

Few Here Know This

When an eminent authority announced in the *Scranton, Pa.* Times that he had found a new way to treat that dread American disease, Rheumatism, with just common, every-day drugs found in any drug store, the physicians were slow indeed to attach much importance to his claims. This was only a few months ago. Today nearly every newspaper in the country, even the metropolitan dailies, is announcing it and the splendid results achieved. It is so simple that any one can prepare it at home at small cost. It is made up as follows: Get from any good prescription pharmacy Fluid Extract Dandelion, one-half ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking in a bottle and take in teaspoonful doses after each meal and at bedtime. These are all simple ingredients, making an absolutely harmless home remedy at little cost.

Rheumatism, as every one knows, is a symptom of deranged kidneys. It is a condition produced by the failure of the kidneys to properly filter or strain from the blood the uric acid and other matter which, if not eradicated, either in the urine or through the skin pores, remains in the blood, decomposes and forms about the joints and muscles, causing the untold suffering and deformity of rheumatism.

This prescription is said to be a splendid healing, cleansing and invigorating tonic to the kidneys, and gives almost immediate relief in all forms of bladder and urinary troubles and backache. He also warns people in a leading New York paper against the discriminate use of many patent medicines.

The capacity of dogs to distinguish musical tones has been made the subject of elaborate experiments by Dr. Otto Kallischer of Berlin, and the results have just been published in the proceedings of the Berlin Academy of Sciences. Dr. Kallischer trained his dogs to pick up and eat morsels of meat set before them only when a certain note was sounded.

In China wages of women operatives are nearly at the vanishing point. It is said that in the silk mills at Shanghai there are 20,000 workers, among whom are children that work at 3 cents a day and women at 5 cents. The highest paid get 26 cents for a thirteen hour day. In the Shanghai cotton mills the best women workers get 14 cents a day, the poorest 5 cents, the hours being from 6 to 6, with thirty minutes at noon for dinner.

Judge Uriah M. Rose of Arkansas, one of the American delegates to The Hague conference, is regarded as one of the most scholarly lawyers in America. His writings, speeches and public orations, dealing with the subject of jurisprudence in general, but particularly with international relations, have marked him as a man most eminently fitted to uphold American dignity and interests at the conference. He is a Kentuckian by birth, and for the past quarter of a century he has been in the foremost rank of the Arkansas bar.

A New York man has just patented a device for the encouragement of thrift. It consists of a toy savings bank with a clock attachment. The clock is set in the face of the bank and cannot be wound unless a dime is dropped in the slot. As winding causes the dime to fall into the vault and the clock will run but twenty-four hours without rewinding, the contrivance assures the accumulation of 70 cents a week. The theory is that the necessity of depositing a dime every day will lead to slipping in other coins at odd moments and thus establish a habit of saving.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science can cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to medical fraternity. Catarrh being a constitutional disease, requires constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for testimonials. Address, F. J. CHENNY & CO., Toledo, O. VAN RIPER BROS.

Harriman Coming

PORTLAND, Nov. 26.—E. H. Harriman, Mrs. Harriman and the children will visit Crater lake next Summer and again sojourn at Pelican bay for a vacation season. Word received yesterday by Will G. Steel is to the effect that the railroad magnate will repeat his recent trip, and bring a larger family party than before.

"Crater lake is not comparable to any other bit of nature. As a scenic feature it has no equal on earth," he declared on his recent visit.

Will G. Steel, who has a charter for conducting amusements and entertainment in the park, kept a register of the visitors during the Summer just ended. It shows a surprisingly large number of government officials' names, indicating that the government is manifesting extraordinary interest in the newest national park, and that important improvements are to be inaugurated. Mr. Steel said:

"From the talks I have had with Secretary James R. Garfield and others who have visited Crater lake this season I am certain that there will be some large road building operations begun next Spring. The government will make an improved highway from Prospect to Crater lake.

"In consideration of this it has been agreed by the Jackson county court and the Medford Commercial club that Jackson county money will be forthcoming to complete the road from Prospect to Medford. The government road from Annie Creek junction to the rim of the lake will be the greatest scenic road in the world.

"Surveys made have shown that easy grades can be secured for the road to ascend several of the peaks on the approach to the lake, including Garfield peak and Mount Scott. The government road will extend clear around the lake."

Until the road around the lake is finally laid out and partially improved Mr. Steel's company, organized to build and conduct places of public entertainment in the park will not construct a permanent, large hotel. This building will await the completion of some of the roads.

Next spring the company will erect another log house, 20x30 feet, with a large platform alongside, covered with canvas, the house to be used for cooking and stores, and for use of the cook's family, and the canvas porch for a dining room. Guests will be sheltered at night in substantially constructed tents.

A large movement of tourists to the park is expected next year, and the number will quadruple when the road is completed sufficiently to enable automobiles to be operated rapidly over it.

FARMERS OF MODERATE MEANS OFFERED RARE OPPORTUNITY

An unusual opportunity is offered the farmer of moderate means to secure a home in the Lakeside Tract located on the North shore of Tule Lake. The land now offered for sale consists of 3500 acres of irrigable land lying under the Adams canal, a part of the Klamath Project, and admirably located along the shore of the lake. It is rich sagebrush and grass land, part of it being in cultivation. It will be sold in tracts to suit purchasers and on satisfactory terms.

For particulars call on or address, J. Frank Adams, manager Lakeside Company, Tule Lake, Oregon. 10-17-11
