BIG BOOSTER MEETING.

That the people of Klamath Falls can get up a little enthusiasm was demonstrated at the quarterly meeting of the Chamber of Commerce last Thursday. The court room crowded with members and citizens from Klamath Falls and surrounding towns in the county. By a unanimous vote of the members, it was decided to raise a fund of \$5000 for advertising purposes to be used in holding a Railroad Day Celebration and an exhibit at the Seattle Fair.

A. H. Naffziger of the Hot Springs Improvement Company stated that if \$5000 were raised, his company give 20 per cent of the amount, or \$1000. E. R. Reames of the Buena Vista addition stated that other members of the company would be here tonight, but that he would pledge the company to a very liberal contribution. Frank Ira White stated that he could not say what his company would be willing to do, but that personally he would contribute \$10 a month for one year toward the fund. M. G. Wilkins, E. B. Hall and Wilbur White agreed to each give \$10 a month. A movement was made to solicit pledges among the members present, but it was finally decided to have the advertising committee call upon the business men and property owners throughout the county personally and receive their donations. There were many men present who were members of firms, who wished first to consult with their associates before they pledged themselves. It is believed, however, that there will be no difficulty in raising the amount, and the only regret expressed is that the fund was not made \$10,000 instead of \$5000.

The matter of the improvement of the Lakeview road was taken up and many prominent men from different parts of the county expressed themselves very strongly in favor of the improvement. It was decided that it would be better to improve the present road rather than to locate a new one. Messrs. Massengill, Light and Florence, the Lakeview delegation, stated that their people were anxious to have the road in shape for travel early this summer, as they wished all the freight and passengers to be able to come this way this year. A resolution was passed unanimously asking the county court to begin the work at once. Judge Griffith stated that the Commissioners and himself had already decided in favor of the improvement and the necessity of the work being done at once. He requested the Lakeview delegation to remain over another day to meet with the board to arrange details.

It was decided to hold a celebration on the arrival of the railroad, and a committee will be appointed to make arrangements. Sacramento merchants plan an excursion to Klamath Falls about that time, and invitations will be extended to San Francisco and Portland to send delegations.

A letter from Major McIndoe, of the engineering corps of the U. S. Army, was read with reference to the improvement of Wood river. A committee, consisting of J. G. Pierce, Jas. Pelton and M. G. Wilkins, was appointed to secure and furnish the necessary information asked for by Major McIndoe.

REGISTRATION BOOKS CLOSED.

The registration books for the Thursday. The books show 101 in city election closed at 5 o'clock last the first ward; 166 in the second and 165 in the third, making a total of 432.

A Chicago paper makes a big story out of the fact that the telegraphers' strike in Paris made prices high. Isn't that usually one result of a strike?

LUXURIOUS OFFICE BUILDING.

WASHINGTON, April 1.—What is undoubtedly the most luxurious office building in the county, if not in the world, is just being completed for the use of the United States Senate. It is so far finished that most of the senators have already moved their quarters from the old capitol building, or from the Malby annex, into the new environment.

Every convenience known to the art of the builder and architect is included in the new building. It is electrically lighted throughout. All of the lighting fixtures, as well as the furniture, the thirteen elevators, etc., were especially designed so as to fit in with their surroundings.

Every room has its telephone, its electric bell to tell what is going on on the senate floor, and its electric fan. An electric clock system is being installed so that every suite of rooms will be supplied with the exact time direct from the naval observatory.

Each senator has at least two rooms—one for himself, one for his secretary and clerks. Some have more than two. There are the usual mail chutes as in most modern office buildings and in addition there are "gravity conveyances" which will take heavy packages down to the mailing rooms below.

The building is heated by hot water and there are 440 radiators with 30,000 feet of radiating surface and 71,450 feet of piping. The senators ride through a tunnel that connects the capitol with their office building in \$5000 automobiles. One particular convenience is a scheme for carrying ice water in a system of pipes so it can be drawn in each room from a spigot, the same as ordinary city water.

All of the furniture, including the doors, and other trimmings of the rooms is of mahogany, Honduras, Mexico, Cuba and Africa all contributing to this display of fine woods. Altogether there are 2105 pieces of furniture in the building, the whole expenditure for this feature, including rugs, amounted to \$884,413.35.

The entire work was executed under a system of separate contracts and almost every section of the country had a part in the construction for the furnishing of the building.

In the lower part of the structure is a large kitchen, consisting of eight rooms, all fitted with the most modern appliances and with tiled walls. Everything is electrically fitted, even the ice-cream freezer and the washer being run by electricity.

Also, on the ground floor, is a wonderful bathing room, with commodious individual apartments for each senator, fitted with hot and cold spray attachments, lined with marble and with luxurious furnishings in keeping with the rest of the establishment. A barber shop is conveniently near, and there is a telegraph office, a telephone office and postoffice on the floor above.

The building itself is of marble on a granite base. It consists of three large wings, with a court in between the combined frontage of the street and court facades being nearly one-half a mile. Because of its proximity to the capitol its exterior architecture, like that of the house office building on the other side of the square, is made to conform to that of capitol. Handsome columns of fluted marble grace the sides of the structure facing the capitol plaza. The most delicately colored marbles procurable seem to have been selected for floors and columns and staircases, with ornate bronze railings for the latter and lighting fixtures of the same metal.

The building stands to the northeast of the capitol and is designated to be one of the "show places" of the city.

Chas. Lambert, the stage man, is in the city from Bonanza.

LOOKED LIKE AN EXCURSION.

The decks of the steamer Klamath Friday evening looked like she was carrying an excursion party, they were that crowded with passengers. There were a total of 59 passengers aboard, besides the crew and some local travel. The incoming trip, and the last days of the steam-travel before the arrival of the railroad are taxing the boat accommodations to the utmost.

Chas. S. and Rufus More returned Friday from Merrill.

DEPARTMENT OF THE INTERIOR, UNITED STATES LAND OFFICE.

Lakeview, Oregon, March 24, 1909.

A sufficient contact affidavit has been filed in this office by John B. Vollmer, Dorris, Calif., contestant, against homestead entry No. 2957, April 22, 1903, final certificate No. 0325, issued August 11, 1908, for the W 1/2 NW 1/4, SE 1/4 NW 1/4, NE 1/4 SW 1/4, Sec. 12, T. 41 S., R. 7 E., W. M., by William A. Otey, in which it is alleged that said William A. Otey has utterly failed in respect to said entry to comply with the public land laws of the United States and the rules and regulations established thereunder with reference to establishing and maintaining residence upon said land; that he did not establish a residence in a house on said land within six months from date of entry; that he has never resided continuously, or at all, upon said tract of land; that he has never cultivated or improved the same, and that his only pretense of complying with the homestead laws was to erect a box house thereon and a small log stable, and immediately thereafter said homestead entryman left said premises and engaged in business in Klamath Falls, Oregon, and that he also leased and farmed a tract of land belonging to his father, G. W. Otey, who resides in Siskiyou County, Calif., where said tract of land so leased was located, and that for the past year, and for more than a year immediately preceding his making final proof on said homestead entry, the contestee was engaged in the business of conducting a saloon in Siskiyou County, Calif., at a place commonly known as "the hold in the ground." That said contestee submitted his final proof on said tract of land on or about the 22nd day of April, 1908, but that no patent has issued thereon. That the only pretense of cultivating said land by the said contestee, or anyone in his behalf, was the ploughing of about half an acre, which said ploughing was done just prior to the date of submitting final proof; that he never cultivated said land, or any portion of the same, to crop, or made any pretense of ever cultivating said land other than the ploughing herein mentioned; that for more than a year prior to submitting his final proof on said entry, the said contestee had completely abandoned said land and made his home elsewhere, except for the visit made to said tract of land at the time of ploughing, as herein set forth; that his alleged absence from said land was not due to his employment in the Army, Navy or Marine Corps of the United States as a private soldier, officer, seaman or marine, during the war with Spain or during any other war in which the United States may be engaged, and that said parties are hereby notified to appear, respond and offer evidence touching said allegations at 10 o'clock a. m., on May 21, 1909, before R. M. Richardson, U. S. Commissioner, at Klamath Falls, Oregon, and that final hearing will be held at 10 o'clock a. m., on June 9, 1909, before the Register and Receiver at the United States Land Office at Lakeview, Oregon.

J. N. WATSON, Register.

The said contestant having, in a proper affidavit, filed March 15, 1909, set forth facts which show that after due diligence personal ser-

vice of this notice cannot be made, it is hereby ordered and directed that such notice be given by due and proper publication.

J. N. WATSON, Register.
