RENAMING A PEST

That in past times the unobservant human race has looked upon the common house fly as a kind of pet is shown by its name. This insect domestic of the scientists has been as domestic as possible. The sugar bowls, the bald heads and the butter plates of the family have been its own by right of possession. Of the kindly and merciful man it was said that he would not harm a fly. That fact was regarded as greatly to his credit.

Science is changing all this. It urges that the house fly be given its proper name of typhoid fly, since it is in the business of spreading typhoid germs and other dregs of nastiness. This whilom pet is in fact the most dangerous of pests. Its presence is proof of filth somewhere about, since it breeds amid stenches and revels in all manner of germ diseases.

Let this unclean insect be known by its proper name. The gullible scientists of past centuries were hoodwinked by its familiar ways, never realizing that the presence of the fly was a signal of danger and a proof of uncleanness. Winged typhoid is what it is, so call it the typhoid fly and banish it.

Do not eat food that has had the contaminating touch of the filth-covered feet of flies. Do not breed flies by permitting filth to remain on your premises.

The fly is a reproach to mankind. Man has harbored it in his home and thus preserved it from extinction by the cleansing processes of frost. Accept the typhoid fly for what it is and enlist in the war of extermination against it.—Exchange.

Anti-Clerical Movement Thought to Be Plan to Make Republic of Spain and Portugal

ROME, August 2.—Indications at the Vatican are that there is a wavering in the Spanish attitude and high dignitaries believe that the pope stands a chance of weakening the king's influence if he is defeated. It is unofficially charged that the anti-clerical movements throughout Spain and Portugal are a plot to unite the two countries into a republic. It is alleged that the Masons are shaping Canalejas' course.

The grand jury Monday returned an indictment against George Welch, charging him with murder in the first degree for shooting Fred Alexander.

Matter of Ticket Will Be Left to the Various Locals—Report to Be Submitted
