SATISFACTION

The feeling I want to exist between you and me. I am trying to make my name and satisfaction synonymous. You can help me.

Don't holler and cuss if I have worked for you and it's not been satisfactory, but bring it back and give me a chance to make my word of guarantee good.

One receives a certain amount of satisfaction in buying goods and feeling they have their dollar's worth.

Those are the very kind of goods I carry and are all made by the most reliable firms. I would like to have your business.

I have been told that I am on the WRONG side of the street nevertheless you are not treating yourself RIGHT unless you see my stock before you buy.
