

FIND BODY OF ERNEST FINNELL

WAS DROWNED LAST WEEK MONDAY

DISCOVERED BY MRS. NEWNHAM

Was Noticed in the Water Opposite the Old Mill Sunday Morning. Buried Yesterday

The body of little Ernest Finnell, who was drowned last Monday evening, was discovered by Mrs. James Newnham, granddaughter of W. N. Willson, Sunday morning about 10 o'clock. Coroner Earl Whitlock was at once notified and the body was taken to the morgue, where it was prepared for burial and interred in the cemetery here the same afternoon.

The little fellow was 12 years old, and was the son of V. B. Finnell, the Fairview grocer. He was fishing in Link river above the rapids Monday afternoon and had hooked a large fish. He was either pulled into the water by the fish or else he tripped over his pole, which is not known to a certainty, and fell into the swift running water. He swam down stream for a hundred yards or more, and evidently struck against a rock, for there was a bruise on the side of his head.

Sees Body in the Water

Search was made for the body, but without effect until Sunday morning, when Mrs. James Newnham, who was looking across the river with a field glass, noticed something in the water and discovered that it was the body of the little fellow.

The wind on Saturday had increased the flow of water through the river, and the body had evidently been raised from the bottom and lodged against a boulder in the stream. During the night the wind shifted to the south and the water fell several inches, leaving the body exposed to view. It was curled around the rock with the head and feet under water, and the pressure of the swift current prevented it from being washed away.

Found Near Old Mill

The remains were found near the old mill and opposite the Joe Conger place, and were almost in the middle of the river. W. H. Sterling and Bob Sloan were passing the Willson house at the time, and on being told that the body had been found they waded to where it was and brought it to shore. The current was so swift that they had to have poles to brace themselves while they were wading out to the body to prevent themselves from being washed away.

Not Badly Decomposed

The cold water had prevented the body from decomposing so badly as it would had the weather been warm, and instead of being black the skin was more of a pinkish color. The features, too, were not swollen so much but what they could be easily recognized.

Buried in the Cemetery

The remains were taken to the morgue, and after being prepared by Coroner Whitlock, were buried in the city cemetery. The little fellow was a member of the Christian church, and services will be held in remembrance of him at a later date.

Ernest Finnell was born in Kentucky, and was 12 years old the 15th of last month.

The sympathy of the entire community go out to his bereaved parents.

FAVORS FEDERAL CONTROL OF INTERSTATE STREAMS

Hot Fight Results Over the Resolution at Session of National Irrigation Congress

PEUBLO, Colo., Sept. 30.—The National Irrigation congress resolutions committee presented a majority report favoring federal control of interstate streams. The Coloradoans presented a minority report urging state control. The debate that followed on the floor was the hottest of the session. The committee refused to recommend any place for the Panama-Pacific exposition, saying that it was extraneous matter.

Francis J. Heney spoke today. He declared that the resolution passed by the Los Angeles Mining Congress favoring state conservation of resources was inspired by the holders of privileges.

Referring to the resolutions offered by the Colorado delegation Mr. Heney said in part:

"The motive may be seen if we look at Colorado, whose coal lands are owned by two great companies. Their evident intention to monopolize the seizure of these lands is sufficient

evidence of the necessity for federal control."

REVOLT EXPECTED IN CHINA

FLEET ORDERED TO BE READY TO SAIL

Deposed Official Said to Be Heading Rebellion—Missionaries Ask for Protection

SAN FRANCISCO, Sept. 30.—Tending to confirm the advices that American troops in the Philippines are arranging for a rush to China, the Asiatic fleet has been ordered to be in readiness to leave at a moment's notice.

Word was received by local Chinese recently that the deposed Generalissimo Yuanshikai was preparing to head a rebellion in Human province. The revolt is ascribed as resulting from the award of the railway and other concessions and the rice famine is also blamed.

The English missionaries are appealing to London for protection. It is claimed this condition is similar to an uprising.

INDIAN BOYS AND GIRLS LEAVE FOR SCHOOL

Go From the Klamath Agency to Riverside, Calif., and to an Arizona Institution

Indian Agent Edson Watson and a number of boys and girls from the Klamath Agency came down from that place Wednesday and left next morning for California and Arizona, where the young people will be placed in schools in those two states.

The two boys and four of the girls will go to Riverside, Calif., where they will enter the school there, while the other four girls are to go on to Arizona and attend the school in that state.

The two boys and the girls are: Jesse Kirk and Eugene Weeks, and Inez Weeks, Eda Jackson, Winnie Jackson, Jennie Hood, Loretta eGorge, Hazel Conny, Kate Drew and Lulu Esset.

NEW PASTOR FOR THE LOCAL CHRISTIAN CHURCH

Rev. Hilton of Milton, Ore., Comes to the Klamath Falls Pulpit Early in November

A new pastor for the congregation of the Christian church will arrive here early in November and assume charge of the members of that denomination in this city. He is the Rev. Hilton of Milton, Ore., and comes highly recommended, both as a speaker and as a man.

Mr. Hilton is one of the strongest men in that church in the state, and the congregation here are delighted to have secured his services. He is popular among church members and laity alike, and is a man who will be a decided acquisition to the citizens of Klamath Falls. He is married and has one child.

AID IN CAPTURE OF MEN WHO BLEW UP TIMES

California State Labor Council Offers \$7,500 Reward for Conviction of the Perpetrators

SAN FRANCISCO, Oct. 1.—The secretary of the State Building Trades council, in behalf of that organization, offers \$7,500 for the arrest and conviction of the perpetrators of the Los Angeles Times outrage. He promises the aid of all the unionists in California in the investigation.

TAFT'S ATTITUDE TOWARD BALLINGER IS UNCHANGED

WASHINGTON, D. C., Sept. 30.—The cabinet "house party" has dispersed, and Secretary of the Interior Ballinger's actions indicate that the cabinet has not disturbed him. It is reported that President Taft would not permit any discussion of the Ballinger incident, indicating that he had not changed his attitude in the matter.

NEWS OF CHINESE TROUBLE IS CONFIRMED

WASHINGTON, D. C., Sept. 30.—Secret dispatches confirm the news of trouble in China, although the war department denies that troops have been ordered to be in readiness to leave. There are 15,000 soldiers in the Philippines.

Klamath Falls Boy Honored

Joseph Vincent Yaden, son of J. L. Yaden of this city, has been honored by being elected president of the Freshman class of the University of Oregon at Eugene. Mr. Yaden is one of the best tennis players in this part of the state, and is also an excellent student. He will no doubt make an enviable record during his college course.

Mrs. Joseph Ringo and children of Crescent are visiting Mrs. Ringo's parents, Mr. and Mrs. Charles Graves.

WILL MAKE VERY NEAT APPEARANCE INDICTED UNDER FALSE PREMISES

RECEIVE JARS IN WHICH THEY WILL BE PLACED

Specimens for Exhibition Should Be Brought in So They Can Be Processed

Five dozen fancy glass jars have been received by the Chamber of Commerce for the processing of exhibits, which will be placed in the booth on the courthouse square and advertise the productiveness of the soil of Klamath county.

The jars are of various shapes and sizes, and when filled with the delicious fruit that is raised here will present a striking appearance.

Every person who has some choice fruit or vegetable should bring it to the exhibit booth, where proper credit will be given to the grower. If each person who has something worth exhibiting would bring it in the booth could be filled to overflowing and no one would feel the burden. Bring in something that you have raised and let it be placed on exhibition.

FRUIT INTERESTS WATCH TEST ON POISON SQUAD

Stanford Professors View Twenty Youngsters as They Feed Them With Sulphur Dioxide Food

PALO ALTO, Calif., Sept. 30.—Some of Stanford's most prominent students are among a squad of twenty on whom the effect of certain chemicals as food are being tested with a view of learning just what may and may not be used in the curative process of California dried fruit. The men, known as the "poison squad," every day eat prescribed foods, while the professors carefully watch the result. The test is of great interest to the fruit growers of the West, especially California, in that it may result in the restoration of the use of sulphur dioxide, which was almost universally used in curing fruits before the enactment of the pure food law prohibited it. Discussion has arisen whether or not sulphur dioxide is really injurious, and so Prof. Robert H. Swan, one of the associate professors in chemistry, arranged to make the test.

One of the first men to volunteer for the work was Kenneth Dolco of Riverside, captain of this year's football team. The tests will be continued for four or five months, when the effects of the sulphur dioxide on the "poison squad" will be reported to the referee board of five chemists appointed by former President Roosevelt during the latter part of his administration.

LAKE COUNTY LANDS READY FOR SETTLERS

In a recent dispatch from Lakeview the Portland Journal says:

The land held under the Silver Lake irrigation project in this county are to be thrown open by the department of the Interior November 26th, but will not be subject to entry, filing or selection until December 26th, at the United States land office in Lakeview.

These lands were withdrawn at the instigation of the department of the Interior some years ago, and have been held useless for many years, with settlers desiring to obtain title to them. The Silver Lake project is another step in the development of Lake county, as the lands are specially adapted to the growing of grain, hay and other products that were found to pay before the railroads headed this way. Much of the tract is choice grain land.

AUSTRALIA AIMS TO BREAK THE TRUSTS

MELBOURNE, Australia, Sept. 30.—The new Fisher administration, the latest proposition, is that all monopolies shall be nationalized and all industrial authority throughout the commonwealth shall be vested in the federation. This ambitious program it is intended to submit to the voters by means of a referendum.

The people will be asked to approve or reject the proposals and afterward legislation based on the people's decision will be brought before the parliament.

It is proposed to hold the referendum in April next. From the present date until then a strong platform campaign will be organized on both sides, and a bitter conflict may be looked for. A factor complicating the situation is the fact that the state governments wish to retain control of the factories within their respective boundaries.

Henry Vinson and daughter, Miss Phoebe, and son, Ruben Vinson and wife came over from Medford Wednesday, and are guests at the Amer-nednesday. They went to Langell Valley Thursday, where Mr. Vinson has a here Thursday.

J. FRANK ADAMS CLEARLY WITHIN THE LAW

Had a Right to Have Fence Posts Cut on Government Land and Pay for the Labor

The many friends of J. Frank Adams, who was indicted a few months ago for trespassing on government land, will be pleased to know that there is little or no prospect of his being convicted of the charge.

The trespass with which he was charged consisted of his having secured fence posts from government land in excess of what one of the agents of the government pleased to consider the lawful limit.

Mr. Adams had 2,500 fence posts cut from government land near Tale lake. The recognized price for posts is 1 cent each on the stump. That would make the stumpage value of the posts Mr. Adams had cut \$25. The law states that posts to the stumpage value of \$50 may be cut each year.

The section of the law authorizing the cutting of the posts follows:

"Section 3—Settlers upon public lands and other residents of the states and territories above named may procure timber free of charge from unoccupied, unreserved, non-mineral public lands within said states and territories, strictly for their own use for firewood, fencing, building or other agricultural, mining or domestic purposes, but not for sale or disposal, nor for use by other persons, nor for export from the state or territory where procured. The cutting or removal of timber or lumber to an amount exceeding in stumpage value \$50 in any one year will not be permitted, except upon application, and after the granting of a special permit. Except as above provided it is not necessary for actual residents to secure permission to take timber from public lands in said states and territories for the purposes aforesaid."

(California, Oregon and Washington are included in the states mentioned.)

The wise (?) government employes saw the posts on Mr. Adams' place and assessed them, not at the stumpage rate, but at the price of 13 cents each, the retail figure. A bill for the posts at the 13-cent rate was presented to Mr. Adams, and he refused to pay it, and was indicted for trespassing on government property.

Mr. Adams had the posts cut by another man paying him the cost of the labor required. The section of the law permitting this follows:

"Section 4—In case when qualified persons are not in position to procure timber from the public lands themselves, it is allowable for them to secure the cutting, removing, sawing or other manufacture of the timber through the medium of others upon an agreement with the parties thus acting as their agents that they shall be paid a sufficient amount only to cover their time, labor and other legitimate expenses incurred in connection therewith, exclusive of any charge for the timber itself; but no person, whether acting for himself or as an agent for another, or otherwise, will be permitted to cut or remove in any one year timber or lumber to an amount exceeding in stumpage value \$50, except upon application, and upon the granting of a special permit."

Mr. Adams' case will probably come before the federal court in Portland this fall and from a close reading of the sections of the statutes governing the acts for which Mr. Adams is charged there is no doubt but that he will be acquitted, if the case ever comes to trial.

FIND BOMB UNDER PORCH AT MERCHANT'S SUMMER HOME

Connected by Wires with Battery in Clump of Bushes—The Police Are Investigating

LOS ANGELES, Oct. 1.—F. J. Zeehandelaar, president of the Merchants and Manufacturers' association, which is backing the Times in its anti-labor fight, reported to the police this morning that a bomb had been found under the porch of his suburban home. Detectives are investigating the affair.

The police found fourteen pounds of dynamite under Zeehandelaar's porch, which was connected by wires to a battery in a clump of bushes.

MAKING AN OVERLAND TRIP FROM GOLDFIELD, NEV.

J. A. Somers and Wife Seeing the Country in the Good Old-Fashioned Way

J. A. Somers and wife are seeing the country in the good old way, making the trip from Goldfield, Nev., to Medford by wagon. They left Goldfield September 24, and have had a most

delightful time since they started. From Goldfield to Bishop they crossed four ranges of mountains, and it took four days to make the 116 miles.

The roads have been pretty good except that they were very dry especially through Modoc county, where there is no crop at all.

They came in thirty-five miles Friday, driving from the Carr ranch on Tale lake to this city. From the Carr place to Merrill the road was very sandy, but from Merrill here by way of the hill road it was good.

Mr. Somers was auditor for several of the Goldfield mining companies, and is making the trip overland for the benefit of his wife's health. They left for Medford Monday.

WAS MISINFORMED

September 27. To the Editor of the Lake County Examiner.—It has been brought to my attention that the Merrill Record, a democratic newspaper published in Klamath county, Ore., has editorially claimed information from Lake county that the Lake county assembly endorsed H. A. Brattain for joint representation from this district and that W. Lair Thompson was recommended for that office by the district assembly in violation of instruction for Brattain. If such information was ever really received by the Merrill Record the originator of the story had little regard for the truth. The county assembly did not endorse anyone for the office of representative. Mr. Thompson has excellent qualifications for the office of representative, and his candidacy met the approval of the people of Lake county.

F. P. LIGHT,

Chairman Lake County Assembly.

W. C. Bishop had business here from Merrill last week.

HIDDEN DANGERS

Nature Gives Timely Warnings That No Klamath Falls Citizen Can Afford to Ignore

DANGER SIGNAL No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL No. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here is proof in the statement of a nearby resident.

J. M. Jones, North Fifth street, Grants Pass, Ore., says: "I have used Doan's Kidney Pills and am glad to state that they have helped me greatly. For some time I suffered from a pain in the small of my back and was also annoyed by irregular passages of the kidney secretions. The many remedies I tried failed to give the least relief and at last I procured Doan's Kidney Pills. In a short time after taking the remedy the pains and aches left and my kidneys became normal. I gladly recommend Doan's Kidney Pills."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

Dr. F. M. White went down to Keno last night to look after Claude Harrison, who is very ill with pneumonia. Harrison is 23 years old, and is traveling over the country. His relatives live at Los Angeles.

COASTER-BRAKES, \$8.50 HEDGETHORN PUNCTURE-PROOF \$4.80

SELF-HEALING TIRES A SAMPLE PAIR TO INTRODUCE, ONLY \$4

NO MORE TROUBLE FROM PUNCTURES

DESCRIPTION Made in all sizes, it is lively and easy riding, very durable and lined inside with a special quality of rubber, which never becomes porous and which closes up small punctures without allowing the air to escape. We have hundreds of letters from satisfied customers stating that their tires have only been given a sponge or twice in a whole season. They weigh no more than an ordinary tire, the puncture resisting qualities being given by several layers of this specially prepared fabric on the tread. The regular price of these tires is \$5.99 per pair, but for advertising purposes we are making a special factory price to introduce them at only \$4.80 per pair. All orders shipped same day letter is received. We ship C. O. D. on approval. You do not pay a cent until you have examined and found them strictly as represented. We will allow a cash discount of 5 per cent (thereby making the price \$4.55 per pair) if you send **FULL CASH WITH ORDER** and enclose this advertisement. You run no risk in sending us an order as the tires may be returned at OUR expense if for any reason they are not satisfactory on examination. We are perfectly reliable and money sent to us is as safe as in a bank. If you order a pair of these tires, you will find that they will ride easier, run faster, wear better, last longer and look finer than any tire you have ever used or seen at any price. We know that you will be so well pleased that when you want a bicycle you will give us your order. We want you to send us a trial order at once, hence this remarkable tire offer.

IF YOU NEED TIRES don't buy any kind at any price until you send for a pair of the special introductory price quoted above, or write for our big Tire and Sundry Catalogue which describes and quotes all makes and kinds of tires at about half the usual prices. **DO NOT WAIT** but write us a postal today. **DO NOT THINK** of buying a bicycle or a pair of tires from anyone until you know the new and wonderful offers we are making. It only costs a postal to learn everything. Write it NOW.

J. L. MEAD CYCLE COMPANY, CHICAGO, ILL.
