As party, which is making a tour of the this was Labor Day they had to set a county securing information for a new date for the election as it would write-up for Mr. McMurray, of the not be legal if held on a holiday.

NO. 25 WORK ON CLEAR LAKE.

Work on the Clear Lake road is construction camp at the head of Lan-

Weather conditions will probably govern the amount of work to be complished to insure completion of the dam by next summer. As yet, spect to the Clear Lake system, except the building of the dam, but it meeting of the Advisory Board of Engineers work on the canal will be authorized. It is thought there will be plenty of money available to construct a large section of the main canals; while the definite assurance that the system will be built will result in augmented subscriptions of land.

The canal line on the east side of Langell valley, according to the permanent survey now in progress, is on a much higher elevation that the preliminary survey line. This is the canal that will serve Yonna valley. On

Now that the building of the irrigation system is definitely assured. a number of farmers have signified their intention of beginning to put in this section makes this work easing up of the land for irrigation is

Next year should be the most prosperous this section of Klamath County has ever experienced. Following precedent, the weather conditions crops, and the Government work, together with the fact that any surplus of farm products can be shipped by rail direct from Klamath Falls, will provide a ready market. The assurance that the system will be completed will attract land buyers, enabling the present owners to dispose of their excess holdings at a fair figure. The prosperity of the farmers and the presence of a large force of workmen will make good times for the business men of Bonanza and the town should grow like a mushroom.

Miss H. M. Bruns arrived Tuesday O. R. & N. Railway.
