

## INSPECT UMATILLA PROJECT

BOARD OF ARMY ENGINEERS FINISH WORK THERE

Bond Will Have Exhibit in the Hill Oregon Car—Portland's Festival Was a Success

PORTLAND, Sept. 13.—Members of the board of army engineers have inspected the Umatilla irrigation project during the past week, and upon their report depends Oregon's chance of sharing in the \$20,000,000 bond issue proposed for the completion of reclamation projects already under way. The inspectors declined to make any statement, but it is regarded as certain that their report will be favorable.

They went carefully over the district and saw thriving orchards, alfalfa fields from which three crops have been cut, and gardens filled with fine vegetables. Reclamation service officials told the engineers that conditions on the proposed extension of the project are more favorable than those on the district where reclamation work has already proved so successful. The extension of the project will irrigate 60,000 acres additional.

Bond is going to get valuable advertising in the East by making a complete exhibit in the Oregon car to be shown by the Hill interests. A splendid collection of products grown around Bond will be included in the exhibit, which will be an object lesson in what Oregon farms can grow. It is certain to get good results. Every Oregon town should have a like showing.

Beautification of railroad stations in Oregon is planned by the Harriman lines, and W. C. Chace has been appointed official landscape architect. Eugene was the first city in the state to adopt modern landscaping ideas for its depot grounds, and others will follow suit.

Portland's Harvest Festival, which was the big feature of the past week in Portland, was the most successful event in the history of the city of that description. The crowds were the biggest ever attending any similar affair in the state with the exception of the livestock show at the Lewis and Clark fair. The stock was of a very high class, and the races were run for the biggest purses ever offered in the Northwest. The support given the fair was gratifying, and plans are being outlined for a \$1,000,000 livestock show next year.

## ARIZONA CONSIDERING NEW CONSTITUTION

Democrats Want Initiative, Referendum and Recall Incorporated in the Instrument

PHOENIX, Ariz., Sept. 13.—Arizona has elected fifty two delegates to the constitutional convention. The republicans and democrats both claim the victory. The labor party also claims several delegates. The democrats are urging the incorporation of the initiative, referendum and recall. The republicans say that President Taft and congress reject the constitution because of these measures.

Complete returns show democrats have elected forty-one, the republicans ten and the independents one delegate to the constitutional convention. The republicans attribute their defeat to Hitchcock's invasion of the territory. The territorial republicans resented that official's attempts to dictate.

The people of that vicinity are much in favor of the Sunday school work being taken up next summer. If Miss Applegate teaches the Swan Lake daily school we are pretty sure of a Sunday school.

The people desire to thank these young ladies for their noble work toward holding Sunday school here as long as they did. The Sunday school not only proved a pleasure trip for us Sundays, but we have gained strength and knowledge by it.

A flat salary for the state printer was decreed by the voters of the state in 1906, by a vote of 4 to 1, and defeated by Willis S. Dunway on the floor of the State legislative session of 1907 and again in 1909. Why continue a graft when a saving can be made? William J. Clarke is the popular republican, flat salary candidate pledged to this great reform. 2t

## SAEGER WILL APPEAL TO THE ATTORNEY GENERAL

Claims That He Has Complied With the Election Law Respecting the Number of Signers Required

Claude R. Saeger, anti-assembly candidate for state representative from this district, whose petition to have his name placed on the official ballot was rejected by Chief Clerk H. H. Corey of the secretary of state's office, will appeal from the ruling of Mr. Corey and ask the attorney general for an opinion on the matter.

The petition was rejected by Chief Clerk Corey on the ground that the declaration was not filed before the petition was circulated, and also because there were not sufficient names on the petition.

Mr. Saeger's contention is that he has complied with the law which states that "If it be a state or district office and the district comprises more than one county the necessary number of signers shall include 2 per cent of the electors residing in each of at least one-eighth of the precincts of at least two of the counties of the district."

According to the figures of the last election for congressman Mr. Saeger claims that he has done this, and hence will appeal to the attorney general for his decision.

Republicans four years ago were led to believe that by their vote they were electing to office a flat salary candidate for state printer. After nearly four years' experience they are now told by Mr. Dunway that he only pledged "an economical business administration," and now hollers for more of the graft. Give William J. Clarke your primary vote. 2t

### He Has Won The Hearty Commendation of Ex-President Roosevelt for Upholding Progressive Measures Urged by Him while President of the United States

Washington, May 29.—President Roosevelt today issued a statement commending the Oregon members of the House for their support of administration policies and wishing them success in the coming elections in that state. The statement follows:

The President today said goodbye to the two Oregon Congressmen, Messrs. Hawley and Ellis, and stated publicly that he took the occasion to thank them for the attitude they had consistently maintained in support of the administration's policies, and to wish them success in the election which is to take place on Monday next.

The President stated that he wished publicly to express his appreciation of the cordial manner in which the gentlemen had backed up the policies and the measures which the President felt were of such consequence for the welfare of the country and connection, for instance, with such matters as . . . securing proper employers liability legislation, both as regards interstate commerce and as regards the employees of the government itself; securing child labor legislation, and the effort to secure the proper administration by the courts of the power of injunction, and finally securing by the nation of thoroughgoing and adequate control over the great interstate corporations, a control which shall be both effective to prevent any wrongdoing by them and at the same time of such character as will permit the reward in ample fashion of all business which is so conducted as to be for and not against the public interest.—From the New York Tribune, May 30, 1908.
