

Shake In A Bottle

Now is the time when the doctor gets busy, and the patent medicine manufacturers reap the harvest, unless great care is taken to keep the feet dry and warm. This is the advice of an old eminent authority, who says that Rheumatism and Kidney trouble weather is here, and also tells what to do in case of an attack.

Get from any good prescription pharmacy one half ounce Fluid Extract Bandon, one ounce Compound Kargon, three ounces Compound Syrup Sarsapilla. Mix by shaking in a bottle and take a spoonful after meals and at bedtime.

Just try this simple home-made mixture at the first sign of Rheumatism, or if your back aches or you feel that your kidneys are not acting just right. This is said to be a splendid kidney regulator, and almost certain remedy for all forms of Rheumatism, which is caused by uric acid in the blood which the kidneys fail to filter out. Anyone can easily prepare this at home at a small cost.

Druggists in this city and vicinity when shown the prescription, stated that they can either supply the ingredients, or, if our readers prefer, they will compound the mixture for them.

DAIRY

Dairy is pleasantly situated on the west side of Yonka Valley, near the center of Klamath County. It has two good general stores with enterprising, up-to-date dealers who enjoy a large trade from surrounding valleys; a hotel and feed barn, and a school house. It is surrounded by a rich farming community with which it is connected by a farmers' telephone line and also a long distance line. Is on the stage line, twenty miles east of Klamath Falls.

The people of Dairy were denied a dance this week by the officiousness of County Superintendent Wright butting in and endeavoring to stop contractor Nelson from using the school house for that purpose. If it had not been for the heavy rain Friday afternoon and evening there would have been a dance anyway, although the attendance might not be as large as it had not been so unnecessarily interfered with.

A large number of farmers are happy over the fact that their grain was threshed during the past week, although it rained nearly every day. The Kinney and Wallis-Nichols machines have been doing good work.

Charles E. Drew has returned from his trip to Lakeview, where he went to deliver some fruit trees.

Ye Kin Fish

Through a blunder of the last legislature there is only one county in the state where people cannot fish for trout this winter, and that is Douglas. The representative from Douglas county wanted some special privileges for his bailiwick and proceeded to draw a bill embodying what he wanted. His desire was to fix it so his constituents could angle for trout when no other section of the state would have that right. The bill was presented, passed and signed by the governor. Now it transpires that so well did the distinguished representative do his work that Douglas county is sewed up as tight as ever but the rest of the state is loose. While the fishermen of Klamath, have no kick coming, it is to be regretted that the open season prevails throughout the state, as there are many sections needing protection. However, it may result in bringing to this county what it has so long needed, an open season when the fish are fit to eat.

Platting Tract

Don J. Zumwalt and M. D. Williams of the Klamath County Abstract company left for Merrill Tuesday morning, where they will begin the work of platting and subdividing the Lakeside tract. They were accompanied by two crews of assistants. Following the completion of their labors at Lakeside they will proceed to the Adams tract and perform a little contract. The work will consume about three weeks and is one of the largest contracts of the kind ever undertaken in this county.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science can cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for testimonials.
