TO STUDY ROAD CONDITIONS.

MEDFORD, Ore., March 15.—A movement is on foot to have the government send an engineer to this county to make a study of local road conditions and prepare for the use of the county road builders a report setting forth data covering the local roads, and recommendations for the proper conduct of such work.

The government has written to Secretary Miller of the Commercial Club regarding the matter as follows:

"We do not issue any standard set of plans and specifications, for the reason that conditions differ so widely in the various sections of country that it would be practically impossible to prepare such plans and specifications as would anticipate all conditions. We maintain, however, a corps of engineers to make investigations and give advice absolutely free of charge to the various communities, and in some cases, where we consider that conditions warrant it, we send an engineer to a county for the purpose of making a complete investigation of all materials, roads, equipment, methods of construction and maintenance and administration, and to prepare a complete and thorough report setting forth all such data and giving recommendations for the proper conduct of the work. In such cases the office pays the entire salary of the engineer and his expenses to and from the county, but the county is required to pay his subsistence and traveling expenses so long as he is in the county."

James Anderson White is a recent arrival in the city from Pittsburg, Pa.

It is composed of the purest and most reliable drugs—mercurials, opiates and other harmful drugs being excluded. The many disconcerting influences to which woman is constantly subjected render her liable to many functional disorders that not only tend to destroy her comfort and happiness, but which gradually merge into chronic and serious diseases.

Nyal's Vegetable Prescription is without a peer for the successful treatment of female weakness, painful and disordered menstruation, hysteria, cramps, "bearing down pains," inflammation and falling of the womb. This is a remedy of sterling worth.
