They need fewer repairs-so the repair cost is less vear-not to mention saving in time. They are lighter draft—so they cost you less in

Horses cost more than wagons; light draft saves aker wagons run more easily than others beanse each wheel is perfectly proportioned, with the box of the hub set in the exact center, The skein is so set that the wheel runs straight

ad under a load and cannot rub, bind or grind on Studebaker hubs never hug either nut or collar. That's another reason why the Studebaker is of uch wonderfully light draft,

It makes hard loads easy for horses.

Because skein, axle, spoke, hub and tire are

made just right.

The skeins have a transverse strength 25% greater than that required by the United States Government. The axles are & inch deeper than others, and are made from selected butt-cut Black Hickory, air-dried

from 3 to 5 years The hubs are extra large in diameter-made from the best procurable wood.
The famous Studebaker slope-should

the largest amount of wood into the hub, and are strongest where others are weakest. The tires are cold-set, and are perfectly fitted to

each wheel so that there is no such thing as a qui loosening Studebaker Tire.

No wonder the largest and best equipped velocity in the world is required to meet the demay for the Studebaker.
