J. A. Best, of Pendleton, who is one of the large landowners of this county, returned to his home Monday, after a sojourn of several weeks. He expects to return here in the spring to remain permanently.

R. R. Wallace and H. G. Meyers, of the State Board of Barber Examiners were in the city this week for the purpose of clipping some annual fees out of the barbers of this city.

Clarence Mitchell of the U. S. S. Yorktown, who has been visiting relatives in this city during the past ten days, returned to his ship Monday morning.

One of the best articles on the resources and possibilities of Klamath county is an interview by John C. Hill, recently published by the Oakland Tribune. Mr. Hill has made a close study of conditions here, and is well qualified to pass judgment on this section.

Jack Kimball, the well known timber cruiser of the Weyerhaeuser company, who, for the past several months has been employed around Silver Lake cruising timber, returned to this city Saturday. He will leave in a few days for the south where he will engage in the same work.

There is one man in Klamath County who does not intend to sell his property. He is H. G. Bussey of Langell Valley. Mr. Bussey is one of the old timers, and he says that he is perfectly satisfied now that Langell Valley and the Upper Project has shown the rest of the county that they are able to do things in that section. In this view of the situation Mr. Bussey is right. It is such spirit as that manifested by him that has made the Upper Project what it is today and that will make it one of the richest sections in the State of Oregon.
