

SUMMERS NEWS.

Miss Bee and Miss Hazel Summers will give a party at their new residence in Klamath Falls Friday night. Their classmates and many young friends are invited, and an enjoyable evening is anticipated.

The inclement weather and bad roads are affecting the attendance of our school in an undesirable way. The number of pupils is reduced to about half of what it should be. While this is unfortunate for the school and those who cannot come, it helps us who do come, by doubling our recitation periods, and thus enabling us to do almost twice the amount of work. The weather is also affecting our news items, as we are unable to get around and gather information, and most of the out of doors work on the ranches is at a standstill.

Three cows were sent to the Ankeny ranch to be fed last week, but at the present writing no one knows who sent them.

SALARY ADVANCES FIXED BY SENATE.

WASHINGTON, Jan. 20.—The salaries of the President, Vice-President and Speaker of the House were again under discussion in the Senate, when the legislative, executive and judicial appropriation bill was taken up. Amendments were adopted increasing the President's salary to \$199,000, that of the Chief Justice of the Supreme Court to \$15,000, and those of Associate Justices to \$14,500.

Warren, in charge of the bill, expressed the hope that the allowances of \$5000 annually for carriages or other vehicles for the Speaker and Vice-President would be allowed to stand.

The amendment increasing the salary of the President to \$199,000 was adopted by a vote of 35 to 30. The Republican Senators who voted against the increase were: Beveridge, Borah, Brown, Burckett, Clapp, Deliver, LaFollette and Piles. No Democratic Senators voted in favor of the increase. The amendment was adopted providing for an "Under Secretary of State" to be paid \$10,000 a year.

The salary of the Chief Justice of the Supreme Court of the United States was fixed at \$15,000, instead of \$12,500, as at present, and the salaries of Assistant Justices at \$14,500, instead of \$12,500. The bill was still under discussion when the Senate adjourned.

THE BENEFIT OF CHESS.

That the chess tournament of 1909 promises to be quite a success is not only manifested by the unusually large number of players already enrolled, but the conditions of the second tournament will be such that every chess player in the city and county, no matter how busy a man he may be, will be able to take part in a play that is one of the most happiest combinations of diversion, amusement, and instruction, at our present time.

While the most of us look at chess as a mere mental recreation, as we are not at the same time laying hold, fortifying ourselves with some of the grandest, and most essential attributes of life? Is it not more so of this game than any other that we learn foresight, which looks into the future; circumspection, which surveys the whole scene of action; caution, not to make our moves too hastily; and last, but not least, chess demands a reasonable exercise of the will as well as of the intellect.

Most of the tournament members seem to be in favor of percentage play until the first of October, and from the first of October to the first of the year, to have class work, i.e., making about four classes, each composed of members who have won a certain percentage of the games played during the summer. If you are a friend of chess or wish to take part in the tournament, do not fail to attend the meeting on Saturday evening at 7:30 in the Military Band Hall.

INTERESTED IN KLAMATH.

C. N. Meyer Writes That Many People are Coming to This County From Pacific Grove This Summer.

C. N. Meyer, who is heavily interested in Klamath Falls property and who is spending the winter at Pacific Grove, California, writes to send the Herald to him as he is anxious for news from Klamath Falls. He says: "The people here are as anxious as I am. They are all interested in the new and, you can bet, there will lots of people from here go to Klamath County this summer. I'll be back as soon as possible in the spring. It is raining here and has been for the last two weeks and no sign of stopping."

NEW TIMBER LAW.

There is considerable difference of opinion in this county as to the benefit of the Beal's bill which passed the House last week. This bill requires all owners of timber lands to furnish County Assessors with lists of their holdings and estimates of standing timber thereon. As Klamath County is one of the heaviest timber sections of the state the bill naturally would be specially applicable to this county.

It is argued by many that this law would not benefit the Assessor's office except so far as the furnishing of a list of the lands owned by the companies. It is argued that the only way to get an equitable estimate of the timber is for the county to have all timber land cruised, as all timber owners have two estimates, a buying and a selling estimate, and some have a third or correct estimate.

It would be impracticable for the Assessor to accept the owner's estimate as there is always a vast difference of opinion as to the amount of timber on a tract of land. The best way is to have the county make the estimate and then it is up to the owners to accept the estimate or prove it is incorrect.
