Arthur Livermore returned from a vacation at Rocky Point Friday night and brought back with him some of the finest trout that have been seen here for some time. Arthur caught the limit, and says he never enjoyed better fishing.

F. S. Stratton of San Francisco and F. H. Page of Portland have returned from several days' fishing at the Upper lake resorts, and have gone to their homes. They have spent their vacations here for the past seven years, and think that this region is the finest in the land to enjoy an outing in.

Fred Houston and wife, Carey Ramsby and wife, Nelson Rounsevell and wife and Gladys Roberts left this morning for a three weeks' camping trip in the mountains. They will go by boat to Wampler's, and from there they will travel with pack animals to the head of Blue canyon, where they will spend their vacation.

W. L. Welch came down from Dairy on Sunday, and is stopping at the Lakeside Inn. He says that the rain last week laid the dust in his part of the country, but there was not enough rain to do any material good. The grain needs water badly, and the hay crop will also be a little short. A rain now would do a great deal of good to the farmers in that vicinity.

The grand jury is still in session.

O. B. Gates and wife and Mrs. Gates' sister, Miss Wilma Waggener, went to Eagle Ridge Friday.

Libbey is with the advertising department of the San Francisco Chronicle. They hit the road in the high places on the way up here, and had a most enjoyable time on the journey.

Mrs. Hattie Wilson has returned from Ashland, where she has been attending the Chautauqua assembly. She says there was a very interesting session and that the "dry" movement is attracting a great deal of attention and interest. She will make a report of the doings of the session at the W. C. T. U. meeting tomorrow afternoon at the home of Mrs. B. S. Grigsby.

Morris O'Connell, Dan O'Connell, Floyd McMillan, Donald Worden, Harry Galarneau and Harden Carter secured a hack and went to Spencer creek Sunday. They left here about 7 o'clock and returned at 11:30 at night. They were not there long enough to fish very much, but managed to catch a few trout, but on the way back they killed a big rattlesnake with ten rattles.

Mrs. H. M. Backensto, who with her mother, Mrs. George Bolster, left this city several weeks ago for Albuquerque, New Mexico, for the benefit of her health, is now at Los Angeles, Calif. They left New Mexico because the altitude of that place was too high for Mrs. Backensto. They are enjoying the California city very much, and believe that Mrs. Backensto's health is improving. She is suffering from tuberculosis.

Bert North, whose finger was severely crushed at the Meadow Lake mill a few weeks ago, is getting along nicely. It was at first thought that his finger would have to be amputated, and later, when it was found that it would not be necessary, it was thought that the member would be permanently stiffened, but from the present indications he will not lose the use of the finger altogether, although it was severely injured.

E. L. Burris, who has had charge of the Dorris Booster for some time, was in the city Thursday, and returned to his home next morning. Mr. Burris has been conducting a news little paper in the California town, and his presence will be missed by the residents of that bustling little place. The old steamer Hornet got adrift during the storm Wednesday, and floated all over Upper lake until it was finally captured Thursday off Howard bay.

The steamer Mazama has a contract to bring down 200,000 feet of lumber from Wood river to Terminal, where it will be shipped to eastern points.

The water company is laying a main to the city cemetery. The owners of lots there can soon have the opportunity of making this spot a fitting resting place for the departed loved ones.

Arthur Livermore returned home from his vacation at the Upper lake resorts Friday. He has had good luck fishing, and only returns because the rush at the Livermore hotel makes his presence here necessary.

Wednesday's rain did a great deal of good to the farmers of this county. At Merrill the precipitation was eight-tenths of an inch, on the marsh lands it was one and one-tenths inches, while in this city it was twenty-six hundredths of an inch.

Many voters are registering nowadays. An average of about twenty-four a day are getting their names on the books. In view of the many questions that will come up for consideration this fall every voter should see that his name is placed on the books as soon as possible, and thus avoid any possibility of losing his vote.

Colonel Wilkins took a ride in the same wagon from which he received his injury a few weeks ago, and he found that his injuries were by no means entirely well. He got into the wagon at the bridge, intending to ride to the depot, but he rode only as far as the Baldwin garage before he had to get out and continue his journey on foot. The jolting of the wagon pained him so much that he could not remain in the vehicle.

John Matney was in from his ranch on the Merrill road Wednesday on business. He says that wheat above the ditch was looking rather poor from lack of rain, but thought if the shower that passed over this city had reached that far south it would save the grain and make the heads fill out. He said that if the rain wet the ground an inch deep it would be worth \$500 to him, as he has 200 acres of wheat above the ditch which needed rain badly.

M. R. Higgins, John F. Seebe Jr. and Walter D. Mansfield, all of San Francisco, returned Thursday from Frank Silver's place on the Williamson river, where they have been for some time fishing. They had an excellent time, having caught many fine trout, and were more than delighted with the beauty of the place. These men come here every year for the excellent fishing that abounds on the Upper lake resorts, and believe that there is no better place on the coast for that pastime. They left for their homes this morning.

Mr. and Mrs. C. G. Brown arrived in the city Wednesday from Lakeview. Mr. Brown is clerk of the state land board, and with Peter Applegate, state land agent, has been to Lakeview for the purpose of checking up the state lands with the register and receiver of that office. Mr. and Mrs. Brown left the following morning for Crater lake, where they will be joined by Mr. Applegate. From there they will return to Salem via Medford. Mrs. Brown is the daughter of ex-Indian Agent Mathews, who had charge of the Klamath for four years. She has a number of old friends in the city who were surprised and delighted with her visit.

O. T. McKendree, formerly of Lakeview but now of Oakland, went to Lakeview on Monday to look after his extensive interests in that part of the state.

The Lakeview stage has changed its time of leaving from the evening to the morning. The change was made at the request of the Lakeview people, who will get their mail twelve hours earlier by the change in time.

Chief of Police Townsend appeared in his full new uniform Monday, and he certainly looked every inch an officer. The only thing he lacks is a regulation police club, and that will doubtless soon be provided by the city.

KLAMATH FALLS, OREGON

W. E. Conner arrived here Wednesday from Ashland, where he owns the Hotel Oregon, one of Southern Oregon's famous hostleries. Mr. Conner was manager of the stage line that operated between this city and Pokeyama in the good old days when visitors to Klamath Falls had to "stage it" for thirty-six miles. He is still the same genial old Walter who used to make the traveler forget his troubles by the cordial greeting he gave him at the end of his journey, and the geniality then cultivated stands him in good stead now, when he extends the glad hand to the host of patrons of the Oregon. He returned home the next morning, but promises to come more often in the future than he has in the past. It is nearly four years since he has been here, and says he hardly knew the old town, so great has been the change in the brief period.
