#### SCHOOLS OPEN

It was a merry and happy crowd of young folks that wended their way down Main street in answer to the call of the public school bell. Vacation was over, and while there was a sigh for the joyous days of the summer, it did not mar the happy greetings as each of the youngsters welcomed the other back to the playgrounds and recalled many of the events of past seasons.

The teachers had met Saturday, and they were all ready to welcome their young charges, and it required but a short time to start things moving. After the pupils were assigned and the classes arranged, the children were dismissed for the day with instructions to be on hand promptly at 9 o'clock in the morning, when the regular routine for the year would be taken up.

Following are the grades, number of pupils in each, and the teacher in charge:

Eighth, 35, Miss Drew.  
 Seventh, 25, Miss Adams.  
 Sixth, 30, Miss Applegate.  
 Fifth, 45, Miss Bell.  
 Fourth, 50, Miss Pitney and Miss Hannon.

Third, 30, Miss Daum.  
 Second, 40, Miss Campbell and Miss Nickerson.  
 First, 80, Miss Pool, Miss Foster, Miss Lehman.

Miss Pool and Miss Campbell will be located at the High School building. The total attendance on the opening day was 335.

Work at the high school was taken up this morning and 91 students were enrolled. The faculty will be practically the same as last year, with the addition of an instructor in physical culture.

County Commissioner Walker will begin this week on the repairing of the Klamath Falls and Silver Lake road. A new bridge will be constructed across the Slean river at the lower end of Slean valley. This will shorten the distance by the present route ten miles, and will enable the Silver Lake people to get their freight through this fall without any difficulty from this point. Next year a new road will be surveyed through to Silver Lake and put in first-class shape, says Commissioner Walker.

#### BOHEMIANS COMING IN

Are First-Class Citizens and Farmers of High Ability—Others Will Probably Follow.

The colonization of the Lakeside tract near Merrill by the settleme' thereon of about 160 Bohemians with their families has just been practically consummated by J. Frank Adams, manager of the foregoing company. Mr. Adams, when asked for a statement as to this matter, said:

"Arrangements have just been about completed for the colonization of the Lakeside tract by 160 Bohemians with their families. They come from Nebraska and adjoining States. A committee of Bohemians has been out here examining this tract and they have made a favorable report on it to their organization. The colony was to start from Omaha on the first of August, but their departure has been delayed until the 20th of this month. These people are said to be very industrious, honest, and good farmers, and a good many of them are already American citizens. The tract will be divided up in forty to eighty-acre tracts to suit them. The Lakeside tract consists of about 6,500 acres, and will be cultivated chiefly to alfalfa and grain. One-half of the tract is under irrigation and the balance comes under the government ditch."

This is just the commencement of a movement in the colonization line which will eventually settle this country up with small holdings, for which it is peculiarly adapted. We are glad to see Bohemians locate here, for they are considered good, honest, industrious people and make first-class citizens. They are also agriculturists of a high order, and when things are set right on the Lakeside tract we may look for some models in intense farming. J. Frank Adams, who engineered this deal, is one of Klamath county's best known citizens, and this is only one of the many things that he has done to promote the interests of this section.

#### TO KLAMATH PIONEERS

The committee appointed to draft a constitution and bylaws for the Pioneers' Association of the Klamath Basin completed its labors some time ago and left it at my discretion to call a meeting for its ratification.

Recognizing the fact that the harvest season was already upon us and that it would be difficult to get an attendance until after the summer's hurry work was over, the thought has occurred to me that as the directors of the Water Users' association have called for a meeting of the stockholders of that association on Friday afternoon, the 22d of October, that the next day—Saturday, the 23d of October—would be the most suitable time to call the pioneers to meet to ratify, reject or amend the articles submitted by your committee, and perfect the organization.

Therefore you are requested to meet at the county courthouse in Klamath Falls at 10 o'clock a. m. on Saturday, the 23d day of October, 1909.

All persons whose residence in the Klamath Basin dates prior to the end of the year 1889 are eligible to membership under the constitution so submitted, and such are requested to be present.

O. A. STEARNS,  
 Temporary President.

The first shipment of lambs from Klamath Falls station was made Tuesday, when 2,500 head, making Klamath Falls station will be made today when the 2,500 head, making about ten carloads, brought in by O. T. McKendree, are loaded out. Two more shipments of about the same size will be made by Mr. McKendree within the next twenty days.

A cow, valued at \$75, belonging to Fred Marquardt, fell into an open hot water ditch west of Lewis' garden Saturday. The cow was literally scalded to death before she could be extricated.

#### PORTLAND UNION STOCK YARDS

Will Be Open for Business by September 15th.

The opening of the Portland Union stock yards is an epoch in the live stock industry of the Pacific Northwest. The creation of a place of barter and sale, where there is every day in the year an active demand for all of the live stock offered, means much to the farmers and ranchers of this section of the United States. The nearest market of the class is at Denver. The establishment of live stock markets such as afforded by the Portland Union stock yards has added millions of dollars to the value of the live stock tributary to Chicago, Kansas City, Omaha, St. Joseph, St. Louis, Fort Worth and Denver, and history will repeat itself at Portland.

#### DISMISSED THE CASE

The case of the State of Oregon vs. Ed Jones for the larceny of a horse was tried before Justice of the Peace A. D. Miller Monday afternoon. On account of the conflicting evidence brought out by the searching cross-examination of one of the State's witnesses, Joseph Martin, by Attorney R. S. Smith, Judge Miller dismissed the case. In dismissing the case the court called the witness, Joseph Martin, up and unmercifully scored him, saying, among other things: "I believe that you have committed perjury, and if it were in the power of this court, I would bind you over to the Grand Jury and put you in jail."

#### BIG FIRE AT DORRIS

Entire Town Turns Out to Fight Fire and Strenuous Efforts Check Spread of the Flames.

The Hotel Picard in Dorris was destroyed by fire at 9 o'clock Tuesday. The fire was caused by a defective flue: The Hotel Picard is located behind the Hotel Bradburn, opposite the depot, and was owned by Mrs. Silvers, wife of Attorney Silvers of that place. Two or three hundred people turned out to fight the fire, and had it not been that the wind was blowing from the northeast the entire town would doubtless have been destroyed. As it was, great difficulty was encountered in checking it. A few household effects were saved from the hotel. There was no insurance on the hotel.
