

# To Republican Voters

**A**N OVERWHELMING majority of Oregon's voters by registration have formally declared that they believe in the principles of the Republican party. Let them now show that they are honest by voting in accordance with their declarations. The Oregon election comes before the Republican National Convention. Let every Republican voter in the First Congressional District uphold the honor of the Republican party in Oregon and strengthen the influence of Oregon's delegation in the National Convention by voting for H. M. Calkins for United States Senator and W. C. Hawley for Representative in Congress. If either of these Republican nominees fail of election, the primary election system will be discredited and a return of boss rule will be invited. The good name of Oregon's voters will be smirched and Oregon's delegation to the National Convention will be placed in a humiliating position. For the effect it will have on the November election it is imperative that all the Republican nominees in the June election shall be elected by an overwhelming majority. As a believer in the principles of the Republican party, it is your duty to be at the polls June 1st and to vote for Calkins and Hawley.

### ABOLISH MERCILESS FISH WHEELS

SAYS DAVID STARR JORDAN

President of Leland Stanford Jr. University Writes On the Columbia River Salmon Crisis

Stanford University, Cal., May 13, 1908.—Mr. Edward Rosenberg, Astoria, Oregon: In response to a request from Mr. Hylen I am giving you my opinion as to certain matters connected with the salmon fishing in the Columbia. As you know, I was the first Commissioner ever sent out to investigate the salmon. I spent some time in Astoria in 1880 and I have made a number of visits there or farther north in the same interest since then. I have not changed my opinion in this time as to these matters.

(1) The fish wheel and the stationary trap in the Columbia river should be abolished. It would be well for the fishing interests of the country if the stationary trap in all of its various forms was everywhere eliminated, for this is the most destructive and indiscriminating kind of fishing. On the Columbia, where the river is narrow and swift, the fish wheel is not only destructive but has the additional evil effect of (a) taking work from the fishermen, and (b) taking the fish when they are not in the best condition, for fish for canning ought to be taken in tidewater.

(2) It would be well if all fishing on a large scale above tidewater in the Columbia should be prohibited.

(3) I would also recommend that a careful study of gill-net and similar methods of fishing be made, with a view to the ultimate interest of the fishing industry, as, even if worse forms of fishing were eliminated, there are still perhaps too many gill nets for the size of the river.

To prohibit gill net fishing after dark would virtually destroy the effectiveness

of that industry at all times when the water is clear.

Very truly yours,  
DAVID STARR JORDAN,

OREGON GRANGE SPEAKS  
The Oregon State Grange passed the following resolutions at its meeting this month:

Whereas, There has been referred to the Committee on Resolutions for consideration the two fish bills relating to the fishing industry to be voted on at the June election, bills No. 319 and 322, respectively:

Resolved, That our committee has carefully examined into these two bills as far as their time would permit and have to report that we favor proper protection to all natural spawning grounds; and to that end we condemn as a great detriment to said industry and to our state the operation of FISH WHEELS in the narrows of said river and demand and urge the passage of a law removing the same and also recommend that said law shall be so constructed as to remove all traps from said stream.

LABOR FEDERATION.  
The Oregon State Federation of Labor has also endorsed the same proposed legislation.

### SALMON CANNOT GET AROUND LEADS & WHEELS AND CANNOT REACH SPAWNING GROUNDS

### Hood River County

This bill is submitted under the initiative for the following, among other reasons:

A county is a public corporation and it is apparent that section 2 of article XI of the Constitution of Oregon, as amended, reserves to the people the right to create a county by initiative vote.

There is no general law for the creation of counties now, and no one knows when, if ever, there will be one. The facts as to area, population and assessed valuation show that we are able to maintain a county government. Out of a population of about 7,500 the desire of a county for the Hood River country is earnest and unanimous with the exception of a small fraction of one per cent. We are assured by leading citizens of The Dalles, Dufur and other portions of Wasco county that they have no objections to the creation of Hood River county as proposed in this bill. More than 400 residents of The Dalles and Dufur have signed the petitions asking that this bill be submitted to a vote at the June election, though 45 names from Dufur were received too late to be filed with the secretary of state.

The people of the Hood River country therefore ask favorable consideration of the voters of the state upon this bill for these, among other reasons:

Because the new county will be a great benefit to the people residing therein and will facilitate the transaction of their county business.

Because as the law stands a county cannot be created by the legislature; and finally,

Because the people of The Dalles and the balance of Wasco county are willing that Hood River county may be created as provided in this bill.

The assessed valuation in the proposed Hood River county in 1903 was \$908,568; in 1906 it was \$1,618,670, showing a gain in valuation from 1903 to 1906 of \$710,102, or about 78 per cent. The valuation in 1907 was \$2,762,250, a gain over 1906 of \$1,143,580, or about 70 per cent, showing the proportionate increase in one year from 1906 to 1907 to be almost as great as that in three years from 1903 to 1906.

The proposed Hood River county has a population of about 7,500; an area of about 500 square miles; and twenty school houses, seven of which are graded schools having from two to eight rooms each and with a \$30,000 high school under construction. There will be left in Wasco county, after Hood River county is created, an area of 1,616 square miles; a population of 11,500, and a valuation of \$5,457,720, thus leaving it among the largest and strongest counties of the state.

S., and the rules and regulations established thereunder relative to establishing and maintaining residence upon said land; that he did not establish a residence in a house within six months from date of entry; that the only pretense of a house erected on said land was a small cabin placed there by the contestant one year after said entry was made, which said house the said entryman permitted to fall into decay for want of repairs long before the date of final proof; that the said contestant, never, nor since the time of making final proof, cultivated said land or any portion of the same, nor improved the same except to build the small cabin as herein alleged; that the alleged absence from the land was not due to his employment in the army, navy or marine corps of the United States in any war in which the United States may be engaged; said parties are hereby notified to appear, respond and offer evidence touching said allegation at 10 o'clock a. m. on June 26th, 1908, before Gen.
