GEO. T. BALDWIN, } Directors.

Now is the time to visit

California

WHEN summer has passed in these northern states, the sun is only mild under the bright blue skies of Southern California. This is one of nature's happy provisions—eternal summer for those who cannot endure a more severe climate. California has been called the "Mecca of the winter tourist." Its hotels and stopping places are as varied as those of all well regulated cities. Visitors can always find suitable accommodations, congenial companions, and varied recreations.

The Southern Pacific Co.

Will be glad to supply some very attractive literature, describing in detail the many delights of winter in California. Very low round trip excursion tickets are on sale to California. For full information, sleeping car reservations and tickets, call on, telegraph or write any S. P. Agent, or
