CHAMBER OF COMMERCE PARTY FROM SACRAMENTO COMING

Arrangements Being Made to Have Private Train of Twelve Cars Run From San Francisco

SACRAMENTO, Cal., March 4.—An excursion party headed by President Crane, of the Chamber of Commerce of Sacramento, will leave in a private car for Klamath Falls on next Thursday. There will be about twenty in the party, among them being Mayor Beard, of this city; Secretary Wilmarth, of the Pioneer Trust Company; C. E. Weirich, president of the Weirich estate, and Irwin R. Broughton. Many of the wealthy citizens of Sacramento are greatly interested in the future of Klamath Falls, and a large number of them have invested in property there. The excursion was gotten up for the purpose of permitting those interested in getting better acquainted with the Klamath country, and it is probable that many additional purchases will be made by members of the party.

In addition to the above excursion from Sacramento, arrangements are being made to run a special train of twelve cars from San Francisco to Klamath Falls in the near future. This party will be headed by Mr. Burk, of the San Francisco Chamber of Commerce. Both Sacramento and San Francisco capitalists have made large investments in property here of the Klamath Development Company, and it is understood that this visit will result in many improvements on the property. It is stated that there is to be erected a large number of summer homes and residences in the Hot Springs addition and also many business blocks. Parties from Portland also state that there is great interest manifested there in Klamath Falls, and many are investing in property. Later in the summer an excursion will be arranged to allow them to visit this section.

United Press Service. WINNIPEG, March 7.—The news reached here today that the Canadian Pacific transcontinental train, carrying 100 passengers for the Twin Cities, escaped by less than a minute an avalanche which would have swept it into Bear Creek canyon, near Rogers Pass. The train is now stalled at Field Station between two mountains of debris, with no chance to get clear for several days.

SECOND CROP OF VEGETABLES

Gardens and Green Houses at Hot Springs Southeast of City Are a Great Convenience

John Bauer, who has charge of the Lewis green house and gardens at the hot springs southeast of the city, was in town today with a fine load of vegetables, among which was lettuce, the leaves of which measured a trifle over sixteen inches in length. Mr. Bauer states that he is now delivering from his second crop this year, the first having matured in January. The green house is 21x128 feet and in addition to this are the young plants which are grown in beds surrounding the springs and covered with glass frames. The gardens are all irrigated and the frost kept from the soil, with the water from the hot springs. Nearly every kind of vegetables are grown, and in addition flowers and plants for transplanting.

WILL ACCEPT TELEGRAMS FROM SUBSCRIBERS OVER PHONES

The Western Union Telegraph Company, through its local representative, has announced that hereafter telegrams will be accepted over telephones from any subscriber of the local telephone service, having the charges on such messages accounted for by telegram statements which will be rendered monthly to the subscribers. No extra charge will be made for this service, and those wishing to take advantage of this accommodation should arrange for this feature of the telegraph service by a personal call at the Western Union office, or by telephone.

Many business houses availed themselves of the telephone service immediately after the Western Union became installed here, and now the telegraph company announces that beginning at once any telephone subscriber will be given the same privilege.

With the innovation just extended to all telephone subscribers here, there remains no reasonable action to be made on the part of the Western Union to further the facilities for accommodating the telegraph service here.

The Western Union maintains a direct San Francisco and Sacramento line at present and it is expected shortly that through wires to Portland and other northern points will be installed with the completion of the Southern Pacific through this country.

MEMBERS ARE CONTRIBUTING TO FUND

The Odd Fellows already have over \$7000 subscribed for their new building among the members of the lodge. No outside subscriptions have been asked yet, as it is the intention to determine how much can be raised among the members first. All of the subscriptions have been for the minimum amount and many have stated that they would probably increase the amount later. Friday one man raised his subscription from \$100 to \$3000, as he stated that he believed the bonds were as safe an investment as he could secure.

The groom is well and favorably known both in Klamath Falls, where his parents reside, and in Dorris, where he is engaged in business.

THE INFORMATION UNQUESTIONABLE

REPORTED HE WILL BE SUPPORTED BY ADMINISTRATION

Taft Feels That the Country Will Experience Reaction by the Fall Election

United Press Service. WASHINGTON, D. C., March 4.—Joseph P. Cannon will be a candidate for speaker of the Sixty-second Congress, despite his recently reported statement to Congressman McKinlay, of California, that he would withdraw to insure Republican control of the next House. This information is unquestionable. It is reported that the President and Hitchcock have agreed to throw the support of the Administration behind the Cannon forces.

President Taft gave a dinner last night with Cannon as the guest of honor. One guest said today that Taft feels that the country will experience a reaction by fall and be ready to repudiate the insurgents and vote a "Straight Administration" ticket. Congressman Hayes, who has been termed a mercenary insurgent, was the only guest last night who belongs to the insurgent ranks.

Jack Cudahy, Son of Chicago Packer, Slashes Man Found in His Home

United Press Service. KANSAS CITY, Mo., March 7.—Jack Cudahy, son of the Chicago packer, accused of slashing Banker Jere E. Lillis with a knife, appeared in Police Court this morning and was given a continuance until tomorrow. Cudahy claims that he found Lillis in his home on Sunday morning and accuses him of ruining his home. Lillis is at the hospital and will recover. He has knife wounds on each cheek, forehead, left arm and leg and on both hips. The policeman responding to the telephone call found Lillis bound and half nud with Cudahy standing over him. Mrs. Cudahy's brother declares that Cudahy is insanely jealous and that there is no truth in Lillis ruining the home.

The James company was snowbound in the Cascades for several days and the actor was taken ill while out of reach of medical assistance. During the tie-up he gave several impromptu performances in the baggage car for the entertainment of the snow-bound prisoners. When the train was stalled near Ellensburg, he put on an elaborate production of the Merchant of Venice for the benefit of the passengers, marking one of the most unique and interesting incidents in the history of the American stage. Mr. James played his famous Shylock part, while his daughter, a co-star, played Portia.

BOUNDARIES WILL BE CORRECTED

OPEN AGRICULTURAL LANDS IN NATIONAL FORESTS

Will Mean the Restoration to the Public Domain of 4,000,000 Acres or More

The examination of National Forest boundaries carried on by the forest officers last summer and fall upon the initiative of Secretary Wilson and under his direction, has resulted in new information, which will make it possible to restore to the unreserved public domain much land along the edges of and within forests that is not best suited to forest purposes. This is to be done under a plan just approved by President Taft. The plan was formulated by Secretary Wilson and Secretary Ballinger jointly and submitted to the President.

A definition of the lines along which action should be taken was called for by the fact that reports and maps are now in the possession of the Department of Agriculture which show the character of the lands and the cover along the lines of the National Forest boundaries. The purpose of the department in securing this information was to make possible a correction of the boundaries on the principles now approved by the President, for it has never been intended that the National Forests should include agricultural or grazing land not suitable for forest purposes. Plans for gathering the data were drawn up under Secretary Wilson's direction a year ago, and instructions for going over the 60,000 miles of boundaries were issued to the National Forest officers last May. As a result, the boundaries can now be more carefully corrected than has ever before been possible. On the whole, the changes which are found to be called for are of relatively minor importance, but in their aggregate they open to settlement a large amount of land. The application of the rules which the President has approved will mean the early restoration to the public domain of 4,000,000 acres or more of National Forest land. This is something over 2 per cent of the total National Forest area. Three-tenths of the forests have yet to be mapped.

BENSON IS A WINNER

The following editorial appeared in the Baker City Herald on the occasion of a recent visit of Governor Benson to that city:

"Of all the public officials that Oregon has ever had the present Governor, advanced to the office by peculiar circumstances, is probably nearest a commoner. Frank W. Benson loves his Oregon country next to his wife, and he has that kindly feeling for its every citizen which makes him a great man. He is possessed of marked qualities of statesmanship, although he abhors the plan of calling attention to himself at any time. Since his induction into office at Salem things have moved quite differently than before, because he believes with all of his heart and soul in Republican principles and the Republican party.

"People in Baker City knew of Frank Benson and had a high regard for him before he spent two days in Baker last week, but after he had associated with the Baker people they not only retained the high regard they had possessed for him, but they are now willing to go out and do a little work to see that he is retained in office.

"Governor Benson's nature is best illustrated by his attitude on the gubernatorial. It will be remembered that he was elected to the office of Secretary of State and under Oregon law he succeeded to the Governor's chair because of a vacancy. He is making good in every way as a Governor and many members of the party are demanding his election to the highest office of the State. But Benson says no, that he was elected by the people to be their Secretary of State; that he is their Governor by force of circumstances, and therefore has no right to ask election to that office, preferring play fairly and run for a second term as Secretary of State.

"Few men, yes, we say from our knowledge of politics, that very few men would hesitate a moment when they saw it possible to fill the gubernatorial chair by election. But Benson has some conscientious scruples in the matter, just as every public man who expects to stand on his feet in politics for any length of time, should have. And while there is a demand for him to run the Republicans of Oregon cannot refrain from feeling a higher respect for Frank Benson because he views the matter as he does.

"It matters not whether the direct primary or the assembly shall have majorities in Oregon primaries; it matters not whether there are one, two or five candidates against Benson for Secretary of State, we believe that the people are for him and will renominate and reelect him. They could do no better."

The Better The Watch

The more skillful repairing you need.

A dollar watch is built after the fashion of a wheelbarrow—anybody can understand it.

But you take an expensive time piece and it's different. No one but a man who is familiar with its mechanism can deal with it safely.

It's wise to leave all disordered timepieces with us.

One thing more—It's wise not to allow the matter to be put off.
