

TO ISSUE SPECIAL STAMP FOR SEATTLE EXPOSITION

WASHINGTON, May 5.—Hon. A. L. Lawbe, Third Assistant Postmaster General, is sending out a notification to all postmasters and other postal employees throughout the country to the effect that the Post Office Department is now preparing a new postage stamp of special design which will be ready for issue about June 1 to commemorate the development of the Alaska-Yukon-Pacific territory.

The stamp will be rectangular in shape, 49-64 by 13-64 inches in size, and of 2 cent denomination only, color red. At the top and bottom are panels containing respectively the words "U. S. Postage" and "Two Cents"; in the center the larger part of a circle rests on the lower panel and encloses a ribbon bearing the words "Alaska-Yukon-Pacific, 1909," and in the center of the circle appears a portrait of William H. Seward who, as Secretary of State, conducted the negotiations for the purchase of Alaska from Russia. The name "William H. Seward" appears under the portrait. On either side is an ellipse containing the Arabic numeral 2, with laurel branches as a background. The new stamp will not be issued in book form.

LOVELL NEWS NOTES.

Drew Campbell is staying with his grandmother, Mrs. Dave Campbell, while his mother is in Sacramento.

Mr. Anderson, who purchased the Cline property, is plowing up sage brush.

Mrs. Clarence Hunt was visiting Mrs. Anderson Saturday.

Mr. Reive of the Falls is now visiting Mrs. Bunnell.

Mr. Bunnell took a load of grain to the Falls Saturday.

Mrs. Rene and Mrs. Bunnell visited Mrs. Booth Tuesday.

GOVERNORS PLAN MEETING.

Executives of Northwestern States to Hold Convention.

Governor M. E. Hay of Washington has written Governor Benson suggesting a conference of the Governors, Senators and Representatives of Montana, Idaho, Utah, Arizona, California, Oregon, Nevada and Washington for the consideration of a tentative alliance for the purpose of promoting the best interests of the Northwest in matters where concerted action would be more effective than individual effort. Governor Benson has signified his intention of attending the conference, which, it is understood, will be held at Seattle, Spokane, Salt Lake or Denver during the summer.

ODESSA MAIL VIA ASHLAND.

On June 1st a tri-weekly mail service will commence between Ashland and Odessa on Pollock Bay. This service will continue during the summer. Efforts have been made in the past to get the Department to establish a service between Klamath Falls and Odessa, but it is said that the bids for carrying the mail have been too high. During the winter months the mail for Pollock Bay points has been sent to this city and was delivered at irregular periods to parties from those points who called for it. During the summer months letters that are put in the office here have to be sent to Ashland and from there delivered by stage to Odessa. This is the condition even when boats are making daily trips to all points on the upper lake.

The attention of the Chamber of Commerce has been drawn to the matter and some action will be taken at the meeting of the directors tonight. Postmaster Emmitt will also recommend to the Department that service be established between here and Odessa. There is at the present time daily boat service on the upper lake and the mail could be carried at a very small expense.

This is a matter that will have to be called to the attention of the Postoffice Department at once, as it is necessary that they should know the conditions here before the service is inaugurated from Ashland. This condition may have all right five or ten years ago, but it is ridiculous today with ten or fifteen good boats running on the big lake. A permanent postoffice should be established on the upper lake with daily delivery from Klamath Falls. There are enough residents in that locality to justify it, not considering the thousands of tourists who would be accommodated during the summer and fall.

HAVE QUARREL ABOUT RANGER STATIONS.

WASHINGTON, May 5.—Clashing over the best policy to be pursued in the conduct of the general land office, Secretary Ballinger of the Interior Department and Secretary Wilson of the Department of Agriculture have declared war and finally placed their differences in the hands of President Taft for settlement.

The trouble arose when Chief Forester Pinchot had Wilson request that certain lands in the West be withdrawn from all forms of entry and used as stations for the rangers who patrol the national forests. Heretofore such requests have been granted without question, and Wilson and Pinchot were dumbfounded when Secretary Ballinger sent the word that the law did not permit such action and that he must decline to make the withdrawal.

Secretary Wilson appealed to President Taft. The President sent word to both Secretaries to prepare statements of their contentions. As soon as these are prepared, the President will take the matter under consideration.

The Swedish building at the Alaska-Yukon-Pacific Exposition, one of the handsome and classical structures at the Seattle fair, is ready for exhibits.

More than \$400,000 of Seattle capital has already been invested in attractions for the Pay Streak at the Alaska-Yukon-Pacific Exposition.

Every building on the grounds of the Alaska-Yukon-Pacific Exposition at Seattle is ready to receive exhibits.

Edison D. Fuller, known to his playmates as "Babe," who lives at Columbia, a suburb of Seattle, is believed to be the largest boy for his age in the Northwest, being 10½ years old and weighing 290 pounds. He is five feet, three inches high and has the strength of an ordinary man. Contrary to the general belief, he is not fat; his flesh is solid, and he handles his huge frame with considerable agility. In a tug-of-war contest with five playmates the other day he was the victor. "Babe" can lift 250 pounds, and has often picked up a sack weighing 100 pounds and carried it from the house to the barn. Physicians declare the boy is as fully developed as a man in the prime of life, but beyond this he is normal in energy. "Babe" has a brother who is six feet, 1½ inches in his stocking feet and weighs 225 pounds. Mr. Fuller appears small beside his son, weighing but 170 pounds. The boy's mother weighs 170 pounds.

Robert S. Taylor, the official reporter of the proceedings against the Harriman "merger," probably holds the world's record for long court record reporting, and if there is any "pot-hook" maker in the world who has taken down more important cases, his name is not generally known. It was Taylor who took down the testimony and other legal proceedings in connection with the Government suit against the Standard Oil Company, the record in this one case being more than 30,000 typewritten pages, or a total of 11,000,000 words. He took all this matter down and transcribed more than half of it himself. This record cost the Government more than \$20,000 to print, and the typewritten copy of the record made a solid pile more than seven feet high.

KLAMATH WATER USERS ASSOCIATION.

Annual Meeting of Stockholders. The stockholders of the Klamath Water Users Association are hereby notified that the annual meeting of the Association will be held in the Houston Opera House, Klamath Falls, Oregon, on Friday, June 4th, 1909, at the hour of 2 o'clock p. m. for the election of Directors and the transaction of such other business that may come before the meeting.
