IN MEMORIAM.

After an illness extending over two years, Joseph M. Seehorn died Tuesday noon at the home of Mr. and Mrs. Sehr, near town.
Mr. Seehorn was born in Adams county, Illinois, on April 16, 1836, and first came to this state in 1856. After a stay of six years he returned to Illinois and married Miss Mary Roberts. But the lure of the West caused him to again settle in this state, which has been his home ever since the fall of 1875. At first he settled in San Ramon Valley, Contra Costa County, and afterwards in Fresno.
About two years ago his health failed, and, retiring from active farming, Mr. Seehorn and wife went to Klamath Falls, Oregon, where their only son is a prominent business man. The altitude was too high, however, and Mr. Seehorn and wife came to Tracy to visit a cousin of the former, Mrs. Sehr. This was about a year ago. His health improved, and last June, he again took the trip to Klamath Falls, accompanied by his faithful wife.
But the improvement was short-lived, and when he returned to Tracy two months ago, he was a doomed man. The end came quickly, quietly, painlessly.
The funeral services were held Thursday at the Presbyterian church and interment was made in the local cemetery. There was a large following of friends and sympathizers, for Mr. Seehorn was highly esteemed by all who knew him. For 45 years he has been a consistent member of the Christian church, a good-natured, jovial and kind-hearted man. W. E. Seehorn, the son, arrived in time for the funeral services and will take his mother to his home when he returns.
To the mourning family the "Press" extends sincere sympathy.—Tracy, (Calif.) Press.

GATHERING FISH FOR WINTER.

The Indians from the Klamath Reservation, as has been their custom for years, are now flocking to Lost River and other streams where the run of mulet is large, and are laying in their supply for the winter. Already there are over twenty Indian camps located along Lost River near Bonanza. The Indians and their squaws catch the fish which are dried and packed for the winter. It is said that many thousands of pounds are caught each year.
The mulet is a species of sucker, but is much superior in flavor to the fish commonly known by that name. During the spring run in Lost River the fish are so plentiful that wagon loads can be caught in a very short time and are said to be excellent eating while fresh, but on account of their abundance have never become popular with the white residents of the county.

WAS IT RITTER'S TRAP.

About three weeks ago Geo. Ritter, of Yonka Valley, lost a trap which he had set to catch wildcats. It was supposed at the time that some animal had been caught and carried off the trap. Last week R. C. Anderson, who lives near Merrill, heard his dog barking on the hill near his place and sent his son, Daniel, to see what the matter was. He discovered the dog had cornered a large wildcat and finally succeeded in killing the animal. When he went to examine the animal he found a trap attached to one of its front paws. It is supposed the trap is the one lost by Ritter in Yonka Valley. The wildcat must have traveled a distance of over thirty miles, dragging the trap with him.
Policeman Townsend was given quite a little trouble last Monday in arresting a man known as "Red," who was very much intoxicated. The man objected very strenuously to being arrested and Townsend had to lay him down on the sidewalk and put the irons on him. He was then placed on one of the express wagons and taken to the city jail. The altercation which took place in front of the bowling alley on Main street attracted a large crowd.

THE MARSH GRADE IS PRACTICALLY COMPLETED.

From present indications the steaming gang will be able to begin laying track from the present terminus of the railroad to Klamath Falls early in April. One dredge reached Ady Thursday on its return trip across the marsh and the second dredge will finish within a week. After throwing up the grade across the marsh between Ady and Midland the two dredges worked back filling up the low places. A crew is already at work leveling off the grade and it is stated that there is now no reason why the track gang cannot begin work by the first of the month.
The officials of the Southern Pacific refuse to make any statements as to what their orders are or as to when they expect to have the road completed to Klamath Falls. Nevertheless the work is continually going on and the trains are liable to be running into this city before the people realize it. The contractors finished the work on the grade this side of the marsh some time ago, and have moved all of their equipment to the grade between the Hot Springs and the Upper Lake. This leaves the grade work between the terminus and the depot grounds in this city practically finished. All that is needed is a few finishing touches.
Chief Construction Engineer Hoye made the statement some time ago that within ten days after his crew began laying track at Holland he would have his construction train in the yards at Klamath Falls. This being the case the line should be practically ready for operation to this city about the middle of April.
