WILL BE KNOWN AS THE HARRIMAN

PROPOSES THE ERECTION OF A MAGNIFICENT HOSTELRY

Will Have One Hundred Guest Chambers and Be Heated with Hot Water

Articles of incorporation for the Hot Springs Hotel Company of Klamath Falls, with a capital of \$100,000, have been filed with the secretary of state. This company proposes to erect on the triangle opposite the offices of the Klamath Development Company one of the finest hotels in the state. The incorporators are Maj. C. E. Worden, W. S. Worden and S. B. Houston. Mr. Houston is president of the company and will have charge of the work of construction and plans prior to the opening of the hostelry. He came here from Lexington, Ky., about one month ago and after a searching investigation of conditions here, concluded that there was no better place on the coast for making investments than right here in Klamath Falls. He met the Messrs. Worden and became associated with them in the new hotel and no time was lost in maturing the plans for a structure that will be a credit not only to the city but to the men who are instrumental in bringing it into being.

The building will be four stories, with a basement under the entire building. It will be 130x128, facing the point of the triangle, which is to be parked and divided by broad cement sidewalks. The main entrance will be ornate, presenting a handsome appearance entirely in harmony with the style of architecture, which is to be mission. The office is to be a spacious affair 31x51, well lighted and handsomely finished. In this office is to be the main guests' desk, cashier's office, telephone booth, check stand and news and cigar stand. Opening from the office is a grill room 16x16; the main dining room 31x65, facing on the Esplanade. The floor of this room is to be waxed so as to make it available for dancing and banquets. In the rear of the dining room is the culinary department supplied with all of the modern appliances, pantries, storerooms, etc. On the side opposite the dining room are connected with the office by a wide corridor the billiard and bar room, 31x30. Off this are to be two card rooms, finished in Russian style and handsomely furnished. There will also be the barber shop, 14x19, and a reading and writing room, 14x16, and the manager's office. On the side of the hotel facing Main street there is to be a broad veranda, 128x14 feet, access to which may be gained either from the office, barber shop, reading room or the billiard room.

The building is divided into two wings. The space between these two wings is to be roofed over with glass and this divided into two large sample rooms. Off from these two main sample rooms will be two smaller ones and a trunk room, which may be used for the storage of the salesmen's trunks.

Leading from the office to the upper floors will be two electric elevators, one for passengers and one for freight. The freight elevator will have entrance through the sample rooms also.

Directly opposite the main entrance will be the grand stairway leading to the upper floors. The second floor is divided into a number of suites and single bedrooms, reached from a main hall 12 feet wide and side halls six feet wide. There is a ladies' waiting room on this floor, opening from which is a small Turkish rest room. On the second floor will be located the two bridal chambers, and it is the intention of the company to make these noted throughout the coast for the elaborate manner in which they shall be furnished.

The third floor is practically a replica of the second. On the fourth floor will also be located some guest chambers, as well as the servant quarters, linen rooms, housekeeper's offices and rooms. The building is to be heated with the hot water from the springs which will also be piped to all of the rooms.

Along the second floor will be the veranda, which will be reached through a hall and French windows. The structure is to be fully equipped with fire escapes.

Quarter-sawn pine is to be used

for the outside of the first story, the remaining three stories to be finished with shingles. The specifications for the interior finish have not been fully completed.

Every room is to be supplied with a telephone, and these will be connected with the exchange in the main office, through which all of the coast cities may be communicated with. No expense is to be spared in making the hostelry one of the most modern on the coast.

It is to be called the Harriman, in memory of the great railroad king and as a testimonial of appreciation of the benefit he has been to the city and county. It will have 100 guest rooms divided into 14 suites.

CAPT. APPLIGATE APPOINTED TO TAKE INDIAN CENSUS

His Territory Will Embrace All of the State of Oregon

Capt. O. C. Appligate has been notified by the Commissioner of Indian Affairs that he has been appointed as special agent for the taking of the census of the Indians living in the State of Oregon. The appointment came entirely unsolicited and was a great surprise to the Captain. It is made, no doubt, on the strength of his record on file in the Indian Bureau in Washington. He has not as yet received his credentials, but is expecting them daily.

The Captain's duties will take him over a great part of the State, since he is to take the census on all of the reservations and detached settlements. He will, while working in the first census district, be under the direction of Census Supervisor Hendricks of Salem. In the second district his work will be done under the supervision of Seneca Beach, who has charge of the census work there. It will require nearly three months to complete the work. The many friends of the Captain will be pleased to learn of this well deserved recognition of his ability by a branch of the Government with which he has been identified more or less for many years.

NEW LUMBER COMPANY IS INCORPORATED

The Savidge Brothers Lumber Company has been incorporated, with headquarters in this city. The capital stock of the concern is \$30,000. The objects of the new firm are to purchase lumber for shipment to the East.

Savidge brothers are from Spring Lake, Mich. Hunter Savidge came here recently from Cleveland, Ohio, where he was a member of the firm of Putnam & Savidge, among the biggest lumber men of that city. H. J. Savidge has been on the Coast for the past eight years, during which time he has been associated with such well known firms as the California Sugar & White Pine Company, the McCloud River Lumber Company and the Eldorado Lumber Company, all California concerns.

They are old-time lumber men, having been in the business ever since 1871, when they operated a mill under the firm name of Cutler & Savidge. They will prove a valuable addition to the lumbering interests of the county and may be the beginning of a business that will have many followers as the great timber belts of the county are opened up.

EIGHT MEN KILLED

United Press Service. WASHINGTON, D. C., March 28.—Eight men were killed on the cruiser Charleston yesterday at Olongapo, Philippine Islands, by the blowing out of the breech plug of one of the three-inch guns, according to a report from Commander in Chief Hubbard of the Asiatic fleet. The dead are:

PHILLIP JOHN McKeel, master at arms.
WALTER AUSTEDT, seaman.
HENRY A. HEATER, seaman.
LEO RENMOKE, seaman.
HARRI REAVES GARDE, seaman.
RALPH BERKMAN, ordinary seaman.
MAXIE BARNARD, ordinary seaman.
EDWARD ALBERT MOLIN, marine.

The men were buried at Cavite. A court of inquiry is investigating the matter.

F. B. Creery, of Olene, is in the city, having met with an accident in which he lost one finger. He is doing well under the doctor's care.

BIG SUM OF MONEY TO BE SPENT

COUNTY COURT WILL PUT IT IN FINE CONDITION THIS YEAR

When the Scheme of Improvement Is Completed Road Will Be Best in the State

Thirty thousand dollars, if necessary, will be spent in the construction of an automobile road between Klamath Falls and Crater Lake. Judge Griffith, in announcing the decision of the county court, said:

"Klamath County is not going around with its hat in its hand asking its neighbors to help construct roads for it. We are going to build our own roads, and going to do it right. The county court has decided to construct between this city and Crater Lake a highway that will be a credit to the county. We decided that last year and were ready to spend \$30,000 in this work if it were necessary. But the road can be put in fine shape for far less money than this. Already Modoc Point, the nightmare of automobilists and farmers alike, is a thing of the past, and all that remains is to remove a few more 'undestables' along the road to make it one of the most desirable thoroughfares in the state. This work will be undertaken at once and we believe that the complaints made last year will not be repeated this season."

Medford, with commendable enterprise, is hard at work raising a fund to repair that part of the route between there and Crater Lake. It has already met with considerable success and it is quite likely that at least enough money will be forthcoming to place the road in a passable condition. If this is done, then the travel between the two cities should be very heavy this year.

In view of the fact that the Supreme Court of the state has set aside the act providing for state aid in the construction of what was commonly known as the Crater Lake road, which was only a small section of what would eventually be a great state highway, it became incumbent on the county court to do something to place the road in such shape as to remove the many complaints that have been made against it for the past several years. This the court is going to do. The work will be done in such a way as to make it serviceable for the improvements that will be made from year to year, until a perfect highway will have been completed between this city and the lake. How much money will be needed this year remains to be seen. This will be determined after an exhaustive examination now contemplated is made.

NOTED JURIST SUCCEEDS TO AN ATTACK OF APOPLEXY

Was One of the Ablest Judges That Ever Occupied a Seat on Supreme Bench

United Press Service.

WASHINGTON, D. C., March 29.—David J. Brewer, Associate Justice of the Supreme Court of the United States, died in this city last night from apoplexy. The deceased was a native of Kansas, and was appointed as a justice of the Supreme Court by President Harrison in 1889. He has always been recognized as one of the ablest men on the bench, although he has come in for some very severe criticism from the laboring people of the Nation on account of some of the decisions he has rendered on questions affecting their interests.

Discussion of his successor is already being indulged, and it seems to be generally conceded that he will be Lloyd Bowers, solicitor general of the Department of Justice. Mr. Bowers was President's second choice when he recently appointed Judge Lurton.

When President Taft was apprised of the death of Justice Brewer he expressed his deep regrets and stated: "He was an able judge." This sentiment is echoed today by all who knew him. The death of Justice Brewer leaves only seven active members on the Supreme Bench, Justice Moody having been unable to serve since the beginning of the present term, owing to ill health.

The Klamath Development Company has offered grounds for the use of the baseball enthusiasts and a delegation will inspect them this afternoon, with the view to having the grounds put in shape. The grounds are laid out for a park and offer a most desirable location for ball grounds.

Registered at the Livermore are: D. W. Cox, Merrill; L. H. Doten, Merrill; R. McKenzie, Riverside, Cal.; D. N. Cluser, Seattle; Thomas H. Haupt, Findlay, Ohio; F. W. Bitley, San Francisco; J. S. Baker, Portland.

HIDDEN DANGERS

Nature Gives Timely Warnings That No Klamath Falls Citizen Can Afford to Ignore

Danger signal No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

Danger Signal, No. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's Disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here is proof in the statement of a nearby resident.

J. M. Jones, N. Fifth st., Grants Pass, Ore., says: "I have used Doan's Kidney Pills and am glad to state that they have helped me greatly. For some time I suffered from a pain in the small of the back and was also annoyed by irregular passages of the kidney secretions. The many remedies I tried, failed to give the least relief and at last I procured Doan's Kidney Pills. In a short time after taking the remedy the pains and aches left and my kidneys became normal. I gladly recommend Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Don's—and take no other.

BRIEF TELEGRAPH DISPATCHES

CATANIA, Sicily.—Mount Aetna erupted this afternoon, after twenty-four hours of inactivity. Lava is already flowing through the village of San Lee, from which the people had fled. The village was probably destroyed.

WASHINGTON.—President Taft today sent a special message to Congress urging the passage of a bill appropriating a quarter of a million for the carrying out of the work of the tariff bill, as outlined in the annual message.

DENVER.—Joseph Burchard, aged six, fatally wounded his brother, Johnny, aged four, today, because he wanted his infant brother, Capet, to have Johnny's name. He shot a 32-calibre revolver off a high shelf. He expresses no remorse over his act.

RUMORED THAT ROOSEVELT PREPARES TO FIGHT TAFT

WASHINGTON, D. C., March 28.—The story that ex-President Roosevelt is "putting his house in order" so as not to be hampered in case he should decide not to endorse the Taft administration created a commotion here today. That Congressman Longworth, Roosevelt's son-in-law has refused to serve on the Congressional campaign committee in response to a letter from the ex-President, in which he stated that he hoped the family would not be placed in a position that might make it embarrassing to him later, is the statement upon which this story is based. When Longworth was seen today, he refused to affirm or deny it.

MORE TROUBLE BREWING BETWEEN U. S. AND NICARAGUA

Americans Are Petitioning for Intervention by Uncle Sam

BLUEFIELDS, Nicaragua, March 26.—The gunboat Paducah returned today from Greytown, where it went to investigate the seizure of American vessels by the Nicaraguan government, under President Madriz. It is believed that if any attempt is made to attack this city from sea it will be resisted by the Paducah. Consul Moffitt is overwhelmed by petitions from American residents of the republic, asking that he urge the authorities at Washington to interfere in Nicaraguan affairs and bring to an end a struggle that can but end in anarchy. The cruiser Tacoma is expected soon and the relief expedition from New Orleans is eagerly awaited.

GUN STORE WILL MOVE

About the middle of next month the Gun Store will remove from its present quarters in the Kelsey block to one of the store rooms in the Jacobs building. The purpose of this change of location is to secure more room, so as to permit of the installation of a double regulation bowling alley and four pool and billiard tables. Mr. Chambers states that he will increase his stock of sporting goods and carry a line of sporting articles that will be second to none in the State. During his business career here Mr. Chambers has proven himself to be a wide-awake hustler, and the fact that he has found it necessary to take such a big step in advance speaks volumes for the success which he has met—a success that has been well deserved.

REPORT OF THE CONDITION OF

THE FIRST TRUST AND SAVINGS BANK

at Klamath Falls, in the State of Oregon, at the close of business, January 31, 1910.

KENO JOYTINGS

James Bailey, of Ashland, was in Keno Saturday on business.

Mrs. Padgett, Sr., has been on the sick list for the past three weeks. Doctor Hamilton is attending her.

Last Saturday evening the people of Keno gave a free supper at the hall in honor of Reverend Hanson, and also made him a present of \$10, with which to buy a new Bible. After supper the evening was spent singing sacred songs. Reverend Hanson will depart for Kansas, his future home, in a few days. He has been visiting Ira Hanson, his son, during the winter. Mr. Hanson is 73 years old. He is able in the work and highly appreciated by all who know him.

About two weeks ago John Cole an this is the real thing, an actual which Domore got the worst of it, being badly injured in the back and breast. He has been confined to his bed ever since. Domore is an Indian and Cole is a half-breed.

Miss Nellie Faught has gone to Bonanza to visit her father.

ESTRAY NOTICE

One bay horse, 2 or 3 years old, weight about 1000 pounds, no brands visible, came to my place on Seven-Mile about November 1, 1909. Owner may have same by paying charges.
