

◆◆◆◆◆ LONE PINE ITEMS. ◆◆◆◆◆

Chas. Steeman is now moving his house down near the road.

The telephone crew which has been boarding at Mr. Booth's, has moved to Chas. Anderson's.

Wm. Barks is circulating a petition to sell the old school house. There is to be a school meeting Saturday.

Albert Depew was taken ill last Sunday and had two convulsions before the doctor could be summoned.

Mr. Bagby is hauling straw from James Cole's.

Charlie Low, of the Falls, was in our district last Tuesday getting a new jury.

James Diemer is now living on his homestead.

Mrs. Webber and daughter, Lettba, spent Wednesday in Merrill.

Pink Barks is cleaning some sagebrush off from his homestead.

George W. Beebe, of Carlisle, Ark., has sold his rice farm there and will be here by the first of March to visit his son, Major Beebe. Mr. Beebe may locate either in Klamath or in Jackson County.

Mr. and Mrs. Booth spent Sunday with Mrs. LaPrarie.

Herbert Phillips has now moved into his new house on the E. S. Phillips ranch.

Jay and Johnnie Manning made a business trip to James Cole's last Thursday.

Mrs. Harry Booth spent Tuesday with Mrs. Beebe.

Mrs. Beebe spent Thursday at Depew's, assisting Mrs. Depew to take care of her sick child.

Anna Beebe spent Saturday with Madelin and Faye West.

Kathleen and Eddie Dervan spent Wednesday with Anna Beebe.

Mr. Brady is now hauling hay for Joe Dervan from the Bunnell ranch.

S. Booth hauled a load of wood last Saturday.

◆◆◆◆◆ YONNA VALLEY ITEMS. ◆◆◆◆◆

Mrs. D. Y. Gray, of Yonna, who has been ill for some time past, is much worse. The doctor made several visits this week but she is not improving as much as her relatives and friends would wish.

C. E. Drew went to P. H. Gray's of South Yonna, last Thursday to drive down a band of horses which he has traded to Mr. Gray for a herd of cattle. Friday morning Mr. Drew left for the Reservation on business and during his absence Harrison Gray will do the work of the Drew ranch.

C. C. Pearson has been hauling wood for the past few days.

John Anderson returned from the Reservation Thursday evening, where he has been helping Mr. Vierra feed cattle.

Mr. and Mrs. Carl Adams, of North Yonna, were in Dairy Saturday.

J. H. O'Brien was in Bonanza Monday.

W. P. Phillips and Wm. Uhrmann, who are road supervisors of District No. 8 of this county, are contemplating putting in a new grade between C. Carlson's and Jacob Rueck's place. This road is now almost impassable, even for a light rig.

Master Willie Jonas, who is now staying at Fred Beck's, was in Dairy Wednesday.

Henry Jackson and family and his son-in-law, from the Reservation, stopped at Mr. Vierra's place Thursday night.

Mr. Phillips, road supervisor, is staying at Wm. Uhrmann's for a few days. He is in Yonna for the purpose of inspecting the roads.

J. H. O'Brien, of Yonna, was in Dairy Wednesday.

Sam Walker and Wm. Shook passed through Yonna Monday.

J. G. Wight came down from the Reservation Sunday, where he is feeding his cattle, and returned on Wednesday with provisions.

Mr. and Mrs. Vierra made a trip to Dairy Wednesday.

Mrs. L. M. Fitch was subpoenaed on the trial for horse stealing against Walter Welsh and others. During her absence Miss Rosa Beck will stay with her daughter Hazel.

Some of our neighbors have gone to town, where they have secured board and lodging at a low rate. They may go to a bigger town to live for some time.

Mrs. Beck entertained friends last Wednesday it being her birthday.

Jeff Kirkpatrick made a business trip to Emil Egert's last week to get some horses which he has had in the pasture.

Mrs. W. H. Bliss went to Dairy Wednesday.

Sheriff Barnes was in Yonna last week on business.

Jeff Kirkpatrick has been trapping on the Swan Lake mountain this winter. He has now come home.

Walter Welsh, accompanied by the deputy sheriff, Mr. Shook, was at Mrs. L. M. Fitch's place last week on business.

The people of Yonna think now that there will be plenty of water in the valley, as it is reported that there

are five feet of snow near the old Crookshank mill up in the mountains.

Wm. Uhrmann was in Swan Lake on business Wednesday.

L. A. Sterl was over looking at his cattle which Henry Stoeshler is feeding for him. From there he went to Dairy on business.

W. H. Bliss has sold his windmill to Manuel Vierra for \$110.

Chas. McCumber went to the Falls last week to attend court.

Thomas Stanley made a business trip to Dairy this week.

Jesse Drew is doing chores at the Reynolds' ranch during their absence from home.

Mr. Vierra is making improvements on his barn. This is only one of many improvements which he has done on his place in the last year.

The cold nights have furnished skating in numerous places, but it seems that some of the boys did more of their skating on their heads than on their feet.

Miss Nellie Bliss was in Dairy last Monday.

O. Hoppe, of North Yonna, was working at Mrs. L. M. Fitch's place last week.

John Donnell bought a load of wheat from Henry Stoeshler of Dairy last week.

Wm. Uhrmann bought 100 posts of Stille Bros., of Swan Lake. He is now hauling them.

Polly Stiles, of Swan Lake, is feeding J. G. Hamaker's cattle on the old Dieckman place. He will also run the cream separator which Mr. Hamaker has there.

John Logue went to Klamath Falls on business Tuesday.

FREE INSTRUCTION IN HORTICULTURE

A six week course in horticulture is now under way at the Agricultural College, Corvallis, Oregon, and there is a large attendance from different parts of the state, the attendance being more than double that of last year. Some of the most interesting work in the course is yet to come. Many fruit-growers are unable to attend the course for the entire six weeks, but are able to come for a few days or several weeks. The course is open to them at any time. There will be two weeks more of apple packing and work in budding and grafting. In addition to this, special lectures are given on the various phases of fruit growing, truck gardening and landscape gardening.

Beginning on February 3 a special course of two weeks will be given in walnut grafting. This should be of great interest to people contemplating engaging in this industry. The most important methods of walnut grafting will be taken up, including the very successful and famous Payne method. In addition to the lectures practice will be given in the work including nursery grafting, and the top-working of the large American black walnut trees found scattered over the state.

In the last two weeks of the course two hours a day of practical instruction will be given in spraying, pruning, staking and setting of orchards. This work includes apples, grapes, peaches, cherries, etc.

Special lectures will be given by some of the best authorities on horticulture to be found in the Northwest. These courses are open to any one interested in horticulture. Come at any time.

POISE FOR THE BODY.

Every woman can possess a supple, agile body under perfect control.

The first essential is to learn to stand properly, with the head erect and the shoulders flat, not pressed backward. To acquire this, balance an object on the head, in imitation of the peasant woman, and stand against a solid wall, the heels, trunk and back of the head touching it. When you feel that you are "in position," step forward, retaining the object (it may be anything—a small pillow or a weight) upon the head.

Now raise the heels slowly, pressing the floor with the toes; repeat this ten times. Now hold the arms flat against the sides, bend the knees and lower the body toward the heels without actually touching them; raise the body slowly, keeping the back straight and upright (otherwise the object will fall off your head), not allowing the hands to touch the floor. Repeat ten times.

Next fill the lungs full of fresh air; hold it, and with the body and head erect, raise one arm forcibly above the head while the other is held close to the side; lower the raised arm, and, while so doing, raise the other. Continue vigorously this alternate movement (aiding yourself in the erect posture with the object upon the head) until the air in the lungs must be expelled. Slowly refill the lungs and repeat. This exercise has also a particularly stimulating action upon the liver.—February Delinctor.

Excellent Pies, Cakes and Bread at CITY BAKERY. 28-2t

HENNY HAS RESIGNED.

Hopson Succeeds Him as Supervising Engineer.

A dispatch from Washington states that D. C. Henny, Supervising Engineer of the Reclamation Service, has resigned to take up private work. He will act, however, as a Consulting Engineer in the Service.

The Northwestern district, consisting of Washington, Oregon, Nevada and practically all of California, has been in the joint charge of Engineers Henny and E. G. Hopson, with headquarters at Portland. This district has been divided and after February 1, C. H. Swigart, now in charge of the Tieton project in Washington, will have supervision of the state of Washington, Hopson retaining the supervision of Oregon, Nevada and California.

The farmers under the Klamath Project are very fortunate in having Mr. Hopson in charge of this district, as he is familiar with the needs of the Klamath Project and made many friends among the water users of this system, on his several visits here, who have full confidence that he will do everything he can for the benefit and furtherance of the project.

NEW PUMP INSTALLED.

Two hundred gallons of water a day for each person in Klamath Falls, is a rather high average of liquid consumption for a dry town, but Manager Gates of the Light and Water Company, states that that is the average daily consumption based on a population of 2500 people.

The Company began Saturday operating their new centrifugal pump which handles 36,000 gallons of water an hour. Mr. Gates states that they are now pumping between seven and eight hours a day, making a total of over 450,000 gallons a day or an average of about 200 gallons for each inhabitant. This is four times the amount of water used in the large cities. The average there is given as 50 gallons a day. During the summer months the pump is kept in operation about fourteen hours a day, supplying twice the amount of water that is used at present.

The Light & Water Company is now equipped with two separate pumps with a capacity of 600 gallons a minute, and two separate motors, connected with juice from their own electric light plant and also Moore Bros., so that there is very little danger of the city ever being without water. If one of the pumps should get out of order all that would be necessary would be to start the other pump. With the double motors connecting with the two power plants the city is given the double protection in the supply of both water and lights.

NO EXTENSION LIKELY.

Things do not look very favorable for the relief of the water users of the Klamath project and it is very improbable that any extension of time will be given, or any reduction be made in the cost price.

Committee hearings have been held on several bills pending before the Senate for the relief of delinquent water right applicants, and of other settlers on arid lands, in relation to which opposition has developed on the ground that extensions granted to such persons tend to prevent further irrigation work. The opponents of such legislation claim the entire policy of the extension of irrigation projects depends upon having the obligations of such settlers met promptly. They claim that the policy of permitting extensions of time will result in breaking down the system.

BEDFIELD SCHOOL CLOSES.

Prof. Albert E. Edler closed a successful term of school in the Bedfield district Friday with a well selected and prepared program in honor of Lincoln day. The program was in charge of the Wide Awake Literary Society, a society organized by Mr. Edler in his school. The society has helped to interest the students in debating and literary and is something that might be introduced into other schools in the county.

Supt. Swan, on the invitation of the society, addressed them on Abraham Lincoln.

Prof. Edler will open a term of school at Dairy in about two weeks.

MAY BUILD NEW CHURCH.

The members of the Presbyterian Church have decided that it will be necessary to build a new church, as the old building is inadequate for the purpose and is in too bad condition. The present building encroaches on the adjacent property and it would be necessary to move it. On account of the condition of the sills and the roof it would be practically impossible to move it so that it could again be occupied. The church is growing so that within a short time the present room will be too small

even for the regular church services.

Thursday evening the Presbyterian Men's Club gave their second annual banquet, to which the men of the congregation and a large number of citizens were invited. The banquet was served by the ladies of the church and was most bounteous and excellent. After the banquet a number of addresses were made by members of the church and congregation. The remarks were mostly along the necessity of a new church building.

Alex. Martin, Jr., acted as toastmaster, and in his opening address drew attention to the fact that the church building was occupying a portion of the adjoining lot and that a request had been made by the owner for its removal. The church had been built a number of years ago when the survey lines had not been fully established. He stated that the present building would have to be moved, and as that would necessitate considerable expense in improvements, the matter was being considered of building a new church.

J. B. Mason was then called upon and spoke of the "Needs of the Church from an Educational Standpoint. Particularly the Sunday School." He dwelt on the importance of the proper education of the children, and stated that that was the surest way to improve the moral conditions of a town or country, by bringing up the children to become moral men and women.

Rev. Geo. T. Pratt spoke on the "Needs of the Church from the Pastor's Standpoint." He showed the necessity of a new building both for the church and the Sunday School.

Members of the congregation were called upon and responses were made by Prof. J. T. Butcher, W. S. Slough, G. W. White, W. H. Heleman, and W. A. Delzell. Every speaker was of the opinion that they both needed and wanted a new building, but as the toastmaster said, the question was Can we build it?

Voluntary expressions were asked for and in response Chas. E. Worden said:

"Mr. Toastmaster and friends: I don't know as I should say anything, but being a kind of a brother-in-law to the church, I guess I will. I am a kind of a free thinker myself but claim to be a moral man, and am for anything that will help Klamath Falls or the community. I believe you need a better church and I don't know how to get it without making a start. Now to start it I will make this offer. If you will build a church at a cost of \$15,000, I will give one-tenth or \$1500, or, I will give one-tenth of cost of fixing up your present church. I make this offer under the condition that no indebtedness be contracted, but when completed must be free from debt."

Mr. Martin, cashier of the Klamath County Bank and a member of the church, followed Mr. Worden and said: "I have just been waiting for someone to make a start. If you will build a church at a cost of \$15,000, I will give one-tenth or I will give one-tenth toward the repairing and improvement of the present building. Further, I will contribute one-tenth if the new building should cost less than \$15,000, on condition that the property is not mortgaged."

On motion of W. A. Delzell, it was decided that a committee on funds be appointed, the members to be selected by Rev. Pratt, to take up the matter of a new church and see what further money could be raised for that purpose.

PRISONERS WERE SICK.

Alf. Wallis and Chas. Liskey, the two prisoners in the county jail on a charge of horse stealing, are having quite a hard time. The two men were taken sick Friday and Wallis became so bad that he had to be removed to the American Hotel about 7 o'clock that evening for medical attendance.

Liskey was sick during the night, and tried to make a reservoir out of the jail by turning on the water, with the result that the entire floor was flooded several inches deep with water before morning.

A few days ago some canned fruit was sent to Wallis by his family, and the two men ate considerable of this. It is believed that the fruit was the cause of their sickness. There must have been something wrong with it as the two men have been in pretty bad shape.

LAST DAY FOR DUCKS.

Sunday was the last day of the open season for ducks until next fall. It is claimed that the shooting has been very good, but on account of the wet weather the first part of the month, the sportsmen were not as active as during the first part of the season. In view of the little interest taken in duck shooting at this season of the year, there is very little excuse for the month's extension as proposed by the new game laws.

ROAD BILL INTRODUCED.

Asks for a State Road From Idaho Boundary to Sea by Way of Crater Lake.

The bill, asking for an appropriation for the Crater Lake road has been introduced in the house. It was introduced by Representative Purdin, of Jackson County, by request of the Medford Commercial Club and in response to memorials from other clubs in Jackson and Klamath counties.

The bill provides for an appropriation of \$100,000 to aid in the construction of a state road from the Pacific Ocean to the Idaho boundary by way of Crater Lake and the appointment of a commission to supervise the expenditure of the funds and superintend the construction of the highway. The appropriation is made contingent on an appropriation of \$50,000 by Jackson County for constructing that section of the road from Medford to the Cascade Forest Reserve.

By the terms of the bill the Governor is empowered to appoint a commission of seven members, two to be residents of Jackson County and two of Klamath County. No member of the commission is to receive any compensation for his services, but they are to be allowed actual expenses while engaged in the business of the commission.

In the preamble it is specified that the Crater Lake region is the most famous natural wonder of the West—containing, and while now inaccessible, would be visited by from 30,000 to 40,000 tourists annually if a good road were provided. This influx of tourists, it is asserted, would lead to immigration and the development of the state's resources on a larger scale than ever. The country itself is said to be sparsely settled and would be wonderfully benefited by such a highway.

The cost of a highway from Medford to Klamath Falls, it is estimated, would be \$500,000, of which \$250,000 would be expended by the Government, \$50,000 by Jackson County, \$50,000 by Klamath County and \$50,000 by private persons interested in the project, if the state should expend \$100,000 in order that the improvement may be carried through to completion.

MARSH GRADE HALF DONE.

There are now three dredges working on the railroad grade across the marsh. One of the small dredges has now covered a mile and a half, or about one-half of the distance across the marsh. This is followed closely by the second dredge and the big machine is half a mile in the rear or a mile from the starting point at Holland.

The big dredge which is bringing up in the rear is finishing the embankment as it goes along and when it reaches the opposite shore, the grade will be ready for the rails. It is now thirty days since work was commenced on the marsh on this side of the straits and it is estimated that the job is half finished. The big dredge did not start until some time after the others and at the rate it is traveling it will be up with the other dredges within twenty days.

Allowing for possible delays it is stated that the grade across the marsh will be completed to Midland within six weeks. The contractors will be through with the work on this side much sooner than this. Engineer Hoey has stated that within ten days from the time his steel gang begin laying track at Holland, he will have his construction car at the entrance to Klamath Falls.

This work would therefore consume less than two months, but it does not necessarily follow that a passenger service is to be put on at that time. It is necessary to put in cement abutments with wings and make a fill across the present channel this side of the headgates. This work will not be started until spring opens up some time in the early part of April. It is stated that the cement work and fill can be finished in thirty days, so that it would be possible for trains to be running into Klamath Falls the latter part of May, which was the time unofficially announced last fall.

NOTICE FOR PUBLICATION.

Department of the Interior, U. S. Land Office at Lakeview, Oregon, November 25, 1908.

Notice is hereby given that Oscar J. Streeter, of Klamath Falls, Oregon, who, on Nov. 20, 1908, made Timber and Stone Application, No. 0846, for Lot 2, Sec. 24, Tp. 36 S., R. 7 E., W. M., has filed notice of intention to make final proof, to establish claim to the land above described, before County Clerk Klamath Co., at his office at Klamath Falls, Oregon, on the 5th day of February, 1909.

Claimant names as witnesses: E. T. Shortt, Tom Staten, Fred R. Goeller, Walter Horton, all of Klamath Falls, Oregon.

J. N. WATSON, Register.

ROAD BILL INTRODUCED.

Asks for a State Road From Idaho Boundary to Sea by Way of Crater Lake.

The bill, asking for an appropriation for the Crater Lake road has been introduced in the house. It was introduced by Representative Purdin, of Jackson County, by request of the Medford Commercial Club and in response to memorials from other clubs in Jackson and Klamath counties.

The bill provides for an appropriation of \$100,000 to aid in the construction of a state road from the Pacific Ocean to the Idaho boundary by way of Crater Lake and the appointment of a commission to supervise the expenditure of the funds and superintend the construction of the highway. The appropriation is made contingent on an appropriation of \$50,000 by Jackson County for constructing that section of the road from Medford to the Cascade Forest Reserve.

By the terms of the bill the Governor is empowered to appoint a commission of seven members, two to be residents of Jackson County and two of Klamath County. No member of the commission is to receive any compensation for his services, but they are to be allowed actual expenses while engaged in the business of the commission.

In the preamble it is specified that the Crater Lake region is the most famous natural wonder of the West—containing, and while now inaccessible, would be visited by from 30,000 to 40,000 tourists annually if a good road were provided. This influx of tourists, it is asserted, would lead to immigration and the development of the state's resources on a larger scale than ever. The country itself is said to be sparsely settled and would be wonderfully benefited by such a highway.

The cost of a highway from Medford to Klamath Falls, it is estimated, would be \$500,000, of which \$250,000 would be expended by the Government, \$50,000 by Jackson County, \$50,000 by Klamath County and \$50,000 by private persons interested in the project, if the state should expend \$100,000 in order that the improvement may be carried through to completion.

SALE OF TIMBER.

Portland, Oregon, December 31, 1908. Sealed bids marked outside, "Bid, Timber Sale Application, December 17, 1908, Crater," and addressed to the District Forester, Forest Service, Portland, Oregon, will be received up to and including the 15th day of February, 1909, for all the merchantable dead timber standing or down and all the live timber marked for cutting by the forest officer located on an area to be definitely designated by the Forest officer before cutting begins, including approximately 369 acres, in the N½ of Sec. 26, 8¼ of Sec. 23, SE¼ of Sec. 22 and NE¼ of Sec. 27, T. 35 S., R. 6 E., W. M., in the Crater National Forest, Oregon; estimated to be 2,583,000 feet B. M. of live yellow pine, 738,000 feet B. M. of live white fir, 775,000 feet B. M. of live Douglas fir, 125,000 feet B. M. of live incense cedar, 370,000 feet B. M. of merchantable dead yellow pine and 26,000 feet B. M. of merchantable dead Douglas fir, sawtimber, log scale, and 4,000 cords of cordwood, more or less. No bid of less than \$3 for live yellow pine, \$1.35 for live white fir, \$2.50 for live Douglas fir and incense cedar, \$2 for dead yellow pine, \$1.50 for dead Douglas fir, per thousand feet B. M. and 25 cents per cord for cordwood will be considered and a deposit of \$1100 must be sent to the First National Bank, Portland, Oregon, for each bid submitted to the District Forester. Timber upon valid claims is exempted from sale. The right to reject any and all bids is reserved. For further information and regulations governing sales, address M. L. Erickson, Forest Supervisor, Medford, Oregon.

Geo. H. CECIL, Acting District Forester.

DEPARTMENT OF THE INTERIOR

General Land Office, Washington, D. C., December 24, 1908.

Notice of Restoration of Public Lands to Settlement and Entry.

Notice is hereby given that the Secretary of the Interior has vacated departmental order of withdrawal insofar as the same affects the withdrawal for irrigation purposes under the act of June 17, 1902 (32 Stat. 388), for use in connection with the Klamath Project, Oregon, of the following described lands in the State of Oregon, and by his authority such of said tracts as have not been heretofore finally restored and are not otherwise withdrawn, reserved, or appropriated, will be subject to settlement under the public land laws of the United States on and after March 25, 1909, but shall not be subject to entry, filing, or selection until April 24, 1909, at the United States land office at Lakeview, Oregon, warning being expressly given that no person will be permitted to gain or exercise any right whatever under any settlement or occupation begun after December 23, 1908, and prior to March 25, 1909, all such settlement or occupation being forbidden:

Nyal's Vegetable Prescription is indicated in all ordinary diseases of women. This remedy never disappoints, its good effects being perceptible from the very first. It is composed of the purest and most reliable drugs—mercurials, opiates and other harmful drugs being excluded. The many disconcerting influences to which women are constantly subjected render her liable to many functional disorders that not only tend to destroy her comfort and happiness, but which gradually merge into chronic and serious diseases.

Nyal's Vegetable Prescription is without a peer for the successful treatment of female weakness, painful and disordered menstruation, hysteria, cramps, "bearing down pains," inflammation and falling of the womb. This is a remedy of sterling worth.

UNDERWOOD'S PHARMACY

COR. 7TH AND MAIN STS. Klamath Falls - Oregon

SALE OF TIMBER.
