

## PREMIUMS AWARDED

### AGRICULTURAL EXHIBIT

#### All Day Consumed in Judging the Display at the Portland Store.

W. S. Slough, B. E. Hayden and J. G. McCoy were engaged Saturday in awarding the premiums to be paid by the Portland Store for the best exhibit of Klamath county products, and are deserving of the thanks of the public for the enterprise they display in so cheerfully giving their time. The task of selecting the winners was no small one, for the display was far larger than anyone expected, and would have done credit to a county fair. In taking this step Mr. Sugarman has proven again his enterprise and his desire to see that proper recognition is accorded to the pioneers who are doing so much to make Klamath county the great attraction for the homeseeker and homebuilder. In judging the exhibits the committee based their decision on the ground that the article entered was in competition with the best in the country. As a result some second prizes were awarded where only one entry was made. This was due to the fact that while the exhibit was the best on display, it would not have been the best if entered in competition with products elsewhere.

## GETTING READY FOR BUSINESS

The Hot Springs and the Klamath Development companies are getting ready for an advertising campaign that will surpass anything of its kind ever undertaken by a corporation in the state. President Johnson and his assistant, W. S. Worden, have been busy for the past several months maturing plans for this work, and all the details of the campaign are nearing completion. These companies are determined to make things hum, and the fruits of the effort will be the bringing to this country hundreds of people who would otherwise not have come. While the benefits accruing to the men who spend the money will undoubtedly be sufficient to recompense them for the outlay, the greatest good will undoubtedly come to the city and county at large, for it is more than likely that a majority of those investing will not confine themselves entirely to the property owned by these corporations.

It is an opportunity for the boomer to get in his good work. There should be no knocking. Klamath Falls is going to grow, but the speed of that development depends more upon the people here than on any other agency. This is particularly true of the real estate men. Heretofore there has been a great deal of knocking done by some members of this fraternity, with the result that many substantial investors have been driven from the city. A real estate man who cannot speak a good word for the other fellow's property is not a business man, and ought not to be in the realty business. Every homeseeker or investor who remains here brings five others, and it is certain that if the real estate man loses out on one he will sell to some of the other five. It is as much the business of the real estate man to refute the lies that are told about this county and city and individual property as it is to sell realty, and it is only the man who is big enough and broad enough to realize this truth that will make a success of his chosen profession.

G. K. Van Riper returned Wednesday night from Bonanza, where he has been looking after his ranch and attending to the threshing of his crop. He reports a good grain yield in the upper country and says the lands of that section are fast coming to the front.

Col. Wilkins and family left Wednesday on the Winema to visit Pelican bay and other points of interest on the Upper lake.

## CENSUS CLERICAL FORCE

### The Civil Service Commission Wants Western People to Apply.

WASHINGTON, D. C., Oct. 11.—The United States Civil Service Commission announces that a very small proportion of the applications thus far filed for the examination to be held on October 23d for positions in the Census bureau, are from the residents of the more distant states.

As the census act provides for the apportionment of appointments among the states and territories in accordance with the law of apportionment, the commission calls attention to the fact that present indications are that these distant states will probably fail to receive their full share of the appointments, unless more residents of such states apply for the examination.

It is expected that about 3,000 appointments will be made for the examination which is scheduled to be held on October 23d, in all the states and territories. These appointments will be for terms of six months to two years, and will average about a year in length. The entrance salary will be \$600 per annum and promotion to at least \$900 per annum will be reasonably rapid for those who render satisfactory service.

Under the census law selections from the eligible register will be made in the order of rating and in accordance with the law of apportionment, so that all persons will have an equal chance of appointment.

Applicants must be between the age of 18 and 50 years, except that persons honorably discharged from the military or naval service, by reason of disability resulting from wounds or sickness incurred in the line of duty, may be examined without regard to age, and except that boys who have reached the age of 16 years and have not reached the age of 18 years, will be permitted to take the examination, and if they pass, will be eligible for appointment as messenger boys only.

It is understood that the Census bureau will make some appointments for this examination about January 1, 1910, but the majority of such appointments will be made between September and August, 1910.

Application forms and further information may be obtained by addressing the United States Civil Service Commission, Washington, D. C.; the Bureau of the Census, Washington, D. C.; or the secretary of the board of United States Civil Service Examiners at the following named places: Boston, Mass.; Philadelphia, Pa.; Atlanta, Ga.; Cincinnati, O.; Chicago, Ill.; St. Paul, Minn.; Denver, Colo.; San Francisco, Cal.; Customs House, N. Y.; New Orleans, La.; Old Customs House, St. Louis, Mo.

## CORVALLIS IMPROVING

Civic pride has gotten busy at Corvallis, and visitors of the future will find a splendid city. Bids have been received from numerous paying concerns, but the plan was given to the Warren construction company of Portland. The council at a special meeting made the award and decided to have sixteen blocks paved with bitulithic hard pavement. The price made was \$2.15 per square yard, and the contract specifies that the work must be completed by next July.

Another improvement just completed is the new reservoir, with a capacity of 500,000 gallons. The water supply comes in pipes from Mary's mountain, 17 miles away, and while the supply is unlimited, the new reservoir will furnish a large auxiliary supply in any emergency that might arise.

Court Reporter R. M. Richardson left Monday for Lakeview. During his absence his place on the Herald will be cared for by Charles Baldwin. Mr. Baldwin is a young man who has been a resident of the city for some time. Any courtesies shown him will be appreciated by the Herald.

It is worth a thousand dollars a year to have the habit of looking on the bright side of things.

## BRIDGING THE SANTIAM

The state railroad commission has been asked to withdraw the mandamus proceedings requiring the Oregon and California Railroad company to build a railroad bridge over the North Santiam river near Crabtree. The reason for this request is that the company is building a bridge near Lebanon, which will meet the demand. The commission refuses to withdraw the demand at this time on the ground that the company must show good faith in proceeding with the construction work. From the apparent manner in which the work of preparing for the construction of the bridge is progressing, and from the number of men and teams at work grading for the railroad extension, the company will have no trouble in dispelling the fears of the railroad commission.
