The boatmen have had much high wind to contend with for the last two or three days, but no casualties are reported.
Steamers Hornet and Eagle arrived from up the lake to-day, the Hornet with a log raft for Long Lake Company, the Eagle with two barges of sand.

Work of driving the piling for the big box factory will begin to-morrow.
One of the handiest things about a farm is a canvas large enough to cover a load or stack of hay. Those who still stack all hay outside need one most. But there are many other uses for one, such as covering loads of grain that can not be unloaded before a shower, a protection for the binder on dewy nights, etc.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is cataract. Hall's Cataract Cure is the only positive cure now known to the medical fraternity. Cataract being a constitutional disease, requires a constitutional treatment. Hall's Cataract Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case it fails to cure. Send for list of testimonials.

A prize for elucidating the tariff would seem a better investment for \$10,000,000 than exchanging flashes with Mars.
