We have people in our city, who either through ignorance or disregard of ordinance and law, are shooting mudhens and ducks from the bridge and wharves. One particular case happened Sunday. The bridge was lined with people watching the launches on the river and lake, when a man with a small rifle deliberately slaughtered a number of these birds which were innocently swimming not more than 20 feet below. The police have been notified to keep a watch out for anyone shooting within the city limits, but it seems odd that any man could be so ignorant as to make police action necessary.

Police Judge Leavitt says he is getting tired waiting for the people to come to him to register for the city election, and therefore he is visiting the businessmen on Main street with his registration books. It is all important that everyone should register for the city election as there will be no awarding of votes this year. If you do not register you cannot vote, so don't kick when it is too late.
