### WORKING ON LAKEVIEW ROAD. AGUINALDO WILL VISIT UNITED STATES

County Judge Griffith, who has returned from the upper country, where he was inspecting the road work, stated that the improvement of the Klamath Falls-Lakeview road was progressing nicely. County and Superintendent Phillips has a crew working on the Klamath road between Yonka Valley and Sprague River. The men camp at convenient points along the road, so that there will be no time lost in going to and from work. There is probably the most work on this piece of road, and Mr. Phillips is rushing things as fast as he can.

Commissioner Walker has another crew working on the road through the Devil's Garden. This is mostly rock work and takes considerable blasting. There is quite a number of small bridges that will have to be reconstructed, and the lumber has already been cut and is ready to be used. A crew of men are repairing the Bonanza road, and another crew is at work on the Dairy road. This will allow the teamsters the privilege of hauling over whichever road they wish. It is expected that the improvements on the road between here and the Lake county line will be completed before the last of May.

Reports from Lake county are to the effect that the work is well under way on that end. Sheriff Barnes, who returned a few days since from Lakeview, reports that Judge Daly has his road men at work on the road in readiness before the first of June. The sheep men are anxious to begin shipping their wool by June first, and they are planning to have it shipped via Klamath Falls.

### WOMEN OF WOODCRAFT.

One of the most enjoyable evenings in the history of the Women of Woodcraft was spent in the hall Friday eve. At the appointed hour 50 or 60 members met in special session for initiation work. Twenty-seven candidates were in waiting to be initiated into the mysteries of the lodge.

After the meeting adjourned all spent a pleasant hour socially. A contest was given, in which Mrs. F. M. White won first prize; Miss Fannie Virgil second, and Mrs. Noel third. The prizes awarded were wreaths of apple blossoms, dandelions and sage brush, all collected in the W. of W. forest. The three crowned queens of the evening were seated in the middle of the room, while a brisk rag time was being rendered. All joined in the campfire dance around them. This was broken by the announcement that a delicious midnight lunch was in waiting for all.

The W. of W. lodge now has about one hundred members, and more coming in at each meeting, so they are expecting great things this summer.

Judge Baldwin, one of the stockholders in the cemetery company, states that arrangements have been made to erect a new fence around the cemetery grounds. The property will be fenced with woven wire fence, and the material has already been ordered and is expected to arrive in a short time.

Chas. Horton has returned from Silver Lake, where he purchased between 400 and 500 head of cows. Most of these cattle will be ranged on the Reservation lands. He also purchased a number from Bonanza people. Mr. Horton reports that steers are not very plentiful, and that the cattle men have to be satisfied with the cows.

MANILA, P. I., May 4.—According to reports from the Province of Cavite, Sr. Aguinaldo, once president of the Philippine Republic, will pay a long-contemplated visit to the United States during the coming summer. Since emerging from compulsory protection of the Federal Government on July 4, 1901, Aguinaldo has been a close resident on his hacienda, about fifteen miles from the naval station of Cavite.

His interest in local politics has not been especially marked, and his life has been one of quietness and rural retirement. For several years back Aguinaldo has devoted considerable study to American politics and has expressed himself as desirous of making an extended visit to the United States.

It is now stated that the trans-Pacific voyage will be undertaken about the beginning of the heated season, which indicates that a start will be made early in July. The Alaska-Yukon-Pacific Exposition is given as the principal object of the visit, and Seattle will be the city at which his landing on American soil is made.

While in the United States, the journey will lead the ex-president and his party over the greater part of the country, and when in the city of Washington, President Taft and Admiral Dewey will be given an opportunity for renewal of acquaintanceship made in 1898 and 1900.

### TRADING GIRLS FOR HORSES AND RIFLES

TARSUS, Asiatic Africa, May 4.—Young Turks around Tarsus are today trading Armenian girls for horses and modern repeating rifles. The entire ten days seem to have been an insensate orgie of lust and violence in the name of race and religion.

In the massacres of fourteen years ago there was no such desire to kill women and children as has been evidenced in the last ten days.

There have been numerous instances of the murdering of women and children with deliberation, and there are other instances where women were brought out one by one and shot down, the bystanders clapping their hands at each fresh execution.

### AIRSHIP LINE FOR GERMANY PLANNED

STUTTGART, May 4.—At a meeting of the Wurttemberg Aerial Navy League a representative of Count Zeppelin declared the company formed in connection with the Zeppelin Airship Construction Company had undertaken to establish a regular line of airships from Lucerne or Friedrichshafen to North Germany via Frankfurt on the Main. The actual route to be adopted will depend on the offers of landing places made by cities on the line. It is hoped to open the line for traffic next year.

### EXODUS OF WOMEN IN ABDUL HAMID'S HAREM

CONSTANTINOPLE, May 4.—Since the deposition of Abdul Hamid there has been a daily exodus of the women of the Imperial harem from the Yildiz Kiosk. Yesterday forty-five carriages, each containing two or three women left the city and today fifteen more were seen proceeding to Stamboul. It is evident that the total number of fair prisoners in the palace must have been prodigious. Palaces have been set apart for their accommodation, but in the present condition of the country their fate is uncertain.

### CITY BRIEFS.

G. W. Copeland and Bea Abbelosa were in the city this week from their homes in Lorelia.

J. W. Gillogly left Tuesday morning for Sacramento and the coast cities on marsh land business.

It only takes a little money to make several hundred dollars if you buy lot in Midland. See Campbell.

J. F. Kimball has returned from Pokegama, where he has been looking after the interests of the Weyerhaeuser Company.

Mrs. C. H. Underwood left Wednesday for a visit with relatives at her former home at Independence, near Albany, Oregon.

Mr. and Mrs. W. P. Rhoads were in the city from Merrill Monday, making legal arrangements for the adoption of the Eaton child.

It only requires a few dollars invested in Midland to insure a profit of several hundred dollars within a year or two.

The boat Curlew started last Wednesday on regular service between this city and Fort Klamath. The bus leaves at 7:45, and the boat will leave the landing at 8:30, going to Agency landing via Odessa. The stage will connect with the boat at Agency landing for Fort Klamath.

### NEEDED THE BRUSH.

The Finishing Touch to Eli Whitney's Cotton Gin.

Eli Whitney, who so long vexed his soul over his first and mightiest invention, the cotton gin, was aided in his success by the quick wit and insight of a woman. In "Old Paths and Legends of the New England Border" Miss Katherine M. Abbott gives the story, as told by a granddaughter of General Nathaniel Greene, of the consummation of Whitney's experiment at the beautiful and hospitable Dungeness, on Cumberland island, canopied with live oaks and olive trees.

Mrs. Greene had become interested in Mr. Whitney's enterprise and invited him to spend the winter at Dungeness, "where an abundance of cotton and quiet were assured."

One morning he descended headlong into the drawing room from his workshop in the fifth story and exclaimed: "The victory is mine!" In deep sympathy guests and hostess went with him to see the model in motion by which Whitney was to change the industrial history of the world.

For a few moments the miniature saws revolved without hindrance, and the separation of the seed from the cotton wool was successfully accomplished, but after a little the saws clogged with lint, the wheel stopped and poor Whitney was in despair.

"Here's what you need!" exclaimed Mrs. Greene. She seized a clothes-brush and held it firmly to the teeth of the saws.

"Madam," said Whitney, overcome with emotion and speaking with the exaggeration of gratitude, "you have perfected my invention."

Mrs. James Boyle pleads not guilty, but she will be called on later to explain where she got the money then.

### UPPER LAKE NOTES.

Upper lake water front is extremely lively at the present time.

The Hornet, Tartar and Eagle are in the sand trade.

The cruiser Curlew and steamer Winema are at present handling the freight and passengers.

Captain Hansberry's Shag will tow logs for the new mill, while the Mazama and North Star are still to be placed.

Tom Staten is putting the Red Rover in commission, so the people of Klamath county can look out for a 23-foot torpedo boat.

New ship ways will be built immediately at Buena Vista landing.

All planking will be completed on the North Star this week and the vessel will be launched as soon as calked.

In our last notes from the upper lake, Capt. John Totten and the Winema was unintentionally overlooked. This is not as it should be, for two reasons. It was not right to overlook as big a boat as the Winema, and it is not proper or safe to overlook as good a man as Capt. Totten, for while Capt. John will not allow anyone to get on the tall of his coat or spell his name with a little j, he is withal a pretty good fellow.

### COMMISSIONERS IN SESSION.

The County Commissioners opened the regular May session Wednesday with all of the officers present. There is a large amount of business before the Commissioners, and it is probable that they will be busy all the week. Besides the large number of bills to be audited, there are a number of road petitions which will have to be considered.

### RATE ON WOOL TO BOSTON.

T. A. K. Fassett, Southern Pacific agent in this city, has received advice from G. W. Luce, general freight agent, that as soon as the Southern Pacific reaches Klamath Falls, they would arrange to publish a rate of \$2.07 1/2 per hundred pounds on wool in grease from Klamath Falls to Boston, New York and common points, in carload lots, minimum weight 20,000 pounds.

This rate will put Klamath Falls in position to become the shipping point for wool from this and all of Lake county. In the latter county it is estimated that the annual export of wool exceeds one and one-half million pounds. The new rate from Klamath Falls is exactly the same as it is from Madeline. The present shipping point on the Nevada, California, Oregon road for Lake county is Alturas. This would make the shipments from that point higher than from Klamath Falls by the addition of the local rate from Alturas to Madeline.

When the present improvements on the Klamath Falls-Lakeview road are completed, there are no reasons why the entire shipments of both wool and mutton from Lake county should not go by Klamath Falls. The freight rates are favorable, and with a good road it is believed that considerable time can be saved. The money being spent on the Lakeview road is the best investment Klamath county could have made.

There are lots of people in the world who appear to have the brains of a mule. All they seem to be able to do is to eat, sleep and drink.
