If State Printer Duniway has made a saving to the taxpayers of the state of \$40,000 in three years why does he not show it by facts and figures? All this great saving is credited to utterances by the state press through articles probably written or inspired by the State Printer himself. In fact, all such savings were made by the secretary of state under conditions over which Duniway had no control. The figures quoted by William J. Clarke, the republican, flat salary candidate, who stands alone as pledged to this great reform, are taken from the records in the secretary of state's office. They are "material and contain facts and figures which the voter and taxpayer should know," says Judge Galloway (democratic) circuit judge of the Third District. 2t

SETTING THE PACE

Everyone knows that the Portland Store for Men's Outer Garments ranks above all other stores of like character on the Pacific Coast. The store is in its fifth year and has probably made more rapid strides in that period of time than any store ever started in this country. There's Always a Reason. This Store Was Established on a high plane as regards Store Equipment and the fine quality of merchandise carried. We have never stood still a moment; we today have the finest Exclusive Clothes Shop in this country and we appreciate the patronage given us by the good people of Klamath Falls, and assure you that this season's display of Hart Schaffner & Marx Suits, Overcoats and Raincoats is as select as can be assembled and they are priced \$20.00 to \$45.00. We solicit your inspection of Fall styles.

FORMS ARE READY FOR THE CONCRETE

Timbers for the Floors Are Being Put in Place at the Bristol Building on Main Street

The foundations are completed and the forms are ready for the concrete walls for the new building which H. M. Bristol is erecting on Main street, between the Boston Store and the Portland Store. The building will be one story in height, but Mr. Bristol is putting in a foundation and wall that will suffice for two more stories if he cares to add them to the structure.

Mr. Bristol is also building a stone foundation for the building which he will eventually erect on the adjoining lot, but which for the present will act as a retaining wall for the concrete sidewalk which is to be put in. If the owner of the Boston Store block would build a concrete walk this fall it would add much to the appearance of the street and at the same time put money in the pockets of the merchants in that block, as it would make a much better walk and attract persons to that side of the street during the bad weather.

Republicans and others should read the arguments, published in the Corrupt Practices pamphlet, supplied by William J. Clarke and Willis S. Duniway, and then decide who was telling the truth. Which one is the taxpayer's friend? 2t

Pronounced dead by several physicians a Chicago man was saved from burial alive by a perfunctory final test made with an electric needle.

FOR CONGRESSMAN

Hawley or Mulkey---Which?

W. C. Hawley is the assembly candidate.

B. F. Mulkey submits his candidacy to the people.

Hawley opposes Statement One, direction legislation and popular election of senators.

Mulkey stands for Statement One, the direct primary and popular election of senators.

Hawley stands for Cannonism, Aldrichism and standpatism. He voted for a revision of the tariff to enrich special interests.

Mulkey stands for a revision of the tariff downward to benefit the consumer, stands with the insurgents and Roosevelt to make this a "government of the people, by the people, for the people," instead of for the trusts and special interests.

Hawley is reactionary.

Mulkey is progressive.

Mulkey has challenged Hawley to debate the foregoing issues.

Hawley has repeatedly declined.

Why?

Which do you prefer?

If you are a standpatter, vote for Hawley.

If you are a progressive, vote for Mulkey.
