BOB LAUGHLIN DEAD

Robert Laughlin dropped dead Monday at the home of Jacob Rueck in Yonna Valley. Mr. Laughlin, who has been living in Yonna Valley, has failed considerably during the past week and this morning drove over to Mr. Rueck's place. He had difficulty in getting out of the wagon and just as he entered the door of the house

fell and when picked up it was found that he was dead.

Bob Laughlin served a short time in the State Asylum a few years ago, after having cut his hand off with an ax while out of his mind. He was discharged and has been living in Yonna Valley ever since.

YOU DON'T OFTEN HAVE SUCH A CHANCE

THIS special season's clearing sale is such an opportunity as you seldom have for supplying yourself with good clothes at less than they are worth. If we get you acquainted with our excellent merchandise in this way; demonstrate the merits of Hart, Schaffner & Marx clothes to you, we'll make more in your good-will than we lose in the prices. We can afford to make a little investment in your good-will, at the expense of profits.

A Hart, Schaffner & Marx Special Sale

The fact is such clothes as Hart, Schaffner & Marx make are seldom sold at less than the full price; it isn't necessary; they're always worth full price. But we buy more clothes than just enough; we can't tell in advance what we're going to want; we want to have more, anyway. And here they are.

They're just such clothes as we sold during the fall and early winter; fine, high-class Hart, Schaffner & Marx clothes; suits that are worth and that sold for \$40, \$35, \$30, now marked to sell at \$31.55, \$27.65, \$23.85; overcoats that are worth and brought \$35, \$25, \$22.50, now selling at \$23.85, \$18.45, \$16.15. The difference in the price represents our desire not to carry over these goods until next fall; we offer you this difference to induce you to take the clothes now. You'll realize what a big inducement it is when you see the goods.

Making use of an electric spark to take each picture, a German scientist has perfected the most rapid moving-picture camera known. A bone be-

ing penetrated by a rifle ball and a bullet entering a bladder filled with water are two of his successes.

As tungsten is not ductile lamp filaments are made by combining the metal with binding agents and pressing it through diamond dies at high pressure, after which the agents are driven out with electricity, leaving the tungsten in practically a pure state.

Chas. Linzi returned home last Saturday from his ranch at Meadow Lake. He is building a five-room residence and has it most completed. He has dug a well twelve feet deep and reports good water and plenty of it, and states that he dug through nine feet of rich, black soil. He is going up next week to build fences and intends to move there as soon as the weather will permit. Mr. Linzi ordered some shrubbery from the Oregon Nursery a few days ago and wants to get started in time in the spring to put them out, and also put in a crop. He will sow about 100 acres of grain this year.
