

# PORTLANDERS HERE APRIL 26

EXPECTED THAT SEVENTY-FIVE  
BUSINESS MEN WILL COME

## SIMPLY A MERCHANTS' EXCURSION

It is to be Hoped That They May Be  
Assured of Fair Treatment by  
the Local People

Seventy-five of the leading business men of Portland will be in Klamath Falls on Tuesday, April 26, the plans therefor having been prepared by the Portland Commercial Club. Many of them will for the first time see Klamath Falls and see what this section has to offer. It is not unlikely that many of them will invest, provided they can be assured that they will not be subjected to the same cut-throat treatment that is now being used on the Klamath Development Company and other local enterprises. In the past it has been the custom to induce capital to invest here, and then after it was solidly entrenched a virtual campaign of blackmail was waged against it, either to compel the distribution of free stock to certain individuals or to forsake their property and leave the city.

Times are changing here and a new spirit is fighting for supremacy in this city. It is certain of success, and in view of this fact Portlanders or any other set of capitalists need have no fear that the old campaign of blackmail and plunder will be undertaken.

The excursionists from Portland will arrive here at 7 a. m., April 26, and will remain until 6:30 p. m. They will come in a special train, which will be equipped with the very latest conveniences. Their transportation will include their meals, Pullmans, tips and every other detail. It is to be hoped that proper arrangements for their reception and entertainment in the city will be looked after and that they may be made to see that here is the site of the second greatest city in Oregon.

## DESPERATE TRAIN ROBBERS BEING SOUGHT BY POSSE

Held Up China-Japan Fast Mail and  
Secured Nine Registered Sacks

United Press Service.  
MARTINEZ, Cal., April 18.—Reports from the sheriff's posse which is pursuing the train robbers who robbed the China-Japan fast mail Saturday night, securing nine sacks of registered mail, state that they are hiding in the hills back of Pinole. Sheriff Veales and his posse and Deputy Sheriff John Birmingham, are commanding the trail of the robbers as far as the headwaters of Pinole Cree, when they reported today. Poses from Oakland and Berkeley are out to prevent the robbers from escaping into Contra Costa County. It is believed that if the robbers are cornered they will fight to the finish.

VALLEJO, Cal., April 18.—Local officials today insist that the train robbers did not go to Contra Costa County, but remained in Solano County over Sunday and then escaped northward last night. Sheriff Dunlap's posse is on their supposed trail. The authorities declare that the robbers did not enter a launch and cross Suisun Bay.

BERKELEY, Cal., April 18.—Poses are searching the Berkeley hills for two young men whom they believe to be the train robbers. It is stated that the men stole a rig and a bay mare from Mrs. Hadley, who lives near Port Costa, and were seen in the foothills driving south easterly. The rig was stolen Sunday.

## WASHINGTON LETTER

WASHINGTON, D. C., April 14.—"You see this broad, smooth roadway guiltless of vehicles of any sort? Well, that represents the Congressman's fear of his constituents."

Representative McCredie, of Washington; plump, ruddy faced, and just at that moment perspiring freely, paused in his gassy walk through the subway leading to the House of office building from the Capitol, and leaned against one of the iron posts for breath. The posts separate the sidewalk of the subway from the sixteen or eighteen-foot roadway.

"Over on the Senate side where there is no fear of an economically inclined constituency," continued Mr. McCredie as he resumed his walk, "they have automobiles to take the Senators to and from their offices and the Capitol. They make the trip in comfort, with speed and in a style befitting the dignity of their office."

But there are no autos for us. I suppose that one reason they think we do not need automobiles through our subway is that we are younger men, as a rule, than the Senators, and, being spryer, can walk. Oh, walking does us good, of course, but every time I make the trip either way I feel like getting up in the House and demanding an auto from the appropriations committee.

"We would have had the autos long ago if we were not all cowards. But there isn't one man in a hundred in the House who would dare to vote for a bill providing automobiles for this subway. Every member would be dead sure that the vote would bob up to plague him at the next campaign. It would be a fine slogan for the opposing candidate to cry, 'Ah, ha; Congressman Smith is too lazy to walk from his office to the Capital, a distance of two blocks. Out home here he is not too good to walk, but as soon as he gets to Washington he begins to ride around in automobiles at the people's expense.'"

"That may sound ridiculous to the ordinary citizen, but it is not at all overdrawn. Many a Congressman has lost his official head with less said against him."

## BIG HOTEL AT SALT LAKE DAMAGED BY DYNAMITE

Thought to Be Work of Labor Enemies  
of Construction Company

United Press Service.  
SALT LAKE CITY, April 18.—The new Utah Hotel, in course of construction, was dynamited early today, wrecking the structural steel and destroying thousands of dollars worth of plate glass in the vicinity. This is the second attempt that has been made to wreck this building. The Jonas Construction Company, of San Francisco, is in charge of the erection of the building. The employees are non-unionists and it is believed that the dynamiting is the outcome of labor troubles. The hotel will cost \$2,000,000 and the Mormon church is a heavy stockholder in the company.

## TRIAL OF DOCTOR BEGAN MONDAY

United Press Service.  
KANSAS CITY, Mo., April 18.—The court room was crowded when the trial of Dr. Hyde for the murder of Colonel Swope started today. The opening was marked by a sharp clash between the opposing attorneys. The defense objected to permitting Reed, as special counsel, to make the opening statement. Reed was thereupon appointed special prosecuting attorney as a precautionary measure. Reed alleges that Hyde plotted to murder the whole family. He said the death of Colonel Swope enriches the nieces and nephews \$104,000 each, coming from the \$1,500,000 which he intended to give to charity, but died before he could change his will.

## ATLANTIC LINER MINNEHAHA AGROUND AT BISHOP'S ROCKS

All the Passengers and Crew Are Rescued  
Without Loss of Life

United Press Service.  
LONDON, April 18.—The Atlantic liner Minnehaha ran aground in a dense fog near Bishop's Rocks this morning and is rapidly filling. Her sixty-four terrified passengers were landed with the greatest difficulty at Bryher Island, after several life boats were capsized. No lives were lost. The coolness of the officers allayed the fears of the passengers. They explained that there was no immediate danger.

## W. O. W. DANCE POSTPONED

The dance scheduled by the Woodmen of the World and the Circle for Friday, the 15th, has been postponed until Tuesday, the 19th. A good time is in view, and all members of both orders are cordially invited to be present.

An invitation will be required from all gentlemen not members of the W. O. W., and any member desiring an invitation to be sent to a friend, please communicate with one of the committee composed of Messrs. Brewbaker, McCoy, Cavanaugh, Piel and Reid.

Lloyd French, of Larimore, N. D., is in the city jail charged by Ashland authorities with horse stealing. French came through here yesterday morning at 11:15, riding down Main street and passed on through town. Shortly afterward word was received here of a horse having been stolen at 6 o'clock Saturday evening in Ashland. Sheriff Barnes and Deputy Schallack left in an auto, overtaking French five miles out on the road to the reservation. He is very uncommunicative in regard to his business.

Among those turning in scalps for bounty at the court house Saturday were G. W. Myers, 60 rabbits, 2 coyotes and 2 bob cats; C. W. Kirkpatrick, 57 rabbits; A. C. Watson, 1 bob cat; I. R. Hanson, of Keno, 3 bob cats.

## EDICT--COURT HOUSE MUST REMAIN

THAT IS WHY HE HAS ISSUED  
ORDERS TO HIS SERVANTS

This is the Man Who Has Done So  
Much for the People Who  
Made Him What He Is

The members of the Hog Combine are mad, and all because their \$10,000 baby—not counting what poor Melhase contributed to the fund through one certain Mr. Houston—is making an ass of itself. It has grasped the wrong horn of the dilemma, and as a consequence has placed the Combine in such a position as to make it the laughing stock of the whole county.

The latest bunch of yarns to be handed out to the people to swallow are so palpably incorrect that everyone, including the Combiners, are disgusted, and they have delegated one of their number to handle the quill in the future, especially in all matters pertaining to the court house matter. His only instruction was to use as much gall and vinegar as possible, and give the Herald a—

In the latest effusion an attempt is made to smirch the character of several of the best men in the county, accusing them of bribe giving and bribe taking. Of course, no one believes the story, not even the people who inspired it. It is simply published in a vain effort to cloud the issue.

The casual reader even will readily perceive that there is not one real, solid fact offered as to why the proposition of the Klamath Development Company should not be accepted. Another reference is made to marsh land and chalk rock, and suckers, but this knocking of the agency that was founded solely for the purpose of "publishing the truth and boosting for Klamath Falls," has even made the members of the Combine sore and orders have been given by some who believe they are in authority that it must be stopped.

Two of the shrewdest men in Klamath County are on record as stating that it would be a good thing for the business district of the city if the court house were moved. These men are G. W. White and Alex. Martin. Sr. Both men state that such removal would not depress the value of property one cent. These men are known in this community for their safe judgment in matters of this kind and their opinion will have considerable weight.

The real inspiration of the opposition to the removal is one C. S. Moore—the man who has milked thousands of dollars from the people of this city and county and taken it to Portland to invest in an office building there; the man who has never improved a foot of property that he has owned in the county; the man who has done naught but stand squarely in the way of progress and has been a greater handicap to the people of Klamath County and their material welfare than any other one agency. He is the man who has issued the orders that the court house must remain where it is. He sounded the keynote of the fight on the day the delegation of his servants waited on the county court, when he said in open meeting: "They say this site is worth \$45,000. That may be, but the removal of that court house would cost me more than that, and it must not be done." That is the platform on which this fight has been made and is to be continued. It will hurt Moore! That is the battle cry.

It was all right when the school board placed a \$45,000 school building on the west side to help Moore sell his property; it would be all right if the county erected a court house for that purpose; if the city constructed a city hall to help out the man who collects his tribute here and spends it elsewhere. But when it comes to doing anything for the people, then it is a case of the "people be damned."

The charge has been made repeatedly that the Klamath Development Company is a "California corporation." That may be true, but it is a corporation that has spent thousands upon thousands of dollars in Klamath Falls to help make the very men who are now fighting it. It has brought more money here than it will ever take away; it has done more to advertise Klamath County than all other agencies combined; it is the one great source from which has sprung most of the fame that Klamath County is now receiving. It may be a California corporation, but it spends its money here.

C. S. Moore is an Oregon corporation; he is a product of Klamath County. Everything he has he owes to the people of Klamath. They have honored him in many ways and they have made him the great fortune with which it is said he is endowed. What has he done for his county? Has he played the part of the grateful child? Has he ever spent a dollar here that he could spend else-

where? The only improvement he has ever made in Klamath Falls or Klamath County is a modest residence on the west side of the river, the furnishings for which were shipped into the city. He has found it profitable to charge 10 per cent interest on the money he loaned to the people of the county and take the return therefrom and invest it in a 5 per cent office building in Portland. This is the man who says to the people of Klamath County: "You shall not remove that court house from the present site."

The answer to that command will come in no uncertain tones on April 30, when the people will vote to accept the offer of the Klamath Development Company—the California corporation—and save their pocket-book \$90,000.
