### TAFT ANXIOUS TO VISIT THE COAST

Will Be First President of the United States To Go To Alaska.

WASHINGTON, April 17.—President Taft will visit Alaska if he goes to the Pacific Coast this summer, according to an announcement made today at the White House. According to his present plans the President will start from Washington soon after August 1st and will tour the coast from Alaska to lower California, returning east via Arizona, New Mexico, Texas and Louisiana. Before making his trip he will go to his "summer capital" at Beverly, Mass., where he will spend June and July.

Railroad officials were today requested to estimate the cost of the President's western trip. It was stated this morning that from rough estimates, the first trip would probably cost about \$17,000. The extent of Taft's western trip is contingent upon a congressional appropriation of \$25,000.

He will be obliged to go to heavy expense, as he will have to have special trains, secretaries, stenographers and guards.

If Mr. Taft visits Alaska he will be the first President to make the trip. He will be accompanied by Mrs. Taft throughout the tour.

According to his plans, the President will visit the Seattle Exposition, the National Irrigation Congress at Spokane, the Trans-Mississippi Congress at Denver and the G. A. R. Convention at Salt Lake.

### 5000 CHRISTIANS SLAIN.

CONSTANTINOPLE, April 20.—No fewer than five thousand persons lost their lives in the massacres that have been going on in the vilayet of Adana during the last few days as a result of the outbreak of Moslem fanaticism.

Of this total, 2000 were killed in the city of Adana, more than 200 of the victims being Moslems. This information was received in Constantinople today through consular channels.

Adana at present is quiet, but there have been renewed attacks on Christians at Marash in the vilayet of Aleppo, about 80 miles northeast of Alexandretta.

The consular advices describe the situation as extremely precarious. The excitement is intense, although the presence of the British cruiser Diana at that port is expected to have a tranquilizing effect. Disturbances are reported from Hadjim in northern extremity of the Adana vilayet, where a large Armenian community is counted upon to defend itself vigorously.

Moslem fanaticism has broken out in the immediate vicinity of Alexandretta, and great excitement prevails in that district.

Houses in flames can be seen from the streets of Alexandretta.

### DR. GIBSON IS NOW ACCUSED OF INSANITY

ALTURAS, April 21.—Dr. A. Gibson, who is under bonds for appearance at trial on the charge of shooting George Elliott, returned to Alturas recently after an absence of some time. After being home a few days he began to imbibe heavily of intoxicating liquors. Becoming dangerous, the doctor was again placed under arrest, charged with being insane. Dr. Gibson's case is a sad one. He is recognized as a physician of splendid ability and has been a useful citizen in this community, but it seems that he is losing his mind through excessive use of strong drink. A move is on foot to get the doctor to some sanitarium, where he may be treated and cured, if possible, of the appetite for liquor.

Dry Martini cocktails, Turkish cigarettes and Benedictine do not appeal to a large part of the traveling public when they are served with meals on dining cars. As a result, the table d'ote which has raged for some time among the railroads between Chicago and the Twin Cities and between Chicago and Kansas City has come to an end. The war started as a measure of competition to attract business, but, according to the general passenger agents, it was a dismal failure. Temperance advocates complained that the railroads were tempting people to drink.

What would happen to the Panama canal, asks one critic, if airships should attack it with dynamite? That looks like borrowing trouble. Of course people are inquiring what will happen when both sides engaged in warfare use airships with dynamite, and nobody has answered the question. It seems that something must be left for posterity to settle.

### TO WIDEN NARROW GAUGE.

RENO, Nev., April 20.—A special dispatch to this city states that Engineer Robert J. Griffin, of the Southern Pacific company, and a corps of surveyors are at a camp known as Sunland, in Southern Nevada, and that they are working on a survey for the widening of the narrow gauge line from Mina to Keeler. This will give the Southern Pacific direct communication over a broad gauge line into Southern Nevada from Los Angeles, and will also act as a part of the line to be built from Southern California through Nevada via Reno and Alturas to Klamath Falls, Oregon, and thence to Portland. The preliminary survey for this line north of Reno has been completed, and Engineer E. E. Cooper and a party of twenty men have started on the final location survey, having left Wadsworth a few days ago for a camp on Pyramid Lake.

Oregon's last Legislature did not give a penny to the improvement of the roads of this state, and that lack just puts the commonwealth two years further behind and puts a corresponding setback in the automobile industry of the state. The motorists of Portland hope to be organized sufficiently to get something from the next Legislature, and to that end an Oregon State Automobile Association is planned, to which it is hoped to have all the owners in the state belong, for the sum of \$2 initiation fee and 25 cents a month dues.

Mr. Hearst and the Independence League have come to the parting of the ways. The funny little imitation of a political party and the paper which assumed to be running it as well as saving its bills are now arrayed against each other over the question of recalling mayor Taylor of San Francisco. The Examiner has lambasted its undutiful child in a glum editorial, and the chairman of the county committee of the doodle dees is telling what he thinks of the Examiner.

Prince George apparently was not giving up as much as some people imagined when he renounced his claim to the Serbian throne. When it comes to a choice between leaving in the daylight, and like a hero, and leaving at night and unlike a hero, it is a rather difficult matter after after all to go wrong.

A Houston (Tex.) magistrate fined three men who rudely interfered when a young man and a maiden were kissing each other good night. If the fine was a good, stiff one it served them right. In such cases "butting in" is a misdemeanor scarcely distinguishable from a crime.

In the liberality extended to men of other parties and men of unknown party activity by republican executives, national and state, it is no surprise party papers are asking why in the world they should not do just the same thing, and be of more open minds as to things political?

It is almost as difficult for a man who has been President to become a private citizen as it is for a private citizen to become President, as witness the elaborate plans made by the Naples police to guard Citizen Roosevelt during his short stay in that city.

Organization on a business basis is the watchword of the members of the state Editorial Association, now in session in Portland, and an organizer is to be placed in the field immediately to bring the managers of the county papers into the fold with as little delay as possible.

The best way to cultivate an appetite is to cultivate a field, and then you will have both an appetite and the wherewithal to appease it.
