

KILLED BY GIRL HE WRONGED

FRANK MISSELER, SHOT BY MISS FREETSCH

New Orleans Faces Epidemic of Shooting by Women Since Miss McLaughlin's Acquittal

NEW ORLEANS, August 25.—Following Mamie McLaughlin's acquittal the police are facing a mankilling epidemic by disappointed girls.

Katherine Freetseh last night shot and killed Frank Missher, her alleged betrayer, and is confident that she will be acquitted. She said that since the McLaughlin case was decided she felt justified in shooting Missher.

The police have been informed that a number of men have received letters from wronged girls threatening them with death. The men are hiring bodyguards to protect them.

Miss Freetseh who is about to become a mother, is a member of an old family.

EXHIBIT OF OREGON'S PRODUCTS IS SOUGHT

Nebraska Visits Portland to Urge An Oregon Display at Omaha's Winter Exhibit

PORTLAND, August 25.—Nebraska is deeply interested in Oregon, especially in regard to its agricultural possibilities. The people are anxious to see what can be produced on lands not requiring irrigation. Thousands are looking toward this state with a view of making it their future home, but they feel that before starting they would like to see the goods.

Such is the argument put forth by C. S. Duff, who is in Portland for a few days to interest Oregonians in the Western Land Products exhibit to be held in Omaha January 18 to 28 under the auspices of the Omaha Daily Bee and the Twentieth Century Farmer. The exhibit will be comprehensive of the progress, products and possibilities of the West, and the object is to bring a practical demonstration of what the West can do direct to the people.

"The lands in Nebraska are overcrowded; that is to say, they are occupied," said Mr. Duff, "and where families exist it is either for the father or the son to seek a new location after the boys get old enough, to think of homes of their own. Many have looked toward the irrigated districts that are well advertised in the vicinity of Omaha, but Oregon is beginning to be talked of a great deal, and many would like to know something about its products. So far we have never had a single exhibit of Oregon products in Omaha.

"My purpose, therefore in coming here at this time is to try to interest individuals or firms to assist in furnishing an Oregon display at the forthcoming exhibit. It can be done without a great deal of cost, and no doubt it will prove highly valuable. I am one of several representatives now in the West arousing interest in the exhibit, and we believe that the West will be well represented. What we would like to see from Oregon is a representative collection of agricultural and horticultural specimens, for they would certainly interest the home-seekers of our people."

While in the city Mr. Duff will make his headquarters at the Portland Commercial club.

FIFTY-FIRST PALACE IS READY FOR KAISER

Younger Members of Family Gather Together for the First House Warming

POSEN, Germany, August 25.—Emperor William, the empress, Crown Prince Frederick Wilhelm and Crown Princess Cecille, Prince Eitel Friederich and the younger members of the imperial family arrived here today for a housewarming of the new royal residence. The festivities will last three days.

This palace, the fifty-first owned by the emperor, to maintain which he recently sold two of his smaller country places has been built, for reasons of state, to symbolize to the Poles the Prussian supremacy in German Poland. It has been assigned by the emperor as the permanent residence of Prince Eitel Friederich, his second son.

It is a massive structure, built at a cost of \$1,335,000, covers nearly an acre and a half, and contains more than 600 rooms. Among these is the great banquet hall, surpassing in size and brilliancy of decoration any room of the kind in Germany, being a fifth larger than the famous White Hall in the imperial castle in Berlin. Its walls are paneled and richly carved in marble.

A tower 240 feet high surmounts the chapel, which is exquisitely decorated with mosaics executed by Professor August Oetken of the imperial technical school at Charlottenburg.

In this Emperor William will personally conduct divine services when in residence here as is his custom.

NATURAL GAS FUEL FOR LOCOMOTIVE

Railroad in Texas Is Pioneer in Use of the New Fuel—Has Met With Success So Far

SAN ANTONIO, Tex., August 24.—Though the Texas, Arkansas and Louisiana railroad is only seven miles in length, and does not figure on Wall street, it is the pioneer in the use of natural gas as a fuel for locomotives. The one engine of the system, after burning coal and oil, is now using natural gas to get up steam and it is claimed that the last is the best of them all. There are neither cinders, smoke or smell incident to its combustion, and steam keeps up with a regularity that would be the delight of any engineer. Moreover a saving of 25 per cent is effected by the use of gas.

To the regular tender, now useless except as a carrier of water, a standard gas tank is attached. No pressure is used to fill it, and after the round trip of fourteen miles there is still some carbon left. The credit of the innovation belongs to J. S. Connelly of Carthage, Mo. Whether natural gas can be used to advantage by locomotives making long runs has not been determined as yet.

JOHN HARSIN SUSTAINS BROKEN RIB IN RUNAWAY

Last week Thursday John Harsin received a wrenched hand, and had one rib broken and another dislocated in a runaway.

He was driving a young team at the Emmitt ranch, ten miles southwest of this city, when the wagon came in contact with a post and the pin holding the double-trees broke. Mr. Harsin had one of the reins wrapped around his hand in order to hold the horses better and when the pin broke the frightened animals began to run, dragging him after them. They dragged him 150 yards before they were stopped, and when he was picked up it was found that his right hand was badly wrenched and that one rib had been broken and another dislocated.

He was brought to this city and Dr. F. M. White was called to care for him. Mr. Harsin is now out of danger although he cannot use his hand yet, and the broken rib has not yet entirely knitted.

OFFICER IN SEARCH OF OUTLAW HORSES

Sheriff Taylor of Umatilla County on Trail of Worst Horses and Steers Available

PENDELTON, August 25.—Sheriff T. D. Taylor of Umatilla county, whose ability as a criminal catcher is known all over the northwest, is now commissioned with the task of rounding up a new variety of outlaw, which task is a distinct departure from the usual duties of his office. The particular objects of his present search are "outlaw" horses, by which term is meant the most vicious and untamable cayuses and bronchos which the ranges of the West afford.

Sheriff Taylor is chairman of the committee on bucking contests in connection with the first annual "round-up," a frontier and Wild West show which will be held in this city September 29, 30 and October 1, and it is in this capacity that he is scouting the country for professional bad horses.

In addition to a large number of horses, the sheriff is also looking for a number of bulls and steers to enter the riding contests, and he wants the largest wildest and fiercest animals in the entire West. He will also make an effort to run a number of animals into the ring that have never known the sensation of being roped.

There is much enthusiasm manifest over the inauguration of an annual Wild West show in the Northwest such as those held each year in Denver and Cheyenne, and there is no longer and doubt that the Pendleton exhibition will be the peer of its two forerunners.

From all sections are coming most encouraging reports and promises of assistance in making the event successful. From the Coeur d'Alene country on the north to Klamath Falls on the south, and from Montana and Colorado on the east to the Pacific ocean on the west are coming the best riders and ropers that mountain and plain have produced, and the three days' celebration will be a veritable carnival of cowboys.

Would Regret It

Gunner—Some magazine writer contends that Pullman car porters are despots, and should be shown no quarter.

Guyer—H'm! Let him try to travel without showing them a quarter.—Chicago News.

Martha E. Fisher left for her home in Seattle Friday morning, after a visit with friends near Bonanza.

MORE CASES THAN EVER BEFORE. OVER 300 ARE DEAD AND MISSING

STEPS TO BE TAKEN TO PREVENT TYPHOID

Health Officer Hamilton to See That Precautions Are Taken to Prevent an Epidemic

State Health Officer Dr. R. R. Hamilton will take active steps to prevent an epidemic of typhoid fever in this city, and his first efforts will be in the nature of an inspection of the milk that is being supplied to the citizens of this city, and also investigate the condition of the dairies that supply milk to Klamath Falls.

Not only the dairies themselves, but the milk as it is delivered to the patron will be inspected, and if any of it is found to be impure or if preservatives of any nature are discovered the person using them will be prosecuted.

The milk must not be diluted and the cans and receptacles in which it is contained must be kept absolutely clean, and the stables in which the cows are confined must bear inspection.

Dr. Hamilton, who was appointed a short time ago, has the authority under the state law to inspect the dairies and other places where foodstuffs are dispensed, and he intends to see that the law is obeyed.

There has never been so many cases of typhoid fever here before, and the physicians are as yet unable to locate the exact source of the epidemic.

Those suffering from typhoid are: Mr. Morgan, John Allen, Miss Reed, a sister of Mrs. Varsteg, Charles Newman, John Hamilton, J. L. Fielder, A. H. Berry and three cases at the county poor farm.

Dr. Hamilton intends to see that all the precautions possible to prevent an epidemic of typhoid are taken.

IS ORGANIZING HIS FORCES

ROOSEVELT GETTING READY FOR CONVENTION BATTLE

Believes It Is His Duty to Hunt Criminals Out of His Own Party or Any Other Party

BUFFALO, August 25.—Colonel Roosevelt, not depending solely upon his personal popularity for support in the Saratoga convention, before he left Herkimer began the organization of his forces. He telephoned to Lloyd C. Griscom and Mr. Loeb, who will conduct the skirmish for delegates. Colonel Roosevelt was encouraged by the reception he received at Utica, Vice President Sherman's home. Before he started for Cheyenne this morning he was the guest of honor at a breakfast at the Elliott club, the 500 persons present cheering his declaration to fight. He said: "I feel that it is just a little more my duty to hunt a crook out of public life because he happens to be in my own party. I believe in pure government, and in so believing I do not recognize any party distinction. I distrust the demagogue who does not see the crookedness in the grafting labor leaders, and I also distrust him who sees the crookedness in the poor alone and overlooks the financier at the head of corporations."

GOVERNOR BENSON IS MUCH BETTER

Disease Overcome, and He is Sure to Recover, Says Doctor Steiner

SALEM August 25.—Dr. R. E. Lee Steiner, superintendent of the asylum, has just returned from San Francisco, where he visited Governor Frank W. Benson. His report as to the governor's condition are most encouraging. "Dr. George Culver, physician for the governor, says that while Mr. Benson is very anxious to return to Oregon, he has advised him not to do so until after the primaries," said Dr. Steiner. "The physician believes the excitement and worry of the campaign might do him harm. He declared very forcibly that Governor Benson would certainly make a complete recovery, although the operation has disfigured him somewhat."

"There is absolutely no cancer. Governor Benson has been suffering from what is known as deep-seated lupus, and the treatment given him has effectually checked the disease, so there is no possibility of its returning. In my mind and in the mind of the physician, the governor is well along on the road to recovery. He is active each day and when the weather is pleasant he is out daily."

W. E. Snook and wife arrived from Arizona Thursday and are registered at the Lakeside Inn. They are both experienced teachers and will be instructors at the Agency during the coming winter.

MILLIONS GO UP IN SMOKE IN IDAHO

One Hundred and Eighty Men Reported Surrounded by Fire—Residents of Village Flee

SPOKANE, August 25.—The forest fire situation as reported from the burned districts today estimates the property loss at \$20,000,000, divided as follows: Wallace \$1,000,000 Coeur d'Alene mines 250,000 Railroads 3,000,000 Settlers three states 250,000 Timber 15,000,000 Total dead and missing 327 Forest rangers: Under Joe Halm 85 Under F.A. Fern, no trace 100 Conditions in St. Joe county are reported worse.

SPOKANE, August 25.—Two relief expeditions under Forest Rangers Fisher and Holcomb started to penetrate the forest today. The fires around Wallace and other towns in that vicinity are dying out, due to a lack of material for the flames to feed upon.

Considerable improvement is reported in Montana, and headway is being made against the flames.

Relief contributions are beginning to pour into Wallace. Boise has sent \$3,000 and other places are sending various sums.

Forest Ranger Watson has reached Kootenai after a desperate trip to get relief for six men who are hemmed in by fire near Selway.

It is reported that 180 persons are surrounded by flames between Lolo Pass and St. Maries.

Magalia Fires Controlled.

CHICO, August 25.—The fires in the Magalia district are under control. The flames are raging in the Chico canyon and highlands, however, and many ranches have been destroyed.

Village Threatened by Flames.

VANCOUVER, Wash., August 25.—A hundred residents of Battle Ground, a village fifteen miles north of here, are fleeing from the flames. Minnehaha, two miles north of there, was saved after a twenty-four-hour fight.

Eleven men at Wild Boy Camp, nearby, cannot be found and it is feared that they are dead.

Two hundred and fifty men of the Twin Falls Logging company at Yacott are reported hemmed in by the flames. No details can be obtained, the telephone lines having been destroyed.

MORE MEN TO HELP FIRE FIGHTERS

CLOVER CREEK FIRE NO LONGER DANGEROUS

Fire Lines Are in Good Condition on North, South and West—Nothing Heard From Mt. Pitt

The situation in the burning district at Clover creek is much better than it was yesterday. From word received here late last evening it is learned that the fire is under control on the north, south and west, but that it is still burning on the east.

The fire has jumped the lines on the east and has made it necessary to establish a new camp. M. J. Snel of the Southern Pacific land department is in charge of the fire fighters for the government, and is doing good service.

The private timber holdings will not suffer very severely, but in the government holdings the loss will be heavy.

Twelve men were sent from here yesterday to aid in subduing the flames. No direct news has been received from Mount Pitt, and it is not known in what condition the fire is at that place.
