NEW YORK STOPS RACING TO STOP GAMBLING

United Press Service.
ALBANY, N. Y., May 26.—The New York state senate today passed the Perkins bill, making officers and directors of racing associations criminally responsible for all betting on racing grounds. The bill has already passed the assembly. The assembly has also passed the Agnew bill, prohibiting oral betting, which has passed the senate. Both bills are expected to be signed by Governor Hughes, and their enforcement will probably stop all racing in New York state. Though it works a hardship on the county fairs, this is believed to be the only method by which race track gambling can be abolished.

NOW HERE'S A HOW D'YE DO

WOMAN IS ARRESTED FOR NOT TELLING HER AGE

Hood River Enumerator Has Mrs. Mabel Arrested Because She Refused to Tell Her Age

PORTLAND, May 27.—What is believed to be the first case of a woman arrested in the United States for refusing to tell her age to the census enumerator has come up in Portland. Mrs. Mabel Lake of the Hood river valley is the recalcitrant citizen. It is certain that she is the only woman in Oregon who has so vigorously declined to answer the questions as to force legal action.

The warrant was issued Thursday upon complaint of C. E. Markham, one of the enumerators for Hood river county, and was granted by Commissioner Marsh only after the strongest assurances that it had been impossible to persuade the woman to repose confidence in the census bureau's promise not to divulge her age to the world.

The official counter reports that he tried flattery, cajolery and different brands of persuasion in order to avoid the ungallant act of causing the arrest.

CLAIMS HE ACTED IN SELF DEFENSE

KNIFE WIELDER SURRENDERS TO MARSHAL OF MERRILL

And Asserts that Gessl Threatened Him With an Axe in Quarrel Over Bottles

Robert Burns, the woodchopper, who slashed his partner, Otto Gessl, in a quarrel at their camp in Sand Hollow, near Merrill, last Wednesday, gave himself up to the peace officers and is now in the county jail waiting a hearing.

Burns came to Merrill that day afternoon from Sand Hollow, which is eight miles away, and gave himself up to Marshal Clay Cann. Cann locked him up in the town jail and phoned for Sheriff Barnes, who went down in Baenby's auto and brought Burns here.

Burns told Deputy Sheriff Schallock on Thursday that he cut Gessl in self defense. He says that Gessl had been brewing some root beer in their cabin, and had a lot of bottles and cans on the stove night before last.

Burns said he wanted to get breakfast yesterday morning, and asked Gessl to move the bottles. Gessl refused, and Burns says some of them fell over, whereupon Gessl went after him with an axe. He claims he had his knife in his hand whittling kindling, and used that as the handiest thing in self defense. He cut three gashes in Gessl's neck, but the wounds were not deep. Gessl is about town in Merrill today. He claims that Burns knocked the bottles over and then attacked him.
District Attorney Kuykendall and Sheriff Barnes have sent for him to get his side of the story before placing a formal charge against Burns. There were no witnesses.

Jacobson, and fine base running by C. Arnold. Klamath Falls got 10 hits and 17 runs, and Merrill got 2 hits and no runs.

"DO YOUR DUTY OR GET OUT"

IRREPRESSIBLE COLONEL TALKS PLAINLY TO LONDONERS

Says Timidity Is Worse Than Injustice in Dealing With Uncultured People

LONDON, May 31.—England today felt "the big stick."
In a speech here today Roosevelt assailed England's administration in Egypt as follows:

"In Egypt you are not only the guardians of your own interests but of the interests of civilization. The present condition of Egyptian affairs menaces your empire and civilization. You have given Egypt the best government she's had for a thousand years, yet you've recently erred in your treatment of her. It is necessary to remember that weakness, timidity and sentiment alike are more harmful to uncivilized people than violence and injustice. You ought not to be in Egypt if you have no desire to keep order there; then by all means get out. If you feel it your duty to stay there, show yourselves ready to meet the responsibility. You have saved Egypt from ruin, yet if not properly governed it will again sink into chaos."
The speech has caused a tremendous sensation.

INCREASE 150 PER CENT IN 10 YEARS

KLAMATH COUNTY SHOWS LARGEST PERCENT OF GAIN

Salem, Eugene, Albany, Medford, Roseburg, Ashland and Grants Pass Given 5,000 Each.

Semi-official census returns just made public in Portland give Klamath county the largest percentage of increase of any county in Oregon.

It is claimed by the Oregonian that this increase will be fully 150 per cent. As Klamath county was credited with 4,000 population (including Indians) in 1900, this means that this county now has approximately 11,250 people.

This is welcome news to Klamath people. It means that the population of this city, when finally tabulated by the government, will show a very respectable figure; probably between 3,500 and 4,000, and possible 4,500.

Medford is given 8,900 people by the same unofficial report. Medford confidently expected 10,000, and the Mail-Tribune says Medford people are disappointed. Medford has done pretty well, however, growing from 1,791 in 1900, an increase of over 400 per cent.

It is claimed that the First Congressional district will have seven cities which exceed 5,000 population. Salem, Eugene, Albany, Medford, Roseburg, Ashland and Grants Pass. Oregon City and Corvallis are also clamoring for admission to the select circle.

HE GOES SOUTH "FOR HIS HEALTH"

WARNER LAKE IRRIGATION CO.'S ENGINEER SAID TO BE THIEF

With Alleged Stolen Money in His Possession, He Passes Worthless Checks in Hotels

Officers of the Warner Lake Irrigation company would like to know the whereabouts of E. C. Belknap, chief engineer for their Warner Lake irrigation project in Lake county, who has absconded, they claim, with \$8,000 of the company's money.
Belknap was in Klamath Falls about ten days ago, and stopped at the Livermore. While here he got the Livermore to cash a check for \$10, which they have found is worthless. W. B. Millard, assistant treasurer of the company, was here this week trying to find something of Belknap's whereabouts.

He learned from the hotel people that Belknap had said he was going to California for a vacation, on account of ill health. Millard has gone back to Warner lake, and it is likely that he will swear to a complaint in Lake county and try to find the missing engineer. It is claimed that Belknap passed several other worthless checks in Lakeview.
The Livermore has not placed any charge against Belknap as yet.

PRESIDENT CHAPMAN HERE

HE IS HEAD OF ALTAMONT INVESTMENT COMPANY

Comes for the Purpose of Looking Over the Property Recently Purchased by His Company

N. J. Chapman, president of the Altamont Investment company which owns one-half of the famous Altamont property, two miles from the city, arrived here Tuesday evening for the purpose of inspecting the holdings of his company. Mr. Chapman is head of the Aweco Dry Kiln company, owners of a patent dry-kiln which is revolutionizing the drying of lumber and making a fortune for the members of the corporation handling the kiln. He was interested in the Altamont property through the efforts of J. D. Carroll. When seen by a Herald representative today he was enthusiastic in his praises of this city and surrounding country.

"Mr. Carroll and I have been friends for years, and while he has done me many favors none of them equal that of having interested me in the Altamont ranch. This is not my first visit to Klamath county, and it is not going to be my last. While it has been some time since I have been here I was amazed at the strides this city is making and I think the predictions that are made about its being a city of 25,000 will be realized even sooner than the prophets anticipate. There is not a day passes but what I hear some one speak of Klamath Falls. It is the best-known city on the Coast, and it would seem to me that half the population of the Coast will visit Klamath Falls during the next year.
We have extensive plans in mind in regard to the Altamont ranch, and I am here for the purpose of consulting with Judge Noland about them. We have, I think, the best property outside of the city limits, and from present indications it will not be long before it will be one of the best within the corporation. I am glad we get interested in the property, and we propose to do everything we can to make it of material benefit to, not only ourselves, but to the people of Klamath Falls."
Mr. Chapman will be here several days, after which he will return to his home in Seattle.

FOREIGN SUBMARINE HORROR

FRENCH SUBMARINE CUT IN TWO BY DOVER PACKET

Twenty-Seven French Sailors Go to Their Death in an Instant—Captain Tried to Pass Under Packet

United Press Service.
LONDON, Eng., May 26.—Twenty-seven members of the crew of the French submarine Pluvoise were drowned in a collision with a Calais-Dover packet in the English channel today. The submarine was maneuvering half submerged when struck. The packet returned to Calais in a crippled condition.

LONDON, May 26.—Twenty-four men and two officers were lost in the submarine. Recklessness of the submarine's commander in attempting to pass under the packet steamer is alleged to have been the cause. The commander miscalculated his depth. Several hundred people were watching the submarine's maneuvers from the Calais shore and saw the accident plainly. The Pluvoise was nearly cut in half.
