### EXTENSIVE IMPROVEMENTS ON THE RESERVATION

Preparations are being made for extensive improvements on the Klamath Indian Reservation this summer. The policy of improved educational advantages and better school facilities will be carried out, and this year will see between \$30,000 and \$35,000 expended for new buildings.

Another building will be erected at the Agency to take the place of the one burned last fall. This will be a combination school building, chapel and library. The length of the building will be 100 feet and it will average about 70 feet wide. The estimated cost of this structure is \$12,000. A large gymnasium, 30x80, is also to be built at a cost of \$8,000.

Early in June work will commence on three day schools on the reservation which will cost about \$4,000 each. One of the new buildings is to be located in the Cowumkan district on Sprague river; the second, near the eastern branch of Spring creek, and the third at Pinto camp on the Seian river.

The Klamath Reservation covers such a vast amount of territory that Superintendent Wilson has strongly recommended more schools located in the populated sections, in order to accommodate those living at a distance from the Agency and Yalmx and enable the children an opportunity for a more liberal education. With the many improvements made in the past few years and those contemplated, the Klamath Reservation is fast becoming one of the best equipped in the United States.

Besides the superior school facilities being provided for the Klamath Indians, the department is actively engaged in assisting the Indians in the cultivation of their lands by the most approved methods. Already engineers have made a complete survey for a comprehensive irrigation system, which will not only furnish water to the dry lands but will also drain the thousands of acres of swamp lands.

Work will commence in July on the drainage of the Klamath marsh, which comprises over 80,000 acres. The supplies, tents, scrapers and machinery have already been purchased and the first work to be undertaken will be to put in some test drainage ditches and if these carry off the water as expected work will begin on building the main ditches.

All this new work will give employment to the Indians, as no white men will be employed except as foremen or in special work where skilled labor is necessary.

### DIPLOMAS AWARDED.

The eighth grade work in the schools of Klamath county has been exceptionally well done during the past year. County Superintendent Swan on Saturday issued diplomas to the following persons as a result of the examinations on Thursday and Friday:

District No. 1—Theresa Yaden, Vera Crisler, Harden Carter, Fritz Markhart, Lester Biehn, Mary Woodward, Arthur Leavitt, Willie Brown.

District No. 2—Grant Nelson.

District No. 3—Myrtle Roberts.

District No. 4—Inez Ray.

District No. 5—Ella Martin.

District No. 6—Claude Loosley.

District No. 7—Grace Graybael.

District No. 8—Edward Flaekus.

District No. 9—Elva Turnage.

This makes sixty-eight eighth grade diplomas issued this spring. There were eighty applicants. There will likely be several more diplomas issued when the papers are all in.

The highest average grade was made by Mr. Earnest Nail of District No. 13, Yonna school. His grade was 96.1-3. Miss Jennie Applegate of the Klamath Falls school stood second, with an average of 94.7-9.

### ONE COMFORT.

Dick was a very clean little boy, and dirt disgusted him. One day he found a poor little starved kitten crouching in a ditch at the roadside and he brought the wet, muddy little walf home with him.

He took it to the hydrant and carefully rinsed off all the mud, but the shock was too great for the sick kitty and the breath of life departed.

Dick brought her to his mother, who exclaimed at the sight of the wet, drooping kitten, "Why, Dick, what have you done?"

"She was all mud, and I washed her," Dick replied. "Oh, Dick," his mother said sorrowfully, "I'm afraid she's dead." Dick looked shocked and grieved for a moment, then his face lighted up with a gleam of comfort as he exclaimed:

"Well, she died clean, anyway."

There's no great rush to take the mosquito bite cure for rheumatism.

### "WANTED—A MAN."

Writing in Success Magazine, Orion Sweet Marden says:

"Never before was the opportunity of the educated man so great as today. Never before was there such a demand for the trained man, the man who can do a thing superbly well. At the door of every vocation is a sign out, 'Wanted—A man.'"

No matter how many millions are out of employment, the whole world is hunting for a man who can do things—a trained thinker who can do whatever he undertakes a little better than it has ever before been done. Everywhere it is the educated man, the man whose natural ability has been enlarged, enhanced one hundredfold by superior training, that is wanted.

On all sides we see men with small minds, but well trained, pushing ahead of those who have greater capabilities, but are only half trained. A one-talent man, superbly trained, often gets the place when a man with many untrained or half trained talents loses it. Never was ignorance placed at such a disadvantage as today.

While the opportunities awaiting the educated man, the college graduate, on his entrance into practical life were never before so great and so numerous as to-day, so also the dangers and temptations which beset him were never before so great, so numerous and so insidious.

There is nothing else, perhaps, which the graduate needs to be cautioned against more than the money madness which has seized the American people, for nothing else is more fatal to the development of the higher, finer instincts and nobler desires."

### HOW WILL YOU HAVE YOUR EGGS?

The above question does not refer to the manner of preparation—how long they shall be boiled or upon how many sides they shall be fried. It means, what flavor of egg do you like. Will you have lemon eggs or do you prefer chocolate with perhaps just a dash of vanilla?

No less an egg specialist than the United States Department of Agriculture has recently declared that the flavor or odor of an egg may be gently influenced by the feed of the hen. Its latest egg bulletin states that hens fed on onion tops and garlic acquired the habit of laying eggs with a decided flavor of these vegetables.

Is there any reason to doubt that a good-natured hen might be induced to eat any kind of flavoring matter that fastidious man might like in his omelette? Isn't it just possible that hens of a convivial disposition might lay a species of ready-made eggnog that would find a ready market in our "dry" communities?

Or if hens could only be taught to love Easter-egg dyes—but perhaps it would be just as well not to confuse the humble fowl by starting too many things at once.

### BE SURE YOU ARE RIGHT.

"Bill had charge of the animal tent," said Mr. Ringling, "and among his pets was a leopard. This leopard gave Bill more trouble than all the rest of the menagerie put together."

"One day when I had left the show on some advance business, a telegram was handed to me. It was from Bill and read: 'The leopard has escaped. What shall I do?'

"That was just like Bill. He didn't want to make a mistake. 'I immediately wired back to Bill: 'Shoot him on the spot.' Two hours later I received another telegram from conscientious, careful Bill: 'Which spot?'

### A BROAD DISCRIMINATION.

There is an elder of a certain church who thinks that things are only half done or not well started in which he has no voice. At a prayer meeting he offered thanks for the safe return of the minister and his wife. With proper dignity and in a loud voice he said: "O Lord, we thank Thee for bringing our pastor safe home, and his dear wife, too, O Lord, for Thou preservest man and beast."

### IT SHOCKED THEM.

Two small children, hearing older persons refer to the cat's tail as his ebenezer, came home from church one day very much chagrined, saying, "The choir sang a dreadful song, but we did not take any part." On being questioned it was found they had sung that good old hymn, "Here I'll raise mine Ebenezer."

### NOT LIKE PAPA.

A bright little fellow was taken to a barber shop for the first time to have his hair cut, and as the barber was in a distant part of the shop for a few moments the small customer said in lowered tones to his father:

"Papa, you must tell the man that I am not to be shaved."

### AND SO IT DOES.

My little girl in the early stages of her education asked me what a, e, i, o and u were. I told her they were called "vowels." With a look of astonishment, she replied: "Mother, I think they should be called stomachs; hat other word sounds vulgar."

### REDMEN WIN BALL GAME.

The ball game Sunday between Bonanza and the Redmen resulted in a score of 4 to 0 in favor of the latter team.

The ladies of the Presbyterian church have made arrangements to serve ice cream and cake on Railroad day, June 14th. Watch for further announcements.

W. B. BARNES, Sheriff of Klamath County, Oregon.

Nyal's Vegetable Prescription is indicated in all ordinary diseases of women. This remedy never disappoints, its good effects being perceptible from the very first. It is composed of the purest and the most reliable drugs; mercury, opium and other harmful drugs being excluded. The many disconcerting influences to which woman is constantly subjected render her liable to many functional disorders that not only tend to destroy her comfort and happiness, but which gradually merge into chronic and serious diseases.

Nyal's Vegetable Prescription is without a peer for the successful treatment of female weakness, painful and disordered menstruation, hysteria, cramps, "bearing down pains," inflammation and falling of the womb. This is a remedy of sterling worth.
