

WANT HATCHERY ESTABLISHED

TO BE LOCATED ON SPRING CREEK

WILL ASK THE AID OF CONGRESS

Also Seek Change in Laws Governing the Use of Screens in Irrigation Ditches

An effort will be made to have a fish hatchery established on Spring Creek and resolutions urging Congressman Hawley to use his efforts in that respect will be sent to that official, and it is believed the result will be the setting aside of land on that stream for the site for one of the largest hatcheries in the country.

Officials interested in the propagation of fish have stated that Spring Creek is an ideal place for a hatchery, and if sufficient interest is shown in the matter there is no doubt but what its establishment can be secured in this county.

Klamath county has more water suitable for the propagation of fish than any other county in the state, if not in the United States, and there is no reason why one of the largest hatcheries in the country could not be located here.

At the meeting of the sportsmen Friday the question of screens over irrigation ditches was brought up, and at the suggestion of L. Alva Lewis an effort will be made to have them placed under the control of the game department. As it is now they are under the control of the fish commission, but the enforcement of the law is left to the game wardens. It is to place the screens and also the matter of fishways under the direction of those responsible for the enforcement of the law, the game wardens, that the change in the law is to be made.

TEETH OF PUPILS ARE TO BE LOOKED AFTER

Dental Clinic Has Been Established for Portland Students—An Excellent Idea

PORTLAND, Nov. 5.—Pupils in the public schools of Portland are to have their teeth looked after by the city in much the same way that their general health is safeguarded by the inspection of the school children by physicians of the city health board. A free dental clinic will be established in the city hall, and dentists will examine all children's teeth in grades below the seventh. Those who need dental work done and are unable to pay for same, will have their teeth fixed free. The first examinations are expected to be completed by November 30th, when the free clinic will commence its work.

CHAS. STINDT AND MISS EDLINGTON TO BE MARRIED

Secure a License Saturday From the County Clerk—Both Are Well Known

A license for the marriage of Charles Stindt and Miss Bessie Edlington was issued by County Clerk DeLap last Saturday. Mr. Stindt has a ranch near Bonanza while his bride-to-be has taught school in various places in the county, and has a wide acquaintance. Her parents live in the Bedford district, where Miss Edlington has been teaching the past year.

It had been the intention to have the wedding take place some time ago, but the illness of Miss Edlington prevented the ceremony being consummated.

MERRY CROWD AT HARD TIMES PARTY FRIDAY

Held in Presbyterian Church by Members of the Christian Endeavor Society

A merry crowd of about forty young persons attended a "hard times" party given by the members of the Christian Endeavor society of the Presbyterian church in that building Friday night. Games were played and refreshments consisting of popcorn, apples and pie were served.

Everyone present hoped that the Christian Endeavor society would give another such event in the near future.

HUNTERS HAVE GOOD LUCK ON THE UPPER LAKE

Party of Ashland Business Men Have Fine Sport on Waters Near This City

A party of the business men of Ashland came over a few days ago, and under the guidance of one of the local

sportsmen went to Upper Klamath Lake after ducks. They found what they went after, and every one of the visitors had a most enjoyable time. Those of the party who came down last Friday were: W. B. Beebe, E. V. Parker, O. Winter, L. L. Mullit and J. M. Hughes. They left on Saturday morning's train for their homes.

BISHOP R. L. PADDOCK HONORED IN THE EAST

Degree of Doctor of Laws Conferred on Him by Trinity College This Week

A dispatch from Hartford, Conn., states that the degree of Doctor of Laws was conferred on Bishop R. L. Paddock of the diocese of Eastern Oregon of the Protestant Episcopal church, in connection with the exercises held at Trinity college in observance of Founders' Day.

Bishop Paddock is one of the most popular men in his church in the West, and his many friends in Klamath Falls and throughout the state will be more than pleased to learn of the honor which has been conferred on him.

Bishop Paddock was here last spring, and held services in the opera house, and the nucleus of an Episcopal church was formed which will eventually become an established part of the religious life of this community. His capability and genial disposition won him many friends while in this city, and a recurrence of his visit will be received with pleasure.

GREAT DECREASE IN DESERTIONS FROM ARMY

Less Than Half as Many This Year as There Were Last—Some Posts Had None

PORTLAND, Nov. 5.—According to General Marion P. Maus, commander of the department of the Columbia, with headquarters at Vancouver Barracks, Vancouver, Wash., there has been a remarkable decrease in the number of desertions in the Western posts of the regular army this year.

Last year 559 soldiers were listed as deserters. This year the number is but 227. Quite a proportion of organizations had no desertions at all. The largest reductions in desertions were in Vancouver Barracks, Fort Casey and Fort Wright, Wash.

General Maus recommends that closer individual record and credit be made the basis of selection of officers for future command.

"PEACEFUL EXTERMINATION" IS NOW THE PLAN IN RUSSIA

The Rev. Dr. Wise, speaking of the East, the other day called attention to the fact that Russian cruelty against the Jews is passing into a new and subtler phase, says the Los Angeles Examiner.

The czar seems to have found out that bloody massacres, like that at Kishnev, are unpopular in Europe and America, and comparatively ineffectual. He has, therefore, had recourse to a policy of economic and legal oppression that promises the most lugubrious results in the crushing of the Jewish population, both in body and in spirit.

"You take my life when you take the means whereby I live." It is an old story, and the wonder is that the ruthless spirit of the Russian government should ever have been tempted into the cruder cruelties of wholesale murder.

The lesson of Dr. Wise's preaching has application not only in Russia, but to every other country cursed with legal thumb-screws and the rack of privilege.

UNION OF SOUTH AFRICA IS NOW ESTABLISHED

First Session of the Parliament Is Opened by the Duke of Connaught

CAPETOWN, Africa, Nov. 5.—The Duke of Connaught yesterday morning opened the first parliament of the new union of South Africa. The occasion was made a general holiday, and a grand military and civil pageant marked the event.

The union consists of the states of Cape Colony, Orange River, Natal, Transvaal and the minor protectorates. They formerly were governed by their respective legislatures and federations. Their affairs now will be in the hands of a governor general and the parliament.

A Matter of Conscience

"My health and digestion are perfect, doctor," began the caller in the office of the medical man. "I haven't an ache or a pain. The trouble with me is that I cannot sleep at night."

"Well, if that's the case, sir," said the learned physician, "I suggest that you consult your spiritual adviser rather than me."—Lippincott's

RUNS HIS FARM BY WIRELESS

PORTLAND MAN CONNECTS WITH HIS HOOD RIVER ORCHARD

Enthusiasm of Sons Makes a Convenient Arrangement for Combining Business With Pleasure

PORTLAND, Nov. 5.—Living in Portland for a part of the year and keeping in touch with his fruit ranch in the Hood River district by means of a wireless telegraph apparatus is the method put in use by E. Weiden, who owns a forty-acre orchard in the famous apple section near Portland.

The apple orchard has been developed by Mr. Weiden and his sons during the last few years, and the boys became much interested in the subject of wireless telegraphy and rigged up a station at their home in this city. A few weeks ago they went to their ranch for a vacation trip, and conceived the idea of rigging up a wireless apparatus at that end, and thus keeping in touch with home.

They utilized a tall fir tree for holding their antennae, cutting the limbs off and stringing their wires from the top to a smaller tree a short distance away. Mr. Weiden claims the distinction of being the first man to farm by wireless.

TEMPERANCE MEETING AT MIDLAND THURSDAY NIGHT

Attractive Program Is Rendered. Other News From the Midland Country

A meeting in the interest of state prohibition was held at the Midland school house Thursday evening.

A duet, "Down in the Licensed Saloon," was sung by Mrs. R. D. Vincent and Ray Curry.

Mrs. Bowen then sang a solo entitled "A Mother's Plea for Her Boy." The school children sang "America" and gave the campaign yell.

Rev. G. H. Feese of Klamath Falls was then introduced and gave an address on prohibition which was listened to with great attention by the room full of people.

James H. Driscoll, candidate for county clerk, D. B. Campbell and Claude H. Daggett were Midland visitors Thursday.

Rev. Feese visited the school Friday morning and gave a very interesting talk to the school children.

A Severe Test of His Honesty

"I hope it will be a long time before I have such another test applied to my honesty," a downtown merchant remarked as he returned from waiting on a customer.

"What was the trouble?" asked his partner.

"Those 'near-wool' suits. An old fellow came in just now and asked me the price of one.

"Seven dollars," I told him.

"Speak louder!" he said, holding his hand behind his ear. So I yelled 'Seven dollars.'

"Eleven dollars! Too much! I'll give you nine," he replied.

His partner looked at the speaker in alarm.

"You—er—of course, you did the right thing?"

"I guess you can depend upon me to do the right thing," was the haughty retort. Then he paused. "You'd better get some dollar bills when you go to the bank," he remarked. "I just gave an old fellow our last one for change!"—Harper's Magazine.

IOWA HAS POPULATION OF OVER TWO MILLIONS

WASHINGTON, D. C., Nov. 5.—The census returns show that the state of Iowa has a population of 2,224,771.

This is a decrease, however, of 7,982, or 3-10 per cent, as a result of the great emigration from that state to Canada.

OPINION OF A GEOLOGIST

SUGGESTIONS ON CONSERVATION WORTH HEEDING

Summarizes the Coal Situation in Alaska, Pointing Out Its Vast Importance to Country

Alfred G. Brooks, the geologist in charge of the Alaskan Work of the United States Geological Survey, has summarized the coal situation in Alaska in Survey Bulletin 442, pointing out the importance of making these high grade fuels available for the use of both Alaska and the Pacific Coast states. While the coal supply is of first importance to Alaskans who are attempting to develop the various great resources of the territory, it is also of scarcely less national importance, inasmuch as these fields can furnish the fuel to the industries of the Pacific Coast states and to the Pacific fleet. The development of these fields will conserve the coals of the Eastern part of the United States, which are of most value to the nation because they are nearest the center of population.

The manufacture of iron on the west coast, for which there is abundant raw material, utilizing Alaskan coal, will not only cheapen the product by overcoming the long railroad haul or the trip around the Horn, but it will diminish the drain on the Eastern iron and coal fields. Every shipment of coal carried around the Horn consumes about one-fifth of its own cargo while the hauling of iron and coal over the Rocky mountains results in a still greater waste of fuel.

Mr. Brooks found that in the regions visited the greatest need was for cheap fuel, all industries being directly or indirectly dependent upon it. This, it may be added, applies to much of the territory. At present practically all the coal used in Alaska, and which is not of particularly high grade, is imported from British Columbia—a little comes in from Japan—costing the consumer in the Prince William sound region from \$11 to \$17 a ton. With these figures in mind it can readily be seen that our present magnificent industrial advancement in the Eastern states could not exist if manufacturers, mines and railroads had to meet such fuel bills, instead of paying \$1.25 or \$2 a ton for coal, as is actually the case. If, then, the Alaskan industries are not making a progress commensurate with the resources of the territory, there is sufficient reason for it in this lack of cheap fuel. And with good coal under their very feet, but not a ton of which can be used, what wonder that the men who are attempting to develop this Northern territory should feel discouraged.

PRESIDENT MUST SELECT NEW SUMMER HOME

Much More of a Task Than a Person Would Imagine—Difficult to Find Suitable Place

WASHINGTON, D. C., Nov. 5.—President Taft has encountered many difficulties in selecting his new summer home. A place has been practically chosen, but the announcement is being delayed as long as possible. It may seem like an easy thing for an executive to choose a summer capital, move into a house and be comfortable but it isn't.

First of all requisites, a summer home for the president must be conveniently near some large city, and itself not too isolated, in order that it may be easy of access for callers. Next, the house must be surrounded by plenty of open ground, so that secret service men may properly guard against intruders. It must be situated near the executive offices, where the actual business is transacted and the stenographers and office force is located.

The president, being a golf enthusiast, wants his home within motoring distance of the links. Mrs. Taft wants to be in touch with social events, and this means that the summer home must be near some of the fashionable summering places. Lastly, the executive can't afford to pay an exorbitant price for his summer vacation home.

At Beverly he has been paying \$2,500 each season as rent for the Evans cottage. The owner of this home wants to raze the cottage next summer and put an Italian garden in its place, so the president was notified that he must seek elsewhere for a home.

IMPORTS AND EXPORTS FOR MONTH OF SEPTEMBER, 1910

According to the Bureau of Statistics the export figures of the United States for the month of September show a distinct upward movement, the total value of exports for that month being larger than in any preceding September in the history of the export trade, and also larger than in any earlier month of the current

year. The excess of exports over imports was also larger than in any preceding September except in 1900 and 1897. The total exports of September of the current year were \$168,858,093, against \$153,962,896 in September of last year. The imports were \$117,271,014, against \$121,014,630 in September of last year. This excess of exports over imports in September of the current year, \$51,587,079, is larger than in any previous September except that month of 1900, when the excess was \$56,333,122, and September of 1897, when the excess was \$62,111,786. The value of exports in the nine months ending with September was \$1,222,911,208, against \$1,161,024,910 in the corresponding nine months of last year. The imports of the nine months of the current year were \$1,172,375,910, against \$1,068,594,356 during the same period last year.

The marked advance in the exports for the month of September is largely due to heavy exports of cotton at unusually high prices, the cotton exports for the month amounting to 399,000,000 pounds, valued at \$55,000,000, an average of 13.7 cents per pound. The quantity of cotton exported was larger than in any September since 1904, the value larger than in any September in history of the export trade and the export price per pound also higher than in any earlier September since 1875.

EARL ROGERS IS APPOINTED DEPUTY DISTRICT ATTORNEY

LOS ANGELES, Nov. 3.—Earl Rogers has been appointed special deputy district attorney to conduct the Times inquiry. He will examine the witnesses before the grand jury. The appointment was not made sooner so as to permit Rogers to testify before the grand jury.

SHIP WRECKED ON ENGLISH COAST

THIRTY SAILORS ARE IN DANGER OF THEIR LIVES

LIFE BOATS DARE NOT APPROACH

No Hope Held for Safety of the Crew Who Have Been Exposed for Over Thirty Hours

DOVER, England, Nov. 7.—With the waves sweeping over the wreck of the vessel and the icy waters chilling the life from their bodies, thirty members of the crew Preussen, the largest sailing vessel in the world, are lashed to the rigging to keep themselves from being swept into the boiling surf and ground to pieces among the rocks on which their vessel is fast. Lifeboats and tugs dare not approach the doomed vessel for fear of being dashed to pieces.

The storm is not abating, and it is feared the crew will not last much longer. Thousands of persons line the shore watching the men in the rigging. The Preussen collided with the steamship Brighton in the English channel. The Brighton reached port, but the Preussen was dashed on the rocks at South Foreland. The ship is breaking up, and it is not expected the crew can survive much longer, as they have been exposed already over thirty hours.

Earl Jackson was here from Fort Klamath last Friday.

SECOND HAND BICYCLES, we do not regularly handle second hand bicycles, but usually have a number on hand taken in trade by our Chicago retail stores. These we clear out promptly at prices ranging from \$3 to \$10. **Discount** bargains lists mailed free.

COASTER-BRAKES, single wheel, imported roller chains and pedals, parts, repairs and equipment of all kinds at half the usual retail prices.

\$5.00 HEDGETHORN PUNCTURE-PROOF \$4.00

8 SELF-HEALING TIRES A SAMPLE PAIR TO INTRODUCE, ONLY 4

The regular retail price of these tires is \$5.00 per pair, but to introduce we will sell you a sample pair for \$4.00 each, including freight, \$4.50.

NO MORE TROUBLE FROM PUNCTURES
NAILS, Tacks or Glass will not let the air out. Sixty thousand pairs sold last year. Over two hundred thousand pairs now in use.

DESCRIPTION: Made in all sizes. It is lively and easy riding, very durable and lined inside with a special quality of rubber, which never becomes porous and which closes up small punctures without allowing the air to escape. We have hundreds of letters from satisfied customers stating that their tires have only been pumped up once or twice in a whole season. They weigh no more than an ordinary tire, the puncture resisting qualities being given by several layers of thin, specially prepared fabric on the tread. The regular price of these tires is \$5.00 per pair, but for advertising purposes we are making a special offer to the rider of only \$4.00 per pair. All orders shipped same day letter is received. We ship C. O. D. on approval. You do not pay a cent until you have examined and found them strictly as represented. We will allow a cash discount of 5 per cent (thereby making the price \$3.85) per pair if you send FULL CASH WITH ORDER and enclose this advertisement. You run no risk in sending an order as the tires may be returned at 60¢ expense if for any reason they are not satisfactory on examination. We are perfectly reliable and money sent to us is as safe as in a bank. If you order a pair of these tires, you will find that they will ride easier, run faster, wear better, last longer and look finer than any tire you have ever used or seen at any price. We know that you will be well pleased that when you want a bicycle you will give us your order. We want you to send us a trial order at once, hence this remarkable offer.

IF YOU NEED TIRES—don't buy any kind of a tire until you send for a pair of Hedgethorn Puncture-Proof tires on approval. You are offered a pair of tires on approval which describes and quotes all makes and kinds of tires at about half the usual price. **DO NOT WAIT**—but write us a postal today. **DO NOT THINK OF BUYING** a bicycle until you have seen our new and improved Hedgethorn Puncture-Proof tires. **DO NOT WAIT**—but write us a postal today. **DO NOT THINK OF BUYING** a bicycle until you have seen our new and improved Hedgethorn Puncture-Proof tires. **DO NOT WAIT**—but write us a postal today. **DO NOT THINK OF BUYING** a bicycle until you have seen our new and improved Hedgethorn Puncture-Proof tires. **DO NOT WAIT**—but write us a postal today. **DO NOT THINK OF BUYING** a bicycle until you have seen our new and improved Hedgethorn Puncture-Proof tires.
