Fire Broke Out About 3:30-Some of the Merchants Will Sustain Heavy Loss

A fire which broke out about 3:30 a. m. Thursday came near taking the block on Main street, between First AEROPLANE FALLS 3,000 FEET and Second streets, and if it had not been that the fire department responded quickly and there was no merchants will be heavy losers.

The fire is supposed to have originated in the City bakery, although the proprietors of that institution say that it started somewhere else.

Night Patrolman William Hall was the first to discover the blaze and turned in the alarm.

"The people here have no idea of what those in other sections of this coast have suffered the past season. We seem to sit down here and wrapping our arms around ourselves we bemoan our misfortunes, while as a matter of fact we have every reason to be rejoicing. I have been in what is supposed to be the crack localities of Washington and Oregon, and if those who think we suffered here could see what I saw they would soon realize that Klamath county has no

reason to complain. "From here to Canada havoc has been wrought, but you hear nothing of it. The people who live in the sections that suffered worst smile and tell you about the great crops they have raised, but when you get next to the real facts they were burned up by the frost that visited the coast last June.

"The best bunch of boosters I met on the entire trip are those of the Rogne River Valley. This has been a hard season on them over there, on account of the drought. While drawing comparisons between Klamath county and their section I was surtheir imagination. This county ought to be around the north pole if it fitted into their description.
