

# THE KLAMATH TO UPPER LAKE

## CONTRACT FOR TRANSFERRING HER SIGNED TODAY

## CONTRACTOR DOTY WILL DO WORK

### Will Be Placed on Board a Southern Pacific Flat Car and Travel by Rail

A contract was signed this afternoon between the Klamath Navigation Company and M. R. Doty, whereby the latter is given the task of transferring the steamer Klamath from Lake Ewauna to the waters of the Upper Lake. A novel plan has been adopted to accomplish the task and hasten the work. Arrangements have been entered into between the Navigation company and the Southern Pacific, whereby the latter agrees to build a switch from the main line, where it crosses the Altamont road, to the water edge of one of the channels alongside of the track. Mr. Doty will place the steamer on board a flat car and it will then be transported to the Upper Lake by rail. An agreement has been entered into between the Navigation company and the Southern Pacific, under the terms of which the former will use the railroad company's dock.

While none of the principals to the transaction would make any statement for publication, the transaction would indicate that the difficulties arising out of the suit that has been filed by the Navigation company against the Southern Pacific, on account of the closing up of the channel, has been settled, part of the consideration being the concessions that have been made relative to the moving of the Klamath. Whether other matters entered into the settlement, future events must develop.

The transfer of the Klamath will add another boat to the ever increasing fleet on the Upper Lake. It will doubtless be used in connection with the operations of the Crater Lake Company and become a quite prominent feature in the development of the tourist travel in the upper part of the county.

## EVIDENCE INTRODUCED IN TRIAL OF DOCTOR HYDE

### Death of Doctor Twyman Removes One of State's Most Important Witnesses

KANSAS CITY, Mo., April 20.—The death of Doctor Twyman, which occurred yesterday following an operation, removed one of the State's most important witnesses against Doctor Hyde. It was expected that Doctor Twyman would testify that Miss Margaret Swope nearly died, her illness following closely after taking medicine from a box handled by Doctor Hyde. It was expected to prove by him that her sickness was due to cyanide poisoning.

Judge Latschaw overruled the objection of Hyde's attorneys today and admitted the testimony of Pearl Keller, regarding Hunton's death. The defense will make this one of the grounds for appeal, in case of conviction. Another of the objections made by the defense was aimed at the court's remarks "The motive alleged was that Hyde thought whoever stands between me and the Swope millions shall die, and Hunton shall die." The State alleges that Hunton was bled to death. It would seem that all arguments of the defense are absolutely a waste of time.

Miss Keller told of Doctor Twyman's efforts to prevent Doctor Hyde drawing too much blood. She further testified that Mrs. Hyde also protested, adding that two full quarts were drawn. She also stated that Doctor Hyde had come to her and urged her to use her influence to induce Colonel Swope to name him—Doctor Hyde—his executor.

## EARTHQUAKES SHAKE THINGS UP IN CENTRAL AMERICA

### Hundreds Are Homeless and Hundreds Are Flocking to Cities

COLON, April 20.—Dispatches from the interior say that violent earthquakes have again shaken parts of Costa Rica. Hundreds are homeless and the inhabitants of the smaller towns are flocking to the city for food and shelter. A shortage of food is threatened and unless relief is soon extended there is sure to be intense suffering among the people of the stricken districts.

Why discard a valuable plant? We must have a Normal School. There is a well equipped building at Monmouth. You know the record of the school. We must have teachers, and the normal is the right place to train them. Four cents on a thousand dollars is just what it will cost you to do this by voting "Yes" for Monmouth. —J. B. V. Butler, Sec. Com.

## DAIRY DEVELOPMENTS

Mrs. L. M. Fitch was a Klamath Falls visitor last week.

Black's sawmill began its season's operations in the north part of the valley Monday morning.

A Los Angeles syndicate has been getting the prices on a number of farms in Pine Flat with a view of buying them.

It appears that grubbing, piling and burning brush, as a regular occupation, does not harmonize very well with the gathering and writing of news items.

H. E. Crane, of Klamath Falls, was in the valley last week and made a trip to the reservation looking up horses. He reports that the horses that have been on the range all winter are in very poor condition.

A. L. Michael in selling his place in the Pine Flat last week found that the transfer involved the making out of twelve deeds, as other heirs to the estate left by his father were involved, and only one deed to the place had been placed on record. Really, at first, when he undertook to make the transfer, he couldn't find a single deed, not even the patent to the original homestead of his father; but in looking up the title an old trunk, left by his mother, now deceased, at the home of his sister, Mrs. Tom Patterson of Swan Lake Valley, the deeds and patent were found. This illustrates the carelessness that is very common in regard to such matters.

D. P. Shook's residence took fire and was burned to the ground last Saturday night. When discovered, it was very apparent that the fire originated at the northeast corner of the wood house, some 60 feet from the kitchen stove, so that it seems patent that the fire was of incendiary origin. It was late at night, when all the inmates were in bed and asleep. Inasmuch as the barn had been burned only eleven days before, everyone is forced to the conclusion that the same agency had set the barn on fire. Is it any wonder that the community is aroused to fever heat of excitement over the matter? Certain it now is that there is a firebug at work, seeking revenge in this fiendish and inhuman manner for some real or imaginary wrong. In seeking for a cause, it is impossible to find one that appeals to the judgment of the public; for it is conceded that Mr. Shook has been treating people fairly, has quietly attended to his own affairs, and in his conduct with respect to the public has been a law-abiding citizen, interested in the enforcement of the law and the protection of property. The community is, therefore, forced to conclude that these seekers for revenge are persons who are opposed to the law's enforcement and are desperately determined upon making a career of crime successful by making an example of Mr. Shook because of the interest he has displayed in behalf of good government. Under these circumstances people are asking who will be the next to suffer at the hands of those who have destroyed Dave Shook's barn and house? Is anybody safe from the midnight torch? Shall the community be devastated while it stands helpless because no one has been caught red-handed, in his fiendish act? Shall all who, like Dave Shook, have stood up for the right of property and the punishment of thievery be turned out of doors while the flames devour their homes? These are the questions that are uppermost in the minds of the people of this community, and a solution of the problem is the demand of the hour. Do people of other portions of the county wonder at it? Are not they, also, interested in it? "The injury of one is the concern of all," is a trite saying, but it applies to the case in hand. Can any man satisfy himself with a simple expression of sympathy with Mr. Shook? Who knows that he may not be the next to be awakened at midnight by the flames over his head?

## OLD GUARD SEEKING VAINLY FOR LEADER

### Senator Hale Will Retire at End of His Term on Account of Ill Health

United Press Service.  
WASHINGTON, D. C., April 19.—"The duties of leadership of the Senate carry with them no light task, and I have begun to feel the strain," declared Senator Aldrich in a statement made to the United Press today. He assigned his determination to retire to "length of service and a desire to conserve my health." The Senator, after many provisions, prepared a letter today formally notifying Governor Pothier of Rhode Island of his intention to retire. In concluding his interview with the representative of the United Press, he said: "I am going to remain in active co-operation with the National Monetary Commission and shall make it my life work. I have made no personal plans as yet. The subject, however, is something in which the public is not interested."

It was announced today that Senator Hale will retire at the end of his term, the reason assigned therefor being the continued ill health of the Senator. His physicians have advised him against another campaign. He is 74 years old. He has been looked upon as the logical successor of Aldrich in the leadership of the Senate. This announcement has put the regulars in the air. It is possible that Lodge will be chosen as leader. Senator Dooliver, in discussing the condition of the regulars in their mad search for a leader, said today: "There will never be another Aldrich. His retirement means the end of the old regime of individual domination here. It is my wish to see the Senate become a more representative body than the House; more responsive to public sentiment."

William Jennings Bryan arrived here today and stated that he has no intention of running for the Senate. He expressed his gratification over the victory of the insurgents in the fight for the rules committee.

## HOFFSTOT WILL FIGHT EXTRADITION TO PITTSBURG

### Accused of Participation in Bringing of Pittsburg Councilmen

United Press Service.  
ALBANY, N. Y., April 20.—Frank N. Hoffstot, president of the Pressed Steel Car Company, who is charged with conspiracy and bribery in connection with the Pittsburg graft case, will be turned over to the Pittsburg authorities for trial. Governor Hughes today granted extradition. In doing so the Governor stated that the "only question was whether he was a fugitive from justice."

## CASCADE TEMPLE NO. 31

The institution of the Pythian Sisters lodge was completed last night in the A. O. U. W. hall, which will be the meeting place for the new lodge. The Temple starts with a membership of about fifty, and the enthusiasm at the meeting last night is a sure indication that the new lodge will be a popular and prosperous one.

Several names were proposed for the new lodge. A vote resulted in the selection of the name Cascade which, owing to the geographical location of this city, was deemed most appropriate.

The institution of the lodge was followed by a lunch and a social time.

William V. Green, who purchased the Short ranch last June and who has been spending the winter in San Francisco, returned here last evening. He leaves for his ranch in the morning. Elmer Newton has completed his contract for getting the ranch ready for seeding. Mr. Green states that he will sow about 190 acres to oats and the remaining 60 acres to wheat and alfalfa.

## BRINGS IT UP TO FIRST OF JANUARY

### U. S. R. S. COMPLIES WITH THE ASSOCIATION'S REQUEST

### Additional Statement Will Be Furnished From Time to Time So Actual Cost Will Be Known

After a struggle that has lasted nearly three years, the directors of the Klamath Water Users' Association have succeeded in securing from the Secretary of the Interior a statement showing the cost of the Klamath Project from its inception to January 1, 1910. The statement was received last week and was fully considered at the meeting of the directors, which was held in this city yesterday.

The document is quite a voluminous one, and represents page after page of figures. Anyone who thinks that he will be able to take it and settle in a few moments just what the cost is will be mistaken, for the report is given in such minute detail that it will require considerable study to permit of a fair understanding of its contents.

The board of directors are considering the advisability of having it printed so as to furnish a copy thereof to every land owner.

### Give the Kidneys Help and Many Klamath Falls People Will Be Happier

"Throw out the Life Line"—The kidneys need help. They're overworked—can't get the poison filtered out of the blood. They're getting worse every minute. Will you help them? Doan's Kidney Pills have brought thousands of kidney sufferers back from the verge of despair. Will cure any form of kidney trouble.

A Betz, D and Sixth St., Medford, Ore., says: "I suffered from kidney trouble for four or five years. The disease did not bother me much at first and I thought it would pass off, but I grew gradually worse. I began to suffer from such severe pains through my back that I could not stoop. I was miserable when a friend told me to try Doan's Kidney Pills and I procured a box. They at once checked the pain and later removed every symptom of my complaint. It gives me pleasure to recommend Doan's Kidney Pills as they proved very satisfactory in my case."

## MIDLAND ITEMS

Some of our young people enjoyed the day last Sunday boating on the lake.

Mr. Powers, of Merrill, is putting down a well for Mr. Bedding. By the looks of the men, they must have struck oil.

Mr. Bedding went to Portland and San Francisco last Tuesday on a business trip for about ten days.

Ed and John Martin, of Merrill, were in Midland last Sunday.

A number of our people went to Klamath Falls last Saturday evening to see the prize fight.

Miss Ethel Gilson returned to Midland last Tuesday after a few days' visit with relatives at Dairy.

The first car load of Klamath County grain was shipped from Midland last Friday.

Four business men were in town last Friday looking for investments. Your scribe failed to learn their names, but was sure they saw a growing little town with plenty of rich soil and a beautiful location.

The steam plow is running day and night in this country.

Sam Woodard and Mr. Dickson were visitors at the Davidson hotel Saturday night.

Miss Edna DePuy returned to this place Sunday after a visit in the city Saturday.

### HIGH SCHOOL TEAM SECURES GAMES

The High School baseball team has been organized and for the past two weeks has been busy getting into condition. Quite a number of the boys are trying out for places on the team and although many of them are rather small and inexperienced, a good team is being developed. Only two or three of last year's team remain in school and the team will consist mostly of new men, several of whom have had considerable experience and show marked ability. These new players, together with those who played last year, form the nucleus of a first-class team which ought to win a majority of its games.

The Indian team of the Agency has promised the boys several games, the first of which will probably be played a week from Saturday. An effort is being made to secure a game with the fast Monarch team for next Saturday. Letters have also been written to several other teams in the valley and the boys expect to play all comers. All correspondence should be addressed to Ernest Jacobson, the manager. The personnel of the team at present is:

Ord Arnold, catcher; Vernon Motschenbacher (captain), pitcher; Fred Dunbar, first base; Harry Mesner, second base; Ernest Jacobson, third base; Clarence Motschenbacher, short stop; Read Bain, left field; Allen White, center field; Hardin Carter, right field; Glen Beais, Harold Sargeant, substitutes.
