One Block West of Public School

IS THE ASSOCIATION A LEGAL ORGANIZATION?

Is the Klamath Water Users' association a legal organization insofar as it relates to the Reclamation Service? Have the contracts executed between it and the Reclamation Service any binding force? Must all of the work be done over again and contracts executed directly between the Reclamation Service and each individual?

These, and many other questions of a similar nature, are being asked since the public announcement has been made that Secretary Ballinger is reported to have said that the water users' associations have no legal standing, that he did not approve of them; that as a result of this stretching the Reclamation Act and other legal irregularities, he was going to drop the head of the Reclamation Service attorney, Biehn, into the basket and place at the head of the legal department of this branch of the government service a man who would construe the law as it is and not as he thinks it ought to be.

One attorney stated to-day that he has never believed that the Klamath Project was legally inaugurated, and that if it were taken into court that the contentions of Mr. Ballinger and others would be sustained. But there is no likelihood of such a step being taken, at least so far as the Klamath Project is concerned. However, if it is found that there is no foundation in fact for the creation of the water association, then what effect will any future agreements have? Will any arrangements made by the committee now in conference with the service engineers be binding, and will any contracts entered into between the service and the association be legal? If not, then why not ascertain at once what the Secretary of the Interior is going to do about it, and what course should be followed in order to comply with the conditions laid down by the government? These are more questions that are asked, in connection with the others.

If the public announcement that has been made, to the effect that there is going to be a thorough reorganization of the Reclamation Service and that Newell and Biehn must go, then it is not unlikely that the water users' associations will have to go with them, for they are creatures of these gentlemen. Secretary Ballinger is now in the West for the purpose of making a thorough investigation of conditions prevailing in the various projects, and in the course of his travels will undoubtedly reach this city. There has already been some talk of beginning at once to shape affairs here in such a way as to properly bring them to the attention of the Secretary. Those who have discussed such a move state that it is not done for the purpose of criticising the present local head of the service. Mr. Patch is splendidly qualified for the work he has in hand. The move is really made for the purpose of protecting him from the errors of the past. The various facts relative to the estimated cost, the promises that have been made, the increased cost due to alleged mismanagement and specific instances of each of these will be concisely arranged and indexed and presented to the Secretary. In this way it is believed that a strong argument will be placed in the hands of those who are desirous of rushing this project to completion.

One thing that is certain, there will be no disposition manifested to antagonize the government or place any obstacles in the path of rushing work, for it is fully realized that every day's delay will add to the cost, and this is one of the very things that everyone is most anxious to avoid.

COUNTY EXCHANGES.

(Bonanza Bulletin.)

Word was received from Fortuna, Humboldt county, Cal., of an accident which befell Tom Godfrey there last week. It seems that in some way something went wrong with his Stanley steamer and it could not be handled. It went off down a grade and upset. Tom picked himself up and had quite a time getting back to Fortuna, where he was laid up for a week or so with his injuries. His friends here are sorry to hear of his misfortune. The machine was almost a total wreck.

Married, at Klamath Falls, Ore., on Friday, July 2, 1909, in the courthouse, Mr. S. H. Hubbard of Bonanza and Miss Maggie Leake, formerly of Gold Hill, Judge Griffith officiating. The happy couple returned to Bonanza Friday evening and many expressed their congratulations to the newly-wedded pair. While others who were confident that the couple were going to be married were waiting until Sunday before approaching them with their congratulations, but were agreeably surprised to find that on asking Mr. Hubbard why he did not get married on the day set, was told that he wanted to fool them.

TARIFF BILL TO GO TO CONFERENCE COMMITTEE.

End of Farce Almost in Sight—Members of the Committee.

WASHINGTON, July 7.—With the Senate rapidly approaching the day of final consideration of the tariff bill, attention is being given to the selection of conferees on the part of the Senate and House, whose duty it will be to attempt to bring the two bodies into an agreement on the measure.

Gossip has it that Aldrich will pick, besides himself, as representative of the Republicans in the Senate, Hale of Maine, Penrose of Pennsylvania, Burrows of Michigan and Smoot of Utah.

The Democratic senators who will participate in the conference will probably be Daniel of Virginia, Money of Mississippi and Bailey of Texas. In the House Speaker Cannon, according to reports, will probably select Payne of New York, Dalzell of Pennsylvania, Boutell of Illinois, McCall of Massachusetts, and either Needham of California or Calderhead of Kansas as Republican members, and Champ Clark of Missouri, Underwood of Alabama and Griggs of Georgia as Democratic members.

BUTTER AT HIGHEST POINT IN FIVE YEARS.

Butter prices were pushed up a cent and a half a pound, to 28 cents, in the local wholesale market to-day, the highest point reached at this period of the season in five years, and there is no assurance that the cost of this commodity will not be raised again before the end of the month.

The advance at this time is attributed by the buttermakers to the failure earlier than usual of the pasturage in the dairying districts. As a result of the exceptionally light rainfall in May and June this year, they say the grass dried up at least two weeks sooner than usual, and the cream supply naturally fell off in a serious way. At the same time the demand is as strong as during the flush season of production, and consumption if of course greater than in former years by reason of increase in population.

Some of the buttermakers hold that the output for the State this year will be little if any greater than that of last season. At this time a year ago standard city creamery butter was selling at 25 cents a pound. Two years ago the price was 27 1/2 cents. At this time in 1905 and 1906 it was going to 21 1/2 cents a pound, 6 1/2 cents under the present price.

The trend of butter prices is always upward at this time of year, but this season the conditions that make for higher prices are a little more marked than usual.—Portland Telegram.

UPPER LAKE NOTES.

The little yacht Ivanhoe has been purchased by parties at Wilson's Rocky Point resort and will henceforth cruise about Pelican Bay and Agency Lake.

A small tumbler of gold dust is in itself not of great value, but when it is said to have been washed out of the dirt near the lake shore, not two miles from town, it looks good.

The present owners of the steamer Eagle will soon lay the boat up while the captain and crew build a new sand barge. The barge will be 20x59 feet. The lumber for its construction will arrive from Portland in a few days.

The Herald force made a pleasant visit to St. Cloud Sunday and were royally entertained by the Commodore, and in addition to the genial hospitality of that gentleman, were rewarded by a magnificent view of the Upper Lake.

It is reported that a resort of some kind will be built on Bare Island. There is plenty of hot water on the island, and a little hot air would surely be expected even if the report is true.

LURED BY DEATH MESSAGE; MURDERED.

TACOMA, Wash., July 9.—Deputy Sheriff H. J. Doten left this morning for Wilkeson to investigate the killing of Mrs. Louis Bronzo, the wife of a timberman in the employ of the Wilkeson Coal and Coke company. About midnight last night an unidentified man came to the cottage in which the woman lived with her husband and told her that her brother, who lived at Black Diamond, several miles away, had suddenly died. Together the pair departed for the latter place, and when about half a mile away, the woman was brutally murdered by having her skull crushed with cobblestones. Mrs. Bronzo had \$600 in the house and so far as can be learned, no one knew of this but her husband and her brother. The money is missing.

Have E. W. Muller add an attachment to your photograph so you may enjoy the new 4-minute Amberol records. 12-17

REPORT OF THE CONDITION OF

THE FIRST TRUST AND SAVINGS BANK

at Klamath Falls, in the State of Oregon, at the close of business, June 23, 1909.

Summer Rates East

During the Season of 1909

via the

Southern Pacific Co.

from

ASHLAND

To OMAHA and Return - - \$70.30
To KANSAS CITY and Return, \$70.30
To ST. LOUIS and Return - - \$77.80
To CHICAGO and Return - - \$82.80

and to other principal cities in the East, Middle West and South Correspondingly low fares.

On Sale May 17, June 2, 3; July 2, 3; August 11, 12

To DENVER and Return, \$65.30
On Sale May 17, July 1, August 11

Going transit limit 10 days from date of sale, final return limit October 31st.

These tickets present some very attractive features in the way of stopover privileges, and choice of routes; thereby enabling passengers to make side trips to many interesting points en route.

Routing on the return trip through California may be had at a slight advance over the rates quoted.

Full particulars, sleeping car reservations and tickets will furnished by any Southern Pacific local agent, or

WM. McMURRAY, General Passenger Agent, Portland, Oregon.

A MOVING PICTURE OF OREGON.

Moving pictures taken from the cowcatcher of an engine, showing the scenery of the Rogue River valley, Cow Creek canyon, Umpqua river, the Willamette valley and other scenic regions traversed by the Southern Pacific, are being taken this week by the passenger department of the Harriman lines. It is planned to operate a special train between Ashland and Portland with a picture-taking machine secured to the pilot of a locomotive and the principal scenes along the route will be taken. The trip will occupy three or four days. The pictures will be shown at Seattle and then be taken East on an advertising campaign planned by the road.

L. B. Gordon and N. A. McCurdie of Lakeview, Oregon, also David Campbell and Bert O'Brien of this city, took their examinations to become licensed barbers before James Swansen, deputy State Board of Barber Examiners Monday, assisted by Jesse Turner and D. L. Crow.

SELLS HIS INTEREST IN

THE LAUNCH CURLEW.

J. L. Martin Becomes Part Owner of the Upper Lake Mail Boat.

W. H. Clark, who with W. A. Calkins, operated and owned the launch Curlew on the Upper Lake, has disposed of his half interest in the boat to J. L. Martin, the Fort Klamath stage man. Mr. Martin will be located in the city and will look after this end of the business. Captain Calkins will operate the launch and care for the comforts of the passengers. The captain has two ambitions—to make his passengers comfortable and to have the best chickens in the State. If you want to get him really interested, talk chickens to him, and he will drop everything except his attention to his boat, and he will come pretty near to doing that, too.

Mr. Clark will go to Bonanza, where he will again engage in the barbering business.

NYAL'S VEGETABLE

Prescription is indicated in all ordinary diseases of women. This remedy never disappoints, its good effects being perceptible from the very first. It is composed of the most reliable drugs: mercury, opium and other harmful drugs being excluded. The many disagreeing influences to which woman is constantly subjected render her liable to many functional disorders that not only tend to destroy her comfort and happiness, but which gradually merge into chronic and serious diseases.

Nyal's Vegetable Prescription is without a peer for the successful treatment of female weakness, painful and disordered menstruation, hysteria, cramps, "bearing down pains," inflammation and falling of the womb. This is a remedy of sterling worth.

WOODMEN AT SEATTLE.

SEATTLE, July 12.—Woodmen of the World day at the Alaska-Yukon-Pacific Exposition falls on August 4. The presence of L. I. Boak, head consul and associate head officers, indicates that unusual interest will be taken in the day at the fair.

While the program for the day is in the course of preparation, Seattle officers of the order promise that it will be a banner event in the history of the A.-Y.-P.

Exhibition drills, open to all teams of the Woodmen of the World, will be a feature of the day with substantial cash prizes as an inducement for the members of various teams to devote considerable time to practice.

The first prize will be \$300 and the second prize \$200. The team awarded the third prize will receive \$100 in cash.

In Seattle, where the Woodmen of the World is one of the strongest and most popular of fraternal organizations, great preparations are being made to entertain visitors from the outside.

Out at the exposition some unusual amusement and musical features will be offered. This, added to the program to be prepared by the Woodmen, will make the day one replete with new and interesting features.

CONGRESSMAN CUSHMAN DIES IN NEW YORK.

Sudden End to a Career That Promised a Brilliant Future.

NEW YORK, July 6.—Francis W. Cushman, representative in Congress from Tacoma, Wash., died at 5 o'clock this morning at the Roosevelt Hospital, of pneumonia. At his bedside, besides the doctors and nurses, were United States Senator Samuel H. Piles of Washington and Andrew S. Borlough of this city, a life-long friend.

Congressman Cushman underwent an operation a short time ago and pneumonia resulted.

CARTER—BEESON.

Mr. George Carter and Miss Anna Beeson, both of Medford, were married at the Methodist church in this city on June 30th, and will be at home to their many friends at their residence on Twelfth street after July 15th.

The wedding was a very pretty one, and about twenty guests were present at a wedding supper held after the ceremony at the residence of F. H. Carter.

Miss Beeson is very well known in Medford and has a large circle of friends. She was one of the most popular of the many June brides.

Mr. Carter is the manager of the Medford Ice and Cold Storage Company, and is one of Medford's rising business men.

The couple have a vast host of friends who join in congratulations and well wishes.—Medford Tribune.

Mrs. Carter has a host of friends in this city who will extend to her their best wishes. She was one of the popular and efficient teachers in the public school a year ago. Her sister, Mrs. Dunham, is a resident of this city.

MAIL ROUTE CHANGED.

With the order discontinuing the Ashland-Odessa mail route, which went into effect Monday, came another directing the transporting of the mail between this city, Odessa and Fort Klamath by boat. Contractor Yaden has made arrangements with the launch Curlew and J. H. Martin to handle the business for him. This contract will be in force for nine months of the year, after which it will likely be again transferred to Ashland. During this period the rural delivery route between this city and Fort Klamath will be discontinued. The mail has been going to Odessa and the Fort by boat for sometime, permission to do so having been granted by the government. Now that a contract has been let for the route and it is regularly established, the pony delivery service that has been maintained for a portion of the Fort route will be discontinued.

UNION PACIFIC TO SOW ALFALFA ALONG TRACKS.

Will Also Plant Trees—Will Be Protected Against Snowdrifts.

It is stated that the Union Pacific Railway is planning to plant its right-of-way from the Missouri river to the Pacific with alfalfa. At each edge of the right-of-way also will be planted a row of pine trees alternating with elms, there being a tree at intervals of every two rods. As the alfalfa becomes green early in the spring and remains so until late in the fall, the ornamental effect should be decidedly pleasing. Furthermore, it is claimed that the grass and trees will furnish, in certain localities, a decided protection against snowdrifts and washouts. It is stated that the Chicago, Milwaukee and St. Paul Railroad proposes to do similar planting and grassing between Ottumwa and Kansas City.

Klamath County headquarters in San Francisco is the Hotel Savoy, corner Van Ness Ave. and Ellis St. Walter E. Conner, Prop. Take "Turk and Eddy" street cars at Ferry, get off at Van Ness and walk one-half block north. 2-1817
