DISTRESS FROM UPSET STOMACH

Put It In Some Safe Place, For It May Come In Handy Some Day

Also Misery From Indigestion Vanishes Five Minutes Later

Here is a simple home-made mixture as given by an eminent authority on Kidney diseases, who makes the statement that it will relieve almost any case of Kidney trouble if taken before the stage of Bright's disease. He states that such symptoms as lame back, pain in the side, frequent desire to urinate, especially at night; painful and discolored urination, are readily overcome. Here is the recipe. Try it!

Take your sour stomach—or may be you call it indigestion, dyspepsia, gastritis or catarrh of stomach; it doesn't matter—take your stomach trouble right with you to your pharmacist and ask him to open a 50-cent case of Pape's Diapepsin and let you eat one 22-grain triangle and see if within five minutes there is left any trace of your stomach misery.

Fluid Extract Dandelion, one-half ounce; Compound Kargon one ounce; Compound Syrup Sarsaparilla, three ounces. Take a teaspoonful after each meal and at bedtime.

The correct name for your trouble is Food Fermentation—food souring. The digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness and many other similar symptoms.

A well-known druggist here in town is authority that these ingredients are all harmless and easily mixed at home by shaking well in a bottle. This mixture has a peculiar healing and soothing effect upon the entire Kidney and Urinary structure, and often overcomes the worst forms of Rheumatism in just a little while. This mixture is said to remove all blood disorders and cure the Rheumatism by forcing the Kidneys to filter and strain from the blood and system all uric acid and foul, decomposed waste matter, which cause these afflictions. Try it if you aren't well. Save the prescription.

If your appetite is feeble, and nothing tempts you, or you belch gas or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

TO UNCOVER GRAFT AND PURIFY CITY POLITICS.

Prove to yourself, after your next meal, that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

NEW YORK, March 17.—A. Leo Well, president of the Voters' League of Pittsburg, who has been in New York for several days conferring with members of the Bureau of Municipal Research and others interested in clean city government, confirms the report that a movement is under way looking to the organization of civic societies throughout the United States, whose purpose shall be to uncover graft and purify city politics. Twenty or more of the large cities in the country will be in the organization. John D. Rockefeller, Andrew Carnegie, Jacob H. Schiff and other well known men will finance the undertaking, it is said.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapepsin.

In discussing the proposal to bring the civic bodies of the cities closer together, Well said: "The plan to organize was suggested by members of the San Francisco organization who are in New York at present and who have done such effective work in their home town."

KENO DOINGS.

The engineers who built the Cortland street tunnel below the Hudson River are justly proud of the fact that the whole 5900 feet of pneumatic work was driven through without the serious injury through air pressure of a single workman. The tunnel was built under air pressures of from 25 to 35 pounds to the square inch, and the enviable freedom of the workmen from attacks of the "bends" is due mainly to a searching medical examination of all candidates for the compressed air work.
